RINGKASAN KORPORAT

CORPORATE SUMMARY

"Selaras dengan aspirasi Keluarga Malaysia yang inklusif yang merentasi sempadan agama dan kaum, Pengurusan PERKESO terus komited untuk memberikan penyampaian perkhidmatan terbaik melangkaui ekspektasi pelanggan dengan mendukung konsep 'prihatin' mendekati rakyat walaupun negara masih dalam mengharungi krisis ekonomi dan kesihatan akibat Pandemik COVID-19".

"In line with the Keluarga Malaysia aspiration, which is inclusive across religion and race boundaries, PERKESO management is committed in providing the best service delivery beyond clients' expectations by upholding the concept of 'caring' in approaching the people even though the country is still going through an economic and health crisis due to the COVID-19 Pandemic".

Sejajar dengan aspirasi Keluarga Malaysia untuk menjadi sebuah negara yang inklusif dalam menghadapi situasi yang mencabar akibat krisis pandemik COVID-19, dengan berpaksikan kepada keluhuran Perlembagaan Persekutuan seperti yang termaktub dalam Rukun Negara dan nilai setiap keluarga ini juga disifatkan sebagai komponen penting demi bersama-sama dalam memulihkan negara daripada masalah dan kesan pandemik COVID-19. Isu pandemik COVID-19 telah memberi impak terhadap masyarakat global yang mana krisis kesihatan ini mengubah landskap sosio-ekonomi negara di dunia. Namun demikian, krisis kesihatan ini tidak menghalang PERKESO untuk terus komited dalam memberikan penyampaian perkhidmatan yang terbaik dan berkesan kepada rakyat khususnya Orang Berinsurans (OB) dan Orang Tanggungan dengan menggalas amanah daripada Kerajaan untuk bersama-sama membantu rakyat mengharungi Pandemik COVID-19 dengan penuh tanggungjawab.

In line with the Keluarga Malaysia aspiration to become an inclusive country in facing the challenging situation due to the COVID-19 pandemic, by focusing on the supremacy of the Federal Constitution as enshrined in the National Principles and the value of each family is also considered to be an important component for the sake of togetherness in recovering the country from the problems and effects of the spread of COVID-19. Nevertheless, this health crisis does not prevent SOCSO from continuing to be committed in providing the best and most effective services to the people, especially the Insured Persons (IP) and Dependants by taking the mandate from the Government to help the people cope with the COVID-19 Pandemic with full responsibility.

PERKESO telah diberikan amanah serta tanggungjawab oleh Kerajaan bagi melaksanakan pelbagai inisiatif dalam membantu rakyat yang terjejas di bawah Pakej Rangsangan Ekonomi COVID-19. Melalui amanah serta tanggungjawab ini, PERKESO telah memperkemas lagi sistem penyampaian perkhidmatan supaya segala faedah dapat diberikan kepada golongan sasaran dan mengoptimalkan penggunaan sumber serta mempergiatkan peranan PERKESO bagi memastikan matlamat Kerajaan dapat direalisasikan dengan sepenuhnya.

SOCSCO has been given the trust and responsibility by the Government to implement various initiatives to help the people affected under the COVID-19 Economic Stimulus Package. Through this trust and responsibility, SOCSCO has streamlined the service delivery system so that all benefits can be given to the target group and optimize the use of resources and intensify the role of SOCSCO to ensure that the Government's agenda can be fully realised.

LATAR BELAKANG

BACKGROUND

PERKESO ditubuhkan sebagai sebuah jabatan di bawah Kementerian Buruh (kini dikenali sebagai Kementerian Sumber Manusia) pada 1 Januari 1971 dengan menguatkuasakan Akta Keselamatan Sosial Pekerja 1969 (Akta 4). Pelaksanaan Skim Perlindungan Bencana Pekerjaan pertama telah dilancarkan pada 1 Oktober 1971 di Pejabat PERKESO Johor Bahru. Pada 01 Julai 1985, PERKESO telah bertukar taraf daripada sebuah Jabatan Kerajaan kepada agensi Badan Berkanun dan mulai 1 Januari 1992, PERKESO melaksanakan sistem saraannya sendiri iaitu Sistem Saraan Baru PERKESO.

SOCSCO was established as a department under the Ministry of Labour (now known as the Ministry of Human Resources) on 1st January 1971 with the enactment of the Employees' Social Security Act 1969 (Act 4). The first Employment Injury Protection Scheme was launched on 1st October 1971 at the SOCSCO Office in Johor Bahru. On 1st July 1985, SOCSCO status was changed from a Government Department to become a Statutory Body and on 1st January 1992, SOCSCO commenced the implementation of its own remuneration scheme, namely the SOCSCO New Remuneration System.

FUNGSI DAN PERANAN

FUNCTION AND ROLE

Konsep Perlindungan Keselamatan Sosial PERKESO adalah berteraskan konsep tanggungjawab bersama menerusi "*pooling of resources, sharing of risk and replacement of income*". Perlindungan keselamatan sosial adalah asas yang perlu dipenuhi sebagaimana yang disepakati di bawah Konvensyen Geneva Pertubuhan Buruh Antarabangsa (ILO) 1952 iaitu Konvensyen 102: *Social Security (Minimum Standards) Convention*.

Dalam memenuhi matlamat tersebut, fungsi utama PERKESO diperluaskan agar perlindungan keselamatan sosial kepada pekerja dan tanggungannya lebih menyeluruh. Kini, PERKESO bertanggungjawab mentadbir dan menguatkuasakan tiga (3) akta iaitu Akta Keselamatan Sosial Pekerja 1969 (Akta 4), Akta Keselamatan Sosial Pekerjaan Sendiri 2017 (Akta 789) dan Akta Sistem Insurans Pekerjaan (Akta 800).

SOCSCO's Social Security Protection has, at its core, the concept of joint responsibility through the pooling of resources, sharing of risk and replacement of income. Social security protection is a fundamental need that must be fulfilled as agreed under the International Labour Organisation Geneva Convention 1952, that is Convention 102: Minimum Standards for Social Security.

In fulfilling the said goals, the main functions of SOCSCO are expanded to cover social security protection to employees and their dependants comprehensively. Currently, SOCSCO is responsible in administering and enforcing three (3) acts namely, the Employees' Social Security Act 1969 (Act 4) the Self-Employment Social Security Act 2017 (Act 789) and the Employment Insurance System Act (Act 800).

AKTA KESELAMATAN SOSIAL PEKERJA 1969 (AKTA 4)

EMPLOYEES' SOCIAL SECURITY ACT 1969 (ACT 4)

SKIM BENCANA PEKERJAAN

Akta Keselamatan Sosial Pekerja 1969 (Akta 4) merangkumi dua (2) jenis skim keselamatan sosial iaitu Skim Bencana Pekerjaan dan Skim Keilatan. Skim Bencana Pekerjaan memberi perlindungan kepada Orang Berinsurans (OB) akibat bencana pekerjaan termasuk penyakit khidmat dan kemalangan semasa perjalanan berkaitan dengan pekerjaan.

EMPLOYMENT INJURY SCHEME

The Employees' Social Security Act 1969 (Act 4) encompasses two (2) types of social security schemes, namely, the Employment Injury Scheme and the Invalidity Scheme. The Employment Injury Scheme provides protection to Insured Persons (IP) against employment injuries including occupational diseases and accidents on journeys related to work.

SKIM BENCANA KERJA PEKERJA ASING

Bermula 1 Januari 2019, PERKESO memperluaskan liputan Akta 4 kepada pekerja asing di bawah Skim Bencana Kerja Pekerja Asing (SBKPA) dengan mewajibkan semua majikan termasuk majikan utama dan majikan langsung untuk berdaftar dengan PERKESO. Perluasan perlindungan ini adalah sejajar dengan konvensyen No. 19 ILO Tahun 1925 yang menyentuh mengenai kesamarataan layanan khususnya dari sudut pampasan kemalangan atau bencana. Oleh yang demikian, SBKPA melindungi pekerja asing yang mengalami kemalangan atau suatu penyakit khidmat yang terbit daripada dan dalam masa menjalankan pekerjaannya.

Caruman bagi skim ini ditetapkan pada kadar 1.25% daripada gaji bulanan dan dibayar setiap bulan oleh majikan. Pendaftaran boleh dibuat secara dalam talian iaitu melalui Portal ASSIST PERKESO atau dengan melengkapkan Borang Pendaftaran Pekerja Asing dan dikemukakan ke pejabat PERKESO yang berdekatan.

FOREIGN WORKERS' EMPLOYMENT INJURY SCHEME

With effect from 1st January 2019, SOCSO expanded the coverage of Act 4 to include foreign workers, under the Foreign Workers' Employment Injury Scheme (FWEIS) by making it mandatory for employers, both primary and direct, to register with SOCSO. The expansion of such protection is in line with 1925 ILO Convention No. 19 which refers to equality of treatment specifically in terms of accident or injury compensation. As such, FWEIS protects foreign workers who are involved in accidents or who suffer from occupational diseases arising from or in the course of doing the jobs.

The contribution rate under this scheme is fixed at 1.25% of the monthly salary and shall be paid monthly by employers. Registration may be carried out online through the SOCSO ASSIST Portal or by completing the Foreign Worker Registration Form and submitting the form at the nearest SOCSO office.

“After experiencing large supply and demand shocks as a result of the **COVID-19 pandemic** in **2020**, the re-implementation of containment measures had an adverse effect on the economic recovery, causing the Malaysian Economy to expand moderately at a rate of **3.1%** in **2021**.”

**Assalamualaikum warahmatullahi wabarakatuh,
Salam Sejahtera dan Salam Sehati Sejiwa.**

Bagi pihak Lembaga Pertubuhan Keselamatan Sosial (PERKESO), saya selaku Pengerusi Lembaga dengan sukacitanya membentangkan Laporan Tahunan dan Penyata Kewangan yang telah diaudit bagi tahun kewangan berakhir 31 Disember 2021.

Senario Persekitaran Ekonomi

Perkembangan Ekonomi dan Kewangan pada Tahun 2021 - Pada tahun 2021, ekonomi global mulai pulih daripada kemelesetan akibat daripada pandemik COVID-19 yang bermula pada tahun sebelumnya. Perkembangan berkaitan pandemik COVID-19 terus membentuk landasan pemulihan apabila penularan semula COVID-19 dari semasa ke semasa telah memperlahankan kadar pemulihan ekonomi. Bagi kebanyakan ekonomi, kejayaan inisiatif pemberian vaksin COVID-19 telah membantu pembukaan semula dan pemulihan ekonomi global. Hal ini didorong oleh peningkatan semula perdagangan global yang kukuh meskipun menghadapi isu rantaian bekalan yang semakin buruk. Ekonomi global dan perdagangan global meningkat semula masing-masing sebanyak 5.8% dan 9.3% pada tahun 2021 (2020: masing-masing sebanyak -3.1% dan -8.2%).

On behalf of the Board of the Social Security Organization (SOCSO) and as Chairman of the Board, I am pleased to present the audited Annual Report and Financial Statement for the financial year ending 31st December 2021.

Economic Scenario

Economic and Financial Development in 2021 - In 2021, the global economy started to emerge from the crisis brought on by the COVID-19 outbreak that began in the previous year. Even though COVID-19 re-infection has occasionally hampered the pace of economic recovery, developments related to the pandemic continue to serve as a foundation for recovery. The COVID-19 vaccine initiative's success in many countries has contributed to the reopening and recovery of the global market. This was also fueled by a robust global trade rebound amid escalating supply chain problems. In 2021, the global economy and trade both grew by 5.8% and 9.3%, respectively, compared to 2020's -3.1% and -8.2% respectively.

Ekonomi Malaysia berkembang secara sederhana pada kadar 3.1% pada tahun 2021 apabila pemulihan ekonomi terjejas oleh pelaksanaan semula langkah-langkah pembendungan setelah mengalami kejutan bekalan dan permintaan yang ketara akibat pandemik COVID-19 pada tahun 2020. Tanda-tanda pemulihan yang mula kelihatan pada separuh kedua tahun 2020 turut kelihatan dalam lima bulan pertama pada tahun 2021 meskipun Perintah Kawalan Pergerakan Kedua (PKP 2.0) dan Perintah Kawalan Pergerakan Bersyarat Kedua (PKPB 2.0) telah dilaksanakan pada tempoh tersebut. Hal ini berlaku kerana kebanyakan perniagaan terus dibenarkan beroperasi semasa kedua-dua fasa berkenaan. Faktor ini, bersama-sama dengan sokongan dasar pemulihan Kerajaan yang berterusan, telah meningkatkan permintaan dalam negeri secara beransur-ansur. Pemulihan ini telah diperkukuh oleh prestasi eksport yang mantap susulan permintaan luaran yang menggalakkan. Pasaran buruh turut memulih apabila kadar pengangguran menurun daripada 4.9% pada bulan Januari 2021 kepada 4.5% pada bulan Mei 2021 dan guna tenaga tak penuh juga menurun berikutan pengurangan pengangguran dan peningkatan kadar pengambilan pekerja.

Walau bagaimanapun, momentum pemulihan telah terkesan disebabkan oleh pelaksanaan semula langkah-langkah kawalan pergerakan di seluruh negara di bawah Pelan Pemulihan Negara (PPN). Sementara itu, progres memberangsangkan pemberian vaksin dalam negeri dan penamatan sekatan pergerakan secara berperingkat di bawah PPN telah menyokong pembukaan semula ekonomi dengan selamat yang seterusnya membolehkan kegiatan ekonomi kembali normal secara beransur-ansur menjelang akhir tahun 2021.

Langkah-langkah sokongan terus dilaksanakan untuk membolehkan perniagaan dan isi rumah mendepani kesan kejutan itu dengan lebih berkesan, menyokong pendapatan dan mengurangkan kehilangan pekerjaan dalam pasaran buruh.

After experiencing large supply and demand shocks as a result of the COVID-19 pandemic in 2020, the re-implementation of containment measures had an adverse effect on the economic recovery, causing the Malaysian Economy to expand moderately at a rate of 3.1% in 2021. Despite the implementation of the second Movement Control Order (PKP 2.0) and the second Conditional Movement Control Order (MCO 2.0) at that time, signs of recovery started to appear in the second half of 2020 and were evident in the first five months of 2021. The reason for this is that most firms and enterprises were permitted to run during PKP 2.0 and PKPB 2.0. These factors have steadily raised domestic demand, as has the government's ongoing recovery policy support. The strong export performance that followed favorable external demand has helped to support this recovery. The unemployment rate dropped from 4.9% in January 2021 to 4.5% in May 2021, while underemployment was reduced as a result of the lower unemployment rate and higher hiring rates which indicates that the labor market has started to recover.

The reintroduction of movement control under the National Recovery Plan's (NRP's) measures nationwide has hampered the recovery's momentum. However, the safe reopening of the economy has been aided by highly encouraging developments in the aggressive vaccination initiatives as well as the elimination of NRP's movement control, which eventually allowed the economy for a gradual return by the end of 2021.

Continuous supportive measures help people and businesses adapt to the economic shocks by preserving income and preventing job losses in the labor market.

Langkah-langkah ini sebahagian besarnya merupakan kesinambungan inisiatif kerajaan yang dilaksanakan pada tahun 2020, termasuk Bantuan Prihatin Rakyat (BPR), Bantuan Bayaran Balik Bersasar (*Targeted Repayment Assistance, TRA*) dan Program Subsidi Upah (PSU). Penamatan larangan perjalanan antara negeri pada bulan Oktober 2021 sempena musim cuti akhir tahun juga merangsang aktiviti pelancongan dalam negeri. Untuk membantu menyokong ekonomi, Kerajaan telah melancarkan empat pakej rangsangan ekonomi yang komprehensif (PERMAI, PEMERKASA, PEMERKASA+ dan PEMULIH) antara Januari 2021 hingga Jun 2021, berjumlah RM225.00 bilion atau kira-kira 15% daripada KDNK.

Pemulihan Keadaan Pasaran Buruh yang Sederhana pada Tahun 2021 - Selepas mengalami gangguan yang ketara pada tahun 2020, keadaan pasaran buruh Malaysia bertambah baik secara sederhana pada tahun 2021.

The government's initiatives such as Bantuan Prihatin Rakyat (BPR), Bantuan Bayaran Balik Bersasar (*Targeted Repayment Assistance, TRA*), and the Wage Subsidy Program (PSU) were a continuation of the 2020 stimulus packages. The interstate travel bans ended in October 2021 in conjunction with the year-end holiday season also initiated a spur in domestic tourism. While between January 2021 and June 2021, the government introduced four comprehensive economic stimulus packages (PERMAI, PEMERKASA, PEMERKASA+, and PEMULIH), to help support the economy which totals to RM225.00 billion or estimate of 15% of the GDP had also played a role in dampening the economic shocks.

Malaysia's labour market circumstances slightly improved in 2021 following substantial disruptions in 2020.

Bagi keseluruhan tahun **2021**, kadar penyertaan tenaga kerja meningkat sedikit kepada **68.6%** (2020: 68.4%), manakala tenaga kerja dan guna tenaga meningkat dengan lebih pantas iaitu masing-masing pada paras **1.4%** (2020: 1.1%) dan **1.3%** (2020: -0.2%).

The labour force participation rate increased slightly to **68.6%** for the entire year of **2021** (from **68.4% in 2020**), while employment and the workforce grew at a faster pace at **1.4%** and **1.3%** respectively compared to **0.2%** and **1.4%** in 2020.

Guna tenaga tak penuh berkaitan masa menurun kepada 315,000 orang, atau 2.0% daripada tenaga kerja (2020: 367,000 orang atau 2.3%, purata 2017-2019: 1.4%). Walau bagaimanapun, kadar pengangguran pula kekal tinggi, iaitu pada 4.6% bagi tahun tersebut (2020: 4.5%). Sementara itu, pemberhentian pekerja yang dilaporkan menurun kepada 63,321 orang pada tahun tersebut (2020: 104,432 orang).

Prestasi Kewangan PERKESO

Walaupun berhadapan dengan lanskap ekonomi dunia dan dalam negara yang mencabar, PERKESO berjaya mengekalkan prestasi kewangan yang ditetapkan. Secara keseluruhannya, jumlah hasil PERKESO bagi tahun 2021 meningkat sebanyak RM458.88 juta atau 7.25% kepada RM6,787.80 juta berbanding RM6,328.92 juta pada tahun 2020.

Jumlah belanja PERKESO juga meningkat sebanyak RM489.15 juta atau 8.79% kepada RM6,052.32 juta berbanding RM5,563.17 juta pada tahun 2020.

The number of people with time-related underemployment fell to 315,000 or 2.0% of the workforce (2020: 367,000, or 2.3%; 2017-2019 average: 1.4%). However, the unemployment rate is still very high, coming in at 4.6% for the year (compared to 4.5% in 2020). Meanwhile, the number of recorded layoffs fell to 63,321 over the year (2020: 104,432 people).

SOCSCO Financial Performance

Despite facing a challenging global and domestic economic landscape, SOCSCO managed to meet the desired financial performance. Overall, SOCSCO's total revenue for 2021 increased by RM458.88 million or 7.25% to RM6,787.80 million compared to RM6,328.92 million in 2020.

SOCSCO's total expenditure also increased by RM489.15 million or 8.79% to RM6,052.32 million compared to RM5,563.17 million in 2020.

Dengan itu, lebih PERKESO bagi tahun 2021 menurun sebanyak RM30.27 juta atau 3.95% kepada RM735.48 juta berbanding RM765.75 juta pada tahun 2020.

Pendapatan caruman meningkat sebanyak RM182.84 juta atau 3.65% kepada RM5,195.12 juta berbanding RM5,012.28 juta pada tahun 2020. Peluasan perlindungan Skim Keselamatan Sosial Pekerjaan Sendiri (SKSPS) kepada 19 sektor pekerjaan sendiri berkuat kuasa 1 Januari 2020 adalah antara penyumbang peningkatan ketara pendapatan caruman bagi Akta 789 pada tahun 2021. Selain itu, peningkatan kutipan caruman ini juga mencerminkan tahap kesedaran yang kian meningkat di kalangan majikan, pekerja dan orang bekerja sendiri mengenai tanggungjawab mereka untuk mencarum kepada PERKESO berikutan keberkesanan kempen kesedaran dan aktiviti penguatkuasaan yang dilaksanakan oleh PERKESO.

Pendapatan pelaburan kasar pada tahun 2021 juga meningkat sebanyak RM246.99 juta atau 19.60% kepada RM1,507.21 juta berbanding RM1,260.22 juta pada tahun 2020 terutamanya berikutan peningkatan dalam pendapatan dividen dan keuntungan penjualan saham serta peningkatan keuntungan belum realis atas pertukaran asing.

Sementara itu, belanja tanggungan meningkat sebanyak RM23.74 juta atau 0.50% kepada RM4,733.16 juta pada tahun 2021 berbanding RM4,709.42 juta pada tahun sebelumnya khasnya berikutan peningkatan dalam bayaran faedah jangka panjang dan bayaran faedah fi latihan bagi Sistem Insurans Pekerjaan (SIP).

With that, SOCSCO's surplus for 2021 decreased by RM30.27 million or 3.95% to RM735.48 million compared to RM765.75 million in 2020.

Contribution income increased by RM182.84 million or 3.65% to RM5,195.12 million compared to RM5,012.28 million in 2020. The expansion of Self Employed Social Security Scheme (SKSPS) coverage to the other 19 self employed sectors effective January 1, 2020 is one of the contributors to the significant increase in contribution income for Act 789 in 2021. In addition, this increase in contribution collection also reflects the increasing level of awareness among employers, employees and self-employed workers regarding their responsibility to contribute to SOCSCO following the effectiveness of the awareness campaign and enforcement activities implemented by SOCSCO.

Gross investment income in 2021 also increased by RM246.99 million or 19.60% to RM1,507.21 million compared to RM1,260.22 million in 2020 mainly due to an increase in dividend income and profit from the sale of shares as well as an increase in unrealised gains on foreign exchange.

Meanwhile, benefit expenses increased by RM23.74 million or 0.50% to RM4,733.16 million in 2021 in comparison to RM4,709.42 million in the previous year mainly due to the increase in long-term benefits payments and payment for training fee benefit of the Employment Insurance System (EIS).

Belanja operasi turut meningkat sebanyak RM171.04 juta atau 23.34% kepada RM904.00 juta berbanding RM732.96 juta pada tahun 2020 berikutan peningkatan perbelanjaan perkhidmatan dan bekalan bagi tahun 2021 terutamanya perbelanjaan untuk program saringan COVID-19. Kerugian penjejakan bersih bagi aset kewangan juga meningkat sebanyak RM294.37 juta atau 243.70% kepada RM415.16 juta pada tahun 2021 berbanding RM120.79 juta pada tahun sebelumnya berikutan penurunan harga pasaran saham pada akhir tahun 2021.

Pandemik COVID-19 di serata dunia memberi kesan yang besar kepada ekonomi global dan domestik, mencetuskan persekitaran pasaran yang tidak menentu. Dana pelaburan PERKESO tidak terjejas teruk disebabkan strategi pelaburan jangka panjangnya yang memberi fokus kepada alokasi aset defensif yang menyediakan sokongan melalui pendedahan tinggi dalam aset-aset yang selamat seperti pendapatan tetap dan instrumen-instrumen pasaran wang.

Dana pelaburan keseluruhan PERKESO meningkat sebanyak RM510.08 juta atau 1.66% kepada RM31,245.81 juta pada tahun 2021 daripada RM30,735.73 juta pada tahun 2020. Pertumbuhan dana pelaburan tersebut adalah disebabkan oleh pendapatan pelaburan, peningkatan dalam nilai dana Sistem Insurans Pekerjaan (SIP) dan peningkatan dalam nilai portfolio Pengurus Dana Luar.

Strategi taktikal yang dilaksanakan untuk semua kelas aset pada tahun 2021 sebagai tindakbalas kepada keadaan pasaran disebabkan oleh pandemik COVID-19 telah berjaya mencapai sasaran pulangan. Bagaimanapun, pendapatan yang dijana daripada aktiviti-aktiviti pelaburan menurun sebanyak RM24.64 juta atau 2.25% kepada RM1,068.78 juta pada tahun 2021 daripada RM1,093.42 juta pada tahun 2020. Jumlah penurunan tersebut disebabkan oleh rosot nilai ekuiti. Pada tahun 2021 PERKESO telah memperoleh RM27.02 juta daripada aktiviti aktiviti pasaran wang untuk dana Akta 789 dan Akta 800, penurunan sebanyak RM19.13 juta daripada tahun 2020.

Operating expenses also increased by RM171.04 million or 23.34% to RM904.00 million compared to RM732.96 million in 2020 due to the increase in services and supplies expenses for 2021, especially expenses for the COVID-19 screening programme. Net impairment losses for financial assets also increased by RM294.37 million or 243.70% to RM415.16 million in 2021 in comparison to RM120.79 million in the previous year due to the decrease in the market price of shares at the end of 2021.

The worldwide COVID-19 pandemic caused major impact on global and domestic economies, creating an uncertain market environment. SOCSO's investment fund was not adversely affected due to its long-term investment strategy that focuses on defensive asset allocation that provides support through high exposure in safe assets such as fixed income and money market instruments.

Total assets under management (AUM) for SOCSO increased by RM510.08 million or 1.66% to RM31,245.81 million in 2021 from RM30,735.73 million in 2020. The growth in AUM was mainly attributed to investment income, growth in Employee Insurance System's (EIS) fund and increase in External Fund Manager's portfolio value.

The tactical strategy for all asset classes implemented in 2021 as a response to the volatile market conditions due to the COVID-19 pandemic managed to achieve the targeted returns. However, income generated from investment activities for Act 4 decreased by RM24.64 million or 2.25% to RM1,068.78 million in 2021 from RM1,093.42 million in 2020. The decrease was also affected by equity impairment. In 2021 SOCSO has earned RM27.02 million from money market activities for Act 789 and Act 800 fund, a decrease of RM19.13 million from 2020.

Strategi dan Transformasi

Pencapaian prestasi kewangan dan prestasi pelaburan yang positif telah membolehkan PERKESO terus memantapkan lagi kecekapan operasi dan perkhidmatannya selaras dengan inskripsi dan intipati utama pengurusan strategik dan jangkaan keberhasilan yang digarapkan dalam Pelan Strategik & Transformasi PERKESO (PSTP) bagi tempoh dua tahun 2021-2022 (Fasa I) sebagai kesiapsagaan PERKESO menghadapi serta menangani impak wabak Pandemik COVID-19.

Pelan Strategik & Transformasi PERKESO (PSTP) 2021-2022 berpaksikan agenda negara ke arah kesejahteraan rakyat ini selaras dengan Visi Bersama PERKESO sebagai peneraju keselamatan sosial yang unggul, komprehensif dan dinamik berasaskan empat Teras Strategik Utama iaitu "Pengaktifan Pasaran Buruh", "Transformasi Operasi", "Pemeriksaan Modal Insan" dan "Pemantapan Aspek Keselamatan & Kesejahteraan Sosial".

Tadbir Urus Korporat

Mengharungi tahun 2021 yang penuh mencabar, Lembaga Pengarah PERKESO bersama pengurusan tertinggi PERKESO telah mengatur strategi yang lebih bersasar bagi melonjakkan keberhasilan pada setiap program yang dilaksanakan.

Strategy and Transformation

The achievement of positive financial and investment performance has enabled SOCSO to further strengthen its operational efficiency and services in line with the inscription and main objective of strategic management and expected result as worked out in the SOCSO Strategic & Transformation Plan (PSTP) for the two-year period 2021-2022 (Phase I) as PERKESO's preparedness to face and deal with the impact of the COVID-19 pandemic.

The SOCSO Strategic & Transformation Plan (PSTP) 2021-2022 focuses on the national agenda towards the well-being of the people in line with SOCSO's Shared Vision as a premier, comprehensive and dynamic social security leader based on four Main Strategic Cores namely "Activation of the Labor Market", "Operational Transformation", "Human Capital Empowerment" and "Strengthening Aspects of Safety & Social Wellbeing".

Corporate Governance

Going through the challenging year of 2021, SOCSO's Board of Directors alongside SOCSO's top management have organised a more targeted strategy to boost the success of each program implemented.

Lanjutan itu, Bahagian Audit Dalam (BAD) diwujudkan sebagai sebuah fungsi dalaman audit yang bebas daripada operasi perniagaan dan diberi mandat seperti termaktub dalam Piagam Audit Dalam yang diluluskan oleh Jawatankuasa Audit Lembaga (JKAL). BAD membantu Lembaga, melalui JKAL, dalam melaksanakan peranannya untuk memastikan amalan tadbir urus korporat yang tinggi dan fungsi seliaan terhadap proses pelaporan pengurusan risiko dan sistem kawalan dalaman dalam PERKESO.

Liputan Perlindungan Keselamatan Sosial

In 2021, the number of registered and active contributors of self-employed under Act 789 has increased to 358,214 people compared to 80,512 people in 2020.

Pandemik COVID-19 telah memberi impak besar kepada ekonomi global keseluruhannya termasuk di Malaysia. Berdasarkan rekod kehilangan pekerjaan di bawah Sistem Insurans Pekerjaan (SIP), pada tahun 2021 sahaja, seramai 61,360 pekerja telah kehilangan pekerjaan di seluruh negara. Kerajaan telah memperkenalkan pelbagai inisiatif untuk membantu pekerja yang terpaksa diberhentikan dan kehilangan pekerjaan serta membantu majikan agar mereka dapat menangani perniagaan dan industri mereka daripada impak COVID-19.

Kerajaan sedar dan prihatin bahawa impak COVID-19 adalah serius dan dalam tempoh yang tidak menentu ini pekerja dan majikan yang terkesan amat memerlukan sokongan dan bantuan. Bagi menstabilkan ekonomi negara dan juga membantu majikan yang terkesan untuk mengekalkan pekerja mereka, pada tahun 2020, Kerajaan telah memperkenalkan beberapa inisiatif di bawah Pakej PRIHATIN, PRIHATIN PKS Tambahan, PENJANA dan Kita PRIHATIN. PERKESO telah diberi peranan besar dengan peruntukan RM15.3 bilion untuk melaksanakan Program Subsidi Upah 1.0 dan RM2.4 bilion untuk Program Subsidi Upah 2.0.

PERKESO telah berjaya melaksanakan amanah yang diberikan oleh Kerajaan dalam melaksanakan program-program di bawah pakej rangsangan ekonomi yang diperkenalkan di atas. Justeru, kejayaan besar ini telah mendorong Kerajaan untuk terus memberikan peranan kepada PERKESO untuk melaksanakan program membantu pekerja dan majikan seperti diumumkan dalam Belanjawan 2022.

The COVID-19 pandemic has had a major impact on the global economy as a whole including in Malaysia. Based on loss of employment records under the Employment Insurance System (EIS), in the year 2021 alone, a total of 61,360 workers have lost their jobs nationwide. The Government has introduced various initiatives to help workers who have been forced to lay off and lose their jobs as well as helping employers so that they can mitigate the impact of COVID-19 towards their businesses and industries.

The government is aware regarding the serious impact of COVID-19 and that the affected workers and employers are in dire need of assistance and support. In order to stabilize the national economy and help the affected employers to retain their employees, in 2020, the Government has introduced several initiatives under the PRIHATIN Package, PRIHATIN PKS Tambahan, PENJANA and Kita PRIHATIN. SOCSO has been given a major role with an allocation of RM15.3 billion to implement the Wage Subsidy Program 1.0 and RM2.4 billion for the Wage Subsidy Program 2.0.

SOCSO has successfully implemented the responsibility given by the Government to implement programs under the economic stimulus package introduced above. Thus, this great success has encouraged the Government to provide SOCSO the role to implement programs that help employees and employers as announced in the 2022 Budget.

Penghargaan

Dengan berlatarbelakangkan pelbagai kejayaan yang telah dicapai oleh PERKESO, saya ingin mengucapkan setinggi-tinggi penghargaan kepada Ahli Lembaga dan Ahli Panel Pelaburan serta warga PERKESO atas komitmen berterusan dan sokongan padu yang diberikan. Saya percaya warga PERKESO akan terus berusaha memanfaatkan peluang yang ada dan menghadapi cabaran mendatang dalam landskap sosio-ekonomi dan keselamatan sosial negara demi menjaga kesejahteraan sosial pekerja dan orang tanggungan mereka.

ULASAN TADBIR URUS KORPORAT CORPORATE GOVERNANCE

LATAR BELAKANG BAHAGIAN GOVERNAN, ETIKA, AUDIT DAN RISIKO (GEAR)

Bahagian Audit Dalam (BAD) ialah sebuah fungsi dalaman di Pertubuhan Keselamatan Sosial (PERKESO), yang bebas daripada operasi perniagaan dan diberi mandat seperti termaktub dalam Piagam Audit Dalam yang diluluskan oleh Jawatankuasa Audit Lembaga (JKAL). BAD membantu Lembaga, melalui JKAL, dalam melaksanakan peranannya untuk memastikan amalan tadbir urus korporat yang tinggi dan fungsi seliaan terhadap proses pelaporan pengurusan risiko dan sistem kawalan dalaman dalam PERKESO.

BAD melaporkan secara fungsional kepada JKAL dan memberikan jaminan objektif yang bebas, serta khidmat nasihat yang dirancang untuk memberi nilai tambah demi penambahbaikan operasi PERKESO.

Pada 14 September 2021, Lembaga PERKESO telah meluluskan pengintegrasian Bahagian Pengurusan Risiko (BPR) ke dalam BAD selaras dengan Pelan Transformasi Audit untuk memberi khidmat nasihat, jaminan objektif dan fungsi seliaan secara berpusat. Berikutan pengintegrasian yang berkuat kuasa pada 01 Oktober 2021, BAD telah dinamakan semula sebagai Bahagian Governan, Etika, Audit dan Risiko (GEAR) dan akan melaporkan secara fungsional kepada Jawatankuasa GEAR Lembaga atau BGC (sebelum ini dikenali sebagai JKAL).

BACKGROUND OF GOVERNANCE, ETHICS, ASSURANCE AND RISK DIVISION (GEAR)

Internal Audit Division (IAD) is an in-house internal audit function of Social Security Organisation (SOCSO), which is independent of the business operations and has a mandate set out in its Audit Charter approved by Board Audit Committee (BAC). It provides the Board, through the BAC, with reasonable assurance on the adequacy and effectiveness of the risk management and internal control system, and governance processes within SOCSO.

IAD reports directly to the BAC and provides independent, reasonable and objective assurance in addition to consulting services designed to add value and improve efficiency of the SOCSO's operations.

On 14 September 2021, the SOCSO Board has approved integration of Risk Management Division (RMD) into IAD to leverage on Audit Transformation Plan towards centralised consultancy, advisory, assurance and oversight roles. Following the integration, effective 01 October 2021 IAD was renamed to Governance, Ethics, Assurance and Risk (GEAR) Division and will report directly to the Board GEAR Committee or BGC (previously known as BAC).

Struktur organisasi GEAR seperti berikut:

GEAR organisational structure as follows:

Asas pertimbangan pengintegrasian BPR ke dalam BAD adalah seperti berikut:

- Pengoptimuman tenaga kerja dan fungsi yang bertindih dengan audit.
- Pendekatan dalam pengurusan risiko telah disemak semula dengan memanfaatkan rangka kerja COSO ERM. Ini adalah selaras dengan Pelan Transformasi Audit.
- Pemusatan fungsi governan, jaminan dan penyeliaan (Audit, Penyelidikan, Etika, Integriti dan Pengurusan Risiko).
- Sejalan dengan aspirasi pihak pengurusan untuk menambah baik penyampaian fungsi pengurusan risiko di PERKESO.
- Menggalakkan penerimaan dan penggunaan amalan terbaik.
- Pelaksanaan pelan tindakan berstruktur dengan menggunakan kaedah kerja yang lebih pantas dan lebih mudah.

After a robust assessment and thorough observation, the outcome necessitates for RMD to be part of GEAR is due to the following:

- Workforce optimisation and overlapping functions with audit.
- Revised approach in risk management by leveraging on SOCSO ERM framework. This is in line with the Audit Transformation Plan.
- Centralisation of governance, assurance and oversight functions (Audit, Investigation, Ethics, Integrity and Risk Management).
- Aligned with the Management's aspirations for a way moving forward to improve deliverables of risk management functions at SOCSO.
- Promoting the adoption and use of best practices.
- Structured execution of deliverables by employing faster and simpler working methods.

Pada tahun 2021, Bahagian GEAR diketuai oleh Zainal Akbar SK MD Abdul Kader melaporkan secara fungsional kepada BGC dan secara pentadbiran kepada Ketua Pegawai Eksekutif. Bahagian GEAR mempunyai kekuatan tenaga kerja seramai 37 anggota daripada pelbagai latar belakang dan kepakaran. KEPIMPINAN DAN PROFESIONALISME LEADERSHIP AND PROFESSIONALISM

PERUTUSAN KETUA EKSEKUTIF

Statement by the Chief Executive

DATO' SRI DR. MOHAMMED AZMAN BIN AZIZ MOHAMMED

Ketua Eksekutif PERKESO /
Chief Executive of SOCSO

Assalamualaikum warahmatullahi wabarakatuh dan Salam Sejahtera.

Pertama-tamanya, saya memanjatkan kesyukuran yang tidak terhingga ke hadrat Allah SWT kerana dengan limpah kurnia dan izinNya, PERKESO telah menyambut Ulang Tahun ke-50 atau Jubli Emasnya pada tahun 2021 ini, yang merupakan hari yang cukup istimewa dan bermakna dalam lipatan sejarah pertubuhan ini.

First and foremost, I express my infinite gratitude to Allah the Almighty because with His grace and permission, SOCSO has celebrated its 50th Anniversary or Golden Jubilee in 2021, which is a very special and meaningful day in the history of this organization.

Saya ingin menzahirkan ucapan setinggi-tinggi penghargaan dan terima kasih kepada setiap warga PERKESO, termasuk mereka yang telah bersara mahupun yang telah meninggal dunia. PERKESO yang berdiri megah hari ini adalah hasil titik peluh, dedikasi, inovasi dan pengorbanan setiap warganya. Pertubuhan ini telah melalui proses pendewasaan yang penuh pancaroba, namun setiap jatuh bangun, turun naik, dan pahit manis yang dilalui telah mematang dan memperkasakan warga PERKESO.

Saya berbangga dengan kejayaan PERKESO mengharungi cabaran dan memenuhi mandat Kerajaan sepanjang 5 dekad ini. Walaupun pada tahun ini sambutan 50 tahun PERKESO tidak dapat dilaksanakan secara besar-besaran kerana pandemik COVID-19, namun fasa yang mencabar ini telah menjadi batu loncatan kepada perluasan usaha kami dalam memperkenalkan pembaharuan atau reforms terhadap perlindungan keselamatan sosial yang lebih menyeluruh. Fasa ini juga menjadi titik tolak kepada pemacuan momentum PERKESO yang turut berperanan dalam membantu kerajaan untuk mengukuhkan ekosistem pasaran buruh negara selari dengan peranan kami sebagai penyedia perkhidmatan pekerjaan negara menerusi Sistem Insurans Pekerjaan (SIP).

Dalam semangat menyambut ulang tahun ke-50 ini, saya amat berbesar hati membentangkan Laporan Tahunan PERKESO bagi tahun kewangan berakhir 31 Disember 2021.

I would like to express my deepest appreciation and gratitude to every SOCSO staffs, including those who have retired and those who have passed away. The SOCSO that stands proudly today is the result of the sweat, dedication, innovation and sacrifice of every member. This organization has gone through a challenging maturation process, but every up and down, and bittersweet experience has developed and empowered SOCSO members.

I am proud of SOCSO's success in overcoming challenges and fulfilling the Government's mandate over the past 5 decades. Although this year the celebration of SOCSO's 50th anniversary could not be carried out on a large scale due to the COVID-19 pandemic, this challenging phase has become a steppingstone to the expansion of our efforts in introducing reforms to more comprehensive social security protection. This phase is also the starting point for SOCSO's momentum drive which also plays a role in helping the government to strengthen the national labor market ecosystem in line with our role as a national employment service provider through the Employment Insurance System (EIS).

In the spirit of celebrating this 50th anniversary, I am very pleased to present SOCSO's Annual Report for the financial year ending 31 December 2021.

REFLEKSI TAHUN 2021

Ekonomi Malaysia telah terjejas kesan pelaksanaan perintah kawalan pergerakan (PKP) serta penutupan sempadan bagi mengawal penularan wabak COVID-19. Pandemik COVID-19 telah memaksa perniagaan mengalihkan operasi mereka ke dalam talian menyebabkan peralihan pantas ke arah ekonomi digital. Selain itu, ekonomi gig juga berkembang pesat dengan menawarkan peluang pekerjaan kepada golongan yang kekurangan atau kehilangan pendapatan mahupun graduan baru yang sukar mendapat pekerjaan sepanjang tempoh ekonomi yang mencabar ini. Bagaimanapun, perkembangan ekonomi gig yang pesat menimbulkan beberapa isu seperti perlindungan sosial pekerja serta ketirisan dalam kutipan hasil kerajaan yang secara tidak langsung boleh menjejaskan pembangunan dan prospek tenaga mahir di Malaysia.

Pada tahun 2021, PERKESO telah memperkenalkan dan melaksanakan pelbagai program dan inisiatif baharu bagi memastikan perlindungan keselamatan sosial pekerja di negara ini sentiasa dinamik dan inklusif. Pandemik COVID-19 sesungguhnya telah memberi impak besar kepada ekonomi global keseluruhannya termasuk di Malaysia.

Berdasarkan rekod kehilangan pekerjaan di bawah **Sistem Insurans Pekerjaan (SIP)**, pada tahun **2021** sahaja, seramai **61,360** pekerja telah kehilangan pekerjaan di seluruh negara.

REFLECTION OF THE YEAR 2021

Malaysia's economy has been affected by the implementation of the movement control order (MCO) as well as border closures to control the spread of the COVID-19 outbreak. The COVID-19 pandemic has forced businesses to shift their operations online resulting in a rapid shift towards a digital economy. In addition, the gig economy is also growing rapidly by offering job opportunities to people who lack or lose income or new graduates who find it difficult to find a job during this challenging economic period. However, the rapid development of the gig economy raises a number of issues such as the social protection of workers as well as leakages in government revenue collection that can indirectly affect the development and prospects of skilled workers in Malaysia.

In 2021, SOCSO has introduced and implemented various new programs and initiatives to ensure that the social security protection of workers in this country is always dynamic and inclusive. The COVID-19 pandemic has indeed had a major impact on the global economy as a whole including in Malaysia.

Based on job loss records under the **Employment Insurance System (EIS)**, in **2021** alone, a total of **61,360** workers have lost their jobs nationwide.

Kerajaan telah memperkenalkan pelbagai inisiatif untuk membantu pekerja yang terpaksa diberhentikan dan kehilangan pekerjaan serta membantu majikan agar mereka dapat menangani keperluan perniagaan dan industri mereka dalam mendepani impak COVID-19. Kerajaan sedar dan prihatin bahawa impak COVID-19 adalah serius dan dalam tempoh yang tidak menentu ini, pekerja dan majikan terkesan amat memerlukan sokongan dan bantuan bagi menstabilkan pasaran buruh dan juga membantu majikan yang terkesan untuk terus menggaji pekerja mereka.

PAKEJ RANGSANGAN EKONOMI (COVID-19)

Kementerian Sumber Manusia melalui PERKESO telah diberi tanggungjawab melaksanakan beberapa inisiatif di bawah Belanjawan 2021, Program Perlindungan Ekonomi dan Rakyat Malaysia (PERMAI), Program Strategik Memperkasa Rakyat Dan Ekonomi (PEMERKASA), Program Strategik Memperkasa Rakyat Dan Ekonomi Tambahan (PEMERKASA+) dan Pakej Perlindungan Rakyat Dan Pemulihan Ekonomi (PEMULIH). Antaranya Program Subsidi Upah, Penjana Kerjaya, SIP PRIHATIN dan SPS Lindung.

Secara keseluruhan, siling peruntukan di bawah Akta Langkah-langkah Sementara Bagi Pembiayaan Kerajaan (Penyakit Koronavirus 2019 (COVID-19)) 2020 Akta 830 yang disediakan untuk dilaksanakan oleh PERKESO telah ditingkatkan daripada RM 16.8 billion kepada RM 31 billion melibatkan inisiatif-inisiatif Keselamatan Sosial dan Perkhidmatan Pekerjaan di bawah PERKESO.

The government has introduced various initiatives to help workers who have been forced to lay off and lose their jobs and to help employers so that they can address the needs of their businesses and industries in the face of the impact of COVID-19. The government is aware and concerned that the impact of COVID-19 is serious and in this uncertain period, affected workers and employers are in dire need of support and assistance to stabilize the labor market and also help affected employers to continue employing their workers.

ECONOMIC STIMULUS PACKAGE (COVID-19)

The Ministry of Human Resources through SOCSO has been given the responsibility of implementing several initiatives under Budget 2021, the Malaysian Economic and People's Protection Program (PERMAI), the Strategic Program to Empower the People and the Economy (PEMERKASA), the Additional Strategic Program to Empower the People and the Economy (PEMERKASA+) and the National People's Well Being and Economic Recovery (PEMULIH). Among them are the Wage Subsidy Program, Career Generator, SIP PRIHATIN and SPS Lindung.

Overall, the allocation ceiling provisioned under the Temporary Measures for Government Financing Act (Coronavirus Disease 2019 (COVID-19)) 2020 Act 830 to be implemented by SOCSO was increased from RM 16.8 billion to RM 31 billion involving Social Security initiatives and Employment Services under SOCSO.

Pembiayaan Kerajaan (Penyakit Koronavirus 2019 (COVID-19)) 2020 Akta 830 / Government Financing Act (Coronavirus Disease 2019 (COVID-19)) 2020 Act 830

MENINGKAT INCREASE

Keputusan Kerajaan ini bukan sahaja akan meringankan beban golongan sasar dalam tempoh krisis pandemik COVID-19 yang melanda, malah peningkatan peruntukan hampir 85% ini juga memperlihatkan kepercayaan Kerajaan terhadap institusi PERKESO dalam memelihara kesejahteraan semua ahli Keluarga Malaysia.

This Government's decision will not only alleviate burden of the target group during the COVID-19 pandemic crisis, but this increase in funding of almost 85% also demonstrates the Government's trust in SOCSO to protect the well-being of all members of the Malaysian Family.

PROGRAM SUBSIDI UPAH

(PSU) yang mula diperkenalkan

sejak 1 April 2020, Program Subsidi Upah di bawah Belanjawan 2021, PERMAI, PEMERKASA dan PEMULIH pada mulanya bertujuan untuk meneruskan bantuan kewangan kepada majikan yang terjejas akibat COVID-19 secara bersasar terutamanya sektor pelancongan. Subsidi upah tersebut membantu meneruskan operasi syarikat serta mengelakkan pekerja daripada hilang pekerjaan dan punca pendapatan.

Sejak program ini dilaksanakan sehingga 31 Disember 2021, PSU telah membantu sejumlah 357,393 majikan dari seluruh negara dan memberikan manfaat kepada seramai 2.95 juta pekerja. Jumlah peruntukan yang telah disalurkan oleh Kerajaan sehingga 31 Disember 2021 adalah sebanyak RM19.67 bilion.

THE WAGE SUBSIDY PROGRAM (PSU) which

was first introduced on 1st April 2020, the Wage Subsidy Program under Budget 2021, PERMAI, PEMERKASA and PEMULIH were initially aimed to continue financial aid to employers affected by COVID-19 in a targeted manner, especially in the tourism sector. The wage subsidy helps in sustaining business operations and protect workers from losing their jobs and sources of income.

Since the implementation of the program till 31st December 2021, PSU has supported a total of 357,393 employers from across the nation and provided benefits to a total of 2.95 million employees. The total allocation channelled by the Government up until 31st December 2021 is RM19.67 billion.

SIP PRIHATIN yang diperuntukkan

bawah Belanjawan 2021 merupakan bantuan kewangan kepada pekerja sama ada yang layak atau yang tidak layak mendapat Elaun Mencari Pekerjaan (EMP). Tujuan SIP PRIHATIN 1.0 adalah untuk melanjutkan EMP kepada pekerja kehilangan pekerjaan di bawah SIP yang terkesan dengan COVID-19 untuk meneruskan kelangsungan hidup. SIP Prihatin 2.0 pula bertujuan untuk menyalurkan bantuan kewangan kepada bukan pencarum yang tidak dilindungi khususnya dari kalangan graduan dan pekerja sendiri sebagai menyokong usaha mereka untuk mencari pekerjaan baharu dalam tempoh COVID-19. Sehingga 31 Disember 2021, PERKESO telah membantu lebih 104,590 permohonan dengan jumlah bayaran yang diluluskan sebanyak RM469.43 juta.

SIP PRIHATIN that was allocated under Budget 2021 is a financial assistance for workers who are either eligible or ineligible for Job Search Allowance (EMP). The purpose of SIP PRIHATIN 1.0 is to extend EMP for unemployed workers under EIS that were affected by COVID-19 to continue their daily lives. SIP Prihatin 2.0, on the other hand, aims to channel financial assistance to non-contributors who are not protected, especially among graduates and self-employed to support their efforts in finding new jobs during the COVID-19 period. As of 31st December 2021, SOCSO has assisted more than 104,590 applications with a total approved payment of RM469.43 million.

PENJANAKERJAYA di bawah

Pelan Jana Semula Ekonomi Negara (PENJANA) dilaksanakan dengan matlamat merangsang permintaan pekerjaan dalam kalangan majikan dan meningkatkan peluang pekerjaan serta kebolehpekerjaan bagi pencari kerja tempatan. Berdasarkan statistik PERKESO sehingga 31 Disember 2021, jumlah permohonan majikan untuk PenjanaKerjaya adalah sebanyak 18,265 majikan yang melibatkan 226,223 pekerja dengan jumlah bayaran sebanyak RM907.52 juta.

PENJANAKERJAYA under the National Economic Recovery Plan (PENJANA) is implemented with the aim of stimulating job demand among employers while increasing job opportunities and employability for local job seekers. Based on SOCSO statistics up to 31 December 2021, the total number of employer applications for PenjanaKerjaya is 18,265 employers involving 226,223 employees with a total payment of RM907.52 million.

Program KerjayaGig bertujuan

memperluas skop Insentif Pengambilan Pekerja di bawah PenjanaKerjaya 2.0 kepada individu kehilangan pekerjaan dan penganggur daripada golongan rentan yang terlibat dalam peluang pekerjaan jangka pendek seperti e-hailing atau p-hailing sehingga mereka dapat memperoleh pekerjaan sepenuh masa. Sehingga 31 Disember 2021, jumlah permohonan OBS yang telah diluluskan adalah sebanyak 108,422. Jumlah bayaran yang telah dibuat pula adalah sebanyak RM16.5 juta.

The KerjayaGig Program aims to expand the scope of the Employment Incentive under PenjanaKerjaya 2.0 for individuals who lose their jobs and unemployed individuals from vulnerable groups who are involved in short-term employment opportunities such as e-hailing or p-hailing so that they can obtain full-time employment. As of 31st December 2021, the number of OBS applications that have been approved is 108,422. The total payment that has been made is as much as RM16.5 million.

SPS LINDUNG merupakan program

penambahbaikan ke atas inisiatif PenjanaGig sedia ada di mana kerajaan menyediakan bantuan pembiayaan bayaran penuh caruman (100 %) di bawah Skim Keselamatan Sosial Pekerjaan Sendiri (SKSPS) PERKESO kepada kumpulan sasaran OBS iaitu *Delivery Riders* yang melaksanakan aktiviti penghantaran barangan ataupun makanan. Sehingga 31 Disember 2021 seramai 265,732 OBS telah dilindungi di bawah program ini dengan jumlah caruman sebanyak RM62.5 juta.

SPS LINDUNG is an enhanced program from the existing PenjanaGig initiative where the government provides funding assistance for full payment of contributions (100%) under the Self-Employed Social Security Scheme (SKSPS) to the OBS target group, namely *Delivery Riders* who carry out goods or food delivery activities. As of 31st December 2021, a total of 265,732 OBS have been covered under this program with a total contribution of RM62.5 million.

SPS Prihatin Wanita adalah bantuan

Kerajaan yang diumumkan oleh YAB Perdana Menteri di bawah Program PEMERKASA bagi menyediakan perlindungan keselamatan sosial di bawah SKSPS PERKESO yang dikhususkan kepada semua wanita yang bekerja sendiri daripada pelbagai sektor informal. Berdasarkan statistik sehingga 31 Disember 2021, seramai 21,350 OBS dilindungi di bawah skim ini dan ianya melibatkan jumlah caruman sebanyak RM4.97 juta.

SPS Prihatin Wanita is a government aid announced by YAB Prime Minister under the PEMERKASA Package to provide social security protection under SOCSO SKSPS which is dedicated to all self-employed women from various informal sectors. Based on statistics up to 31st December 2021, a total of 21,350 OBS were covered under this scheme and it involves a total contribution of RM4.97 million.

PERLUASAN LIPUTAN PERLINDUNGAN KESELAMATAN SOSIAL

Selain daripada program-program pakej rangsangan ekonomi, perlindungan keselamatan sosial yang disediakan oleh PERKESO turut melalui evolusi ketara seiring dengan peranan dan tuntutan untuk memberi perlindungan kepada golongan sasaran dan menyokong pembangunan Negara sejajar dengan perubahan landskap perlindungan keselamatan sosial di seluruh dunia masa kini.

Bermula 1 Jun 2021, PERKESO memperluaskan liputan di bawah Akta 4 dan Akta 800 kepada Pekerja Domestik. Tujuan utama perlindungan ini adalah untuk meningkatkan perlindungan sosial kepada kumpulan masyarakat yang tidak dilindungi selama ini. Pekerja domestik adalah individu yang diambil bekerja secara sah untuk melaksanakan sesuatu kerja atau aktiviti yang di sesebuah rumah kediaman persendirian dan bukan diambil bekerja bagi apa-apa tujuan lain yang melibatkan aktiviti seperti perdagangan, perniagaan atau profesion yang dijalankan oleh majikan, sama ada di dalam atau di luar rumah kediaman itu.

PERKESO juga merancang untuk menetapkan siling gaji baharu bagi maksud caruman daripada RM4,000 kepada RM5,000 sebulan. Langkah ini bertujuan menambah baik liputan keselamatan sosial PERKESO kepada pekerja dan tanggungan menerusi peningkatan kadar bayaran faedah sedia ada seperti Faedah Hilang Upaya Sementara (FHUS), Faedah Hilang Upaya Kekal (FHUK), Faedah Orang Tanggungan (FOT), Pencen Penakat dan Pencen Ilat di bawah Akta 4 serta Elaun Mencari Pekerjaan (EMP), Elaun Pendapatan Berkurangan (EPB) dan Elaun Bekerja Semula Awal (EBSA) di bawah Akta 800. Menerusi cadangan pindaan ini, dijangka seramai 1.5 juta pekerja atau hampir 19% daripada keseluruhan pencarum PERKESO di seluruh negara akan mendapat manfaat daripada peningkatan siling gaji ini yang merangkumi pekerja tempatan dan pekerja asing.

EXTENSION OF SOCIAL SECURITY COVERAGE

Apart from the economic stimulus package programs, the social security protection provided by SOCSO has gone through a significant evolution in keeping with the role and demands to protect the target groups and promote national development in line with the changing landscape of social security protection around the world today.

Starting 1st June 2021, SOCSO has extended coverage under Act 4 and Act 800 to Domestic Workers. The main purpose of this coverage is to extend social protection to previously unprotected community groups. Domestic workers are individuals who are legally employed exclusively in the work or in connection with work of a private dwelling house and not of any trade, business or profession carried on by the employer whether in or outside the house.

SOCSO also plans to set a new salary ceiling for contribution purposes from RM4,000 to RM5,000 per month. The move is to improve SOCSO's social security coverage for employees and dependants through an increase in the payment rate of existing benefits such as Temporary Disablement Benefit, Permanent Disablement Benefit, Dependants' Benefit, Survivor's Pension and Invalidity Pension under Act 4 as well as Job Search Allowance, Reduced Income Allowance and Early Re-employment Allowance under Act 800. Through this proposed amendment, it is expected a total of 1.5 million workers or about 19% of SOCSO contributors throughout the country will benefit from the salary ceiling increase that includes local and foreign workers.

Selain itu, Kerajaan menerusi PERKESO bercadang untuk mewujudkan Skim Keselamatan Sosial Suri Rumah. Kerajaan mengiktiraf peranan suri rumah dalam care economy yang turut membantu dalam penjaan ekonomi negara. Selain terdedah dengan risiko bahaya semasa menguruskan hal-hal rumah tangga, hampir 5 juta wanita di Malaysia masih belum mempunyai liputan perlindungan sosial asas. Sehubungan itu, saya telah mencadangkan kepada Kerajaan untuk memperkenalkan Skim Keselamatan Sosial Suri Rumah untuk menjaga kebajikan dan melindungi golongan ini daripada bencana domestik dan keilatan seiring dengan konsep "tiada individu yang tercicir".

EKONOMI DIGITAL DAN EKONOMI GIG

Pelaksanaan PKP bagi membendung pandemik COVID-19 telah memaksa perniagaan untuk mengalihkan operasi daripada fizikal ke dalam talian. Banyak syarikat terpaksa beralih menggunakan pendekatan dalam talian. Selain itu, penggunaan perkhidmatan digital semakin meningkat yang merangkumi perkhidmatan e-pembayaran, perniagaan dalam talian, perkhidmatan platform digital dan perkhidmatan kerajaan dalam talian. Perkhidmatan digital seperti perkhidmatan profesional dan penghantaran makanan juga semakin popular dalam kalangan penduduk Malaysia walaupun majoriti pekerjaan gig memerlukan kemahiran yang rendah dan tidak mempunyai perlindungan sosial. Memahami trend ini, PERKESO akan terus memberi penekanan terhadap perlindungan keselamatan sosial kepada golongan pekerja sendiri dan bantuan untuk mengintegrasikan golongan ini kepada pekerjaan formal.

Furthermore, the Government through SOCSO plans to establish the Housewives Social Security Scheme. The Government recognises the role of housewives in the care economy which also helps in generating the national economy. In addition to being exposed to the risk of danger while managing household affairs, nearly 5 million women in Malaysia still do not have basic social protection coverage. Accordingly, I have proposed to the Government to introduce the Housewives Social Security Scheme to safeguard the welfare and protect this group from domestic injuries and invalidity in line with the concept of "no one is left behind".

DIGITAL ECONOMY AND GIG ECONOMY

The implementation of MCO to curb the COVID-19 pandemic has forced businesses to shift operations from physical to online. Many companies are forced to switch to an online approach. In addition, the use of digital services is increasing which include e-payment services, online business, digital platform services and online government services. Digital services such as professional services and food delivery are also growing in popularity among Malaysians even though the majority of gig jobs require moderate skills and lack social protection. Understanding this trend, SOCSO will continue to emphasise towards social security protection for the working class itself and integrate this class into formal employment.

PENINGKATAN KADAR KEMISKINAN NEGARA

Kesan Pandemik COVID-19 terhadap sosioekonomi penduduk Malaysia sedikit sebanyak melumpuhkan ekonomi negara dan memberi impak negatif yang besar kepada pendapatan penduduk tempatan. Secara purata, pendapatan bulanan kasar isi rumah menurun sebanyak 10.3% manakala median menunjukkan penurunan sebanyak 11.3%. Kadar kemiskinan mutlak pula telah mencapai paras 8.4% pada tahun 2020, peningkatan sebanyak 2.8% berbanding tahun sebelumnya. Sebanyak 638,000 isi rumah berada dalam kemiskinan mutlak. Kadar kemiskinan tegar pula telah meningkat sebanyak 0.8% bersamaan dengan 76,000 isi rumah.

Mendepani cabaran alaf baharu dalam ketidaktentuan geo-ekonomi dan politik global serta renjatan ekonomi akibat Pandemik COVID-19 telah memberi kesan terhadap landskap perlindungan keselamatan sosial di seluruh dunia dan Malaysia turut tidak terkecuali. Melangkah ke hadapan, kita perlu berani mengorak langkah sejajar dengan iltizam untuk menjadikan PERKESO sebagai Institusi Perlindungan Sosial Kebangsaan yang mentadbir pelbagai skim keselamatan sosial yang bakal melindungi golongan pekerja daripada semua risiko kitaran hidup – baik kehilangan pekerjaan, hilang upaya, kematian, keilatan, penyakit, perubatan, bersalin dan sebagainya. Jika ini tercapai, PERKESO dapat memperluaskan fungsinya untuk menyediakan jaringan keselamatan sosial bagi semua rakyat Malaysia, di setiap peringkat usia dan kehidupan mereka.

INCREASE IN NATIONAL POVERTY RATE

The impact of the COVID-19 Pandemic on the socioeconomics of the Malaysian population has paralyzed the national economy to some extent and has had a significant negative impact on the income of the local population. On average, the gross monthly income of households decreased by 10.3% while the median showed a decrease of 11.3%. The absolute poverty rate has reached the level of 8.4% in 2020, an increase of 2.8% compared to the previous year. A total of 638,000 households are in absolute poverty. The rate of severe poverty has increased by 0.8%, equivalent to 76,000 households.

Facing the challenges of the new millennium in global geo-economic and political uncertainty as well as the economic shock due to the COVID-19 Pandemic has affected the landscape of social security protection around the world and Malaysia is no exception. Moving forward, we need to take bold steps that are in line with our commitment to make SOCSO a National Social Protection Institution that administers various social security schemes that will protect the working class from all life cycle of risks - be it job loss, disability, death, disability, illness, medical, maternity and so on. If this is achieved, SOCSO can expand its function to provide a social safety net for all Malaysians, at every age and stage of their lives.

LAPORAN PRESTASI 2021 PERFORMANCE REPORT 2021

PENGURUSAN RISIKO KORPORAT CORPORATE RISK MANAGEMENT

Pengenalan

Di PERKESO, Lembaga Pengarah komited bagi mengekalkan sistem pengurusan risiko dan kawalan dalaman yang berkesan seterusnya menegakkan dan melaksanakan budaya dan persekitaran yang kukuh untuk membolehkan objektif organisasi tercapai.

Lembaga Pengarah komited dan bertanggungjawab terhadap sistem pengurusan risiko dan kawalan dalaman organisasi yang meliputi strategik, pelaburan, operasi dan kewangan serta mengkaji semula kecukupan, keberkesanan dan integriti sistem-sistem tersebut.

Pihak pengurusan bertanggungjawab untuk melaksanakan kawalan ini dan melaporkan secara berkala tentang risiko yang dikenal pasti dan tindakan yang diambil untuk mengurangkan dan/atau meminimumkan risiko tersebut. Jawatankuasa Risiko Lembaga (BRC) dan Jawatankuasa Audit Lembaga (JKAL), yang terdiri daripada ahli Lembaga Pengarah bertanggungjawab untuk mengawalselia kawalan tersebut.

Berkuat kuasa 01 Oktober 2021, Bahagian Pengurusan Risiko (RMD) telah diintegrasikan dengan Bahagian Audit Dalam dan kini dikenali sebagai Bahagian Governan, Etika, Audit dan Risiko (GEAR) dan melaporkan terus kepada Jawatankuasa GEAR Lembaga (BGC). Bagi Unit Pengurusan Kesenambungan Perniagaan (BCM), ia telah dipindahkan ke Bahagian Strategik dan Transformasi. Unit BCM akan meneruskan usahanya dalam menyampaikan pengetahuan BCM di seluruh PERKESO untuk memastikan organisasi berdaya tahan semasa krisis dan gangguan.

Introduction

In SOCSO, the Board of Directors ("Board") is committed in maintaining a sound system of risk management and internal control whilst continuing to uphold and implementing a strong culture and environment for the proper conduct of its business operations.

The Board affirms its commitment and responsibility for the organisation's risk management and internal control systems covering strategic, investment, operational and financial as well as reviewing the adequacy, effectiveness and integrity of these systems.

The implementation of these control is undertaken by the Management which regularly reports on the risks identified and actions taken to mitigate and/or minimise such risks. The oversight of these critical areas is carried out by the Board Risk Committee (BRC) and the Board Audit Committee (BAC), which comprise Board members.

Effective 01 October 2021, Risk Management Division (RMD) was integrated with the Internal Audit Division and now known as Governance, Ethics, Assurance and Risk (GEAR) Division and will report directly to the Board GEAR Committee (BGC). As for Business Continuity Management (BCM) Unit, it was transferred to the Strategic and Transformation Division. BCM Unit will continue its efforts in imparting knowledge of BCM across SOCSO to ensure resilience in times of crisis and business disruptions.

Sistem pengurusan risiko dan kawalan dalaman PERKESO direka bagi memenuhi keperluan khusus organisasi, iaitu mengurus risiko secara cekap dan berkesan yang boleh menghalang pencapaian objektif organisasi, dan untuk menyediakan maklumat untuk pelaporan yang tepat serta memastikan pematuhan terhadap standard.

Proses untuk mengenal pasti, menilai, memantau dan mengurus risiko yang boleh menjejaskan objektif organisasi secara material telah disediakan sepanjang tahun dan dinilai secara berkala oleh Lembaga Pengarah.

Lembaga Pengarah mengiktiraf bahawa sistem ini direka untuk menguruskan dan mengurangkan, dan bukannya melenyapkan risiko kegagalan untuk mencapai objektif dan organisasi korporat mengikut tahap risiko yang ditetapkan oleh Lembaga Pengarah dan pihak pengurusan. Oleh itu sistem ini hanya boleh memberikan jaminan yang munasabah dan bukan mutlak terhadap salah nyata material, kerugian atau penipuan. Konsep jaminan munasabah organisasi juga mengiktiraf bahawa kos prosedur kawalan tidak boleh melebihi jangkaan manfaat.

SOCSO's risk management and internal control systems are designed to meet the organisation's particular needs, to efficiently and effectively manage risks that may impede the achievement of the organisation's business objectives, and to provide information for accurate reporting and ensure compliance with regulatory and statutory requirements.

The process for the identification, evaluation, monitoring and managing of significant risks that may materially affect the organisation's business objectives has been in place throughout the year under review and regularly appraised by the Board.

The Board recognises that these systems are designed to manage and mitigate, rather than eliminate the risk of failure to achieve the organisation's business and corporate objectives within the risk appetite established by the Board and management. These systems can therefore provide only reasonable and not absolute assurance against material misstatement, loss or fraud. The organisation's concept of reasonable assurance also recognises that the cost of control procedures should not exceed the expected benefits.

SISTEM PENGURUSAN RISIKO & KAWALAN DALAMAN

RISK MANAGEMENT & INTERNAL CONTROL SYSTEM

PERKESO mempunyai sistem untuk mengurus risiko dan kawalan dalaman yang boleh menjejaskan operasi organisasi. Pihak pengurusan bertanggungjawab untuk merealisasikan sistem pengurusan risiko dan kawalan dalaman. Laporan berkala mengenai risiko yang dikenal pasti dan tindakan yang diambil untuk mengurangkan dan/atau meminimumkan risiko dan jurang dalam sistem kawalan dalaman tersebut akan dibentangkan kepada BGC dan seterusnya kepada Lembaga Pengarah.

SOCISO has in place risk management and internal control systems for managing risks and internal controls affecting its business operations. The realisation of risk management and internal control systems is undertaken by Management. Regular reports on risks identified and actions taken to mitigate and/or minimise such risks and gaps in the internal control systems are presented to the BGC and ultimately to the Board.

Ciri-ciri utama sistem ini ialah lima barisan pertahanan dengan tanggungjawab yang jelas, serta akauntabiliti untuk pengurusan risiko dan kawalan dalaman.

The key features of these systems are the five lines of defence with established and clear functional responsibilities and accountability for the management of risks and internal controls.

PENGURUSAN RISIKO

RISK MANAGEMENT

Tujuan Rangka Kerja Pengurusan Risiko (ERM) PERKESO ialah untuk menyediakan pendekatan berintegrasi dan tersusun di seluruh organisasi. Ia menggariskan metodologi ERM yang selaras dengan Prinsip dan Garis Panduan ISO31000: Pengurusan Risiko, terutamanya menggalakkan pemilikan risiko dan pemantauan berterusan risiko utama yang dikenal pasti. Rangka Kerja ERM PERKESO diringkaskan seperti berikut:

SOCISO Enterprise Risk Management (ERM) framework aims to provide an integrated and organised approach organisation-wide. It outlines the ERM methodology which is in line with the Principles and Guidelines of ISO31000: Risk Management, mainly promoting risk ownership and continuous monitoring of key risks identified. SOCISO's ERM Framework is summarised as follows:

RANGKA KERJA PENGURUSAN RISIKO / ENTERPRISE RISK MANAGEMENT FRAMEWORK

1. Pengawalseliaan Pengurusan Risiko Risk Management Oversight

Pengawalseliaan pengurusan risiko adalah tanggungjawab BGC dan Lembaga Pengarah. BGC dan Lembaga Pengarah bertanggungjawab untuk menetapkan hala tuju strategik bagi peranan, tanggungjawab dan struktur pelaporan risiko. Pelaporan berkala kepada BGC dan Lembaga Pengarah mengenai aktiviti pengurusan risiko yang dijalankan oleh pihak pengurusan melalui Jawatankuasa Pengurusan Risiko (MRC), memastikan BGC dan Lembaga Pengarah dimaklumkan dan dinasihatkan tentang semua aspek ERM, serta bidang risiko yang penting dan trend risiko.

MRC terdiri daripada Ketua Jabatan di setiap bahagian. MRC mengekalkan pengawasan risiko dalam organisasi di peringkat pengurusan, seperti yang digariskan dalam Rangka Kerja ERM. Di peringkat Lembaga Pengarah, BGC mengambil alih pengawalseliaan dan peranan strategik untuk ERM. Sebagai tambahan kepada keperluan pelaporan kepada BGC dan Lembaga Pengarah, MRC mempunyai tanggungjawab khusus untuk merumus dan melaksanakan mekanisme ERM untuk mematuhi keperluan dasar ERM dan untuk menyatakan serta mencabar penarafan risiko.

Tahap penyertaan Lembaga Pengarah dan pihak pengurusan serta struktur pelaporan ditunjukkan di bawah:

The oversight role of risk management is carried out by the BGC and the Board. The BGC and the Board sets the strategic direction for risk roles, responsibilities and risk reporting structures. The periodic reporting to both the BGC and the Board on risk management activities undertaken by management via the Management Risk Committee (MRC), keeps the BGC and the Board apprised and advised of all aspects of ERM, and significant risk areas and risk trends.

The MRC comprises members from the respective Head of Divisions. The MRC maintains the risk oversight within the organisation at the management level, as outlined in the ERM Framework. At the Board level, the BGC assumes the oversight and strategic role for ERM. In addition to the reporting requirements to BGC and Board, the MRC has specific responsibilities which include, amongst others, to formulate and implement the ERM mechanism to comply with the requirements of the ERM policy and to articulate and challenge risk ratings.

The level of Board and management participation and reporting structure is shown below:

MRC dibantu oleh RMD (kini dikenali sebagai Cawangan Pengurusan Risiko, Bahagian GEAR) yang peranan utamanya adalah untuk memastikan pelaksanaan yang berkesan bagi pengurusan risiko dan rangka kerja pengurusan kesinambungan perniagaan, program dan pendidikan berkaitan risiko di seluruh organisasi, penyediaan perkhidmatan bebas dan penilaian objektif risiko serta pelaporan tepat pada masanya kepada MRC, BGC dan Lembaga Pengarah.

The MRC is assisted by the RMD (now known as Risk Management Section, GEAR Division) whose primary role is to ensure effective implementation of the risk management and business continuity management framework, programmes and risk-related education across the organisation, and provision of independent and objective assessment of risks as well as timely reporting to the MRC, BGC and the Board.

2. Polisi Pengurusan Risiko Risk Management Policy

Lembaga Pengarah mengiktiraf bahawa risiko adalah bahagian yang wujud dalam perniagaan organisasi, memberikan kedua-dua ancaman dan peluang. Untuk mencapai matlamat korporat dan memenuhi jangkaan pemegang saham, Lembaga Pengarah perlu membuat keputusan yang melibatkan beberapa tahap risiko. Polisi risiko berikut menyediakan panduan mengenai pengurusan risiko dan terpakai di semua Bahagian dan Syarikat Subsidiari:

- Untuk mengintegrasikan pengurusan risiko ke dalam budaya, aktiviti perniagaan dan proses membuat keputusan di PERKESO.
- Untuk menjangka dan bertindak balas terhadap perubahan keperluan operasi, sosial, alam sekitar dan peraturan secara proaktif.
- Untuk mengurus risiko secara pragmatik, ke tahap yang boleh diterima berdasarkan keadaan setiap situasi.
- Untuk memastikan semua cadangan yang dikemukakan kepada Lembaga Pengarah oleh pihak pengurusan yang berkaitan dengan strategi, projek utama, tindakan penting atau pelaburan mesti disertakan laporan penilaian risiko dengan terperinci.
- Untuk melaksanakan rangka kerja pengurusan risiko yang teguh dan mampan yang sejajar dengan visi dan misi organisasi dan selaras dengan praktis terbaik.

The Board recognises that risk is an inherent part of the organisation's business, presenting both threats and opportunities. In order to achieve corporate goals and meet shareholders' expectations, the Board would have to make decisions which will involve some degree of risk. The following risk policy provides guidance as to the Management of risks and applies across all Divisions and Subsidiary:

- To integrate risk management into the SOCSO culture, business activities and decision-making processes.
- To anticipate and respond to the changing operational, social, environmental and regulatory requirements proactively.
- To manage risks pragmatically, to an acceptable level given the circumstances of each situation.
- To require that all proposals submitted to the Board by management relating to strategy, key projects, significant action or investment must include a detailed risk assessment report.
- To implement a robust and sustainable risk management framework that is aligned with the Organisation's vision and mission and in accordance with best practices.

3. Proses Pengurusan Risiko Risk Management Process

Rangka Kerja ERM PERKESO mempunyai proses berstruktur untuk mengenal pasti, menganalisis, menilai, merawat, berkomunikasi dan memantau risiko di Bahagian dan Syarikat Subsidiari. Risiko dikenal pasti berdasarkan matlamat dan objektif PERKESO dan dinilai berdasarkan parameter risiko. Risiko dinilai semula dan dipantau secara berterusan untuk memastikan tindakan sewajarnya diambil untuk menguruskan risiko tersebut. Prosedur mengenai perubahan ketara terhadap risiko sedia ada dan risiko yang bakal muncul juga telah diwujudkan untuk tindakan pihak pengurusan.

Tahap risiko telah dikategorikan dengan jelas. Setiap risiko diukur berdasarkan tahap toleransi yang ditetapkan. Parameter risiko yang konsisten telah ditakrifkan kepada 3 peringkat. Di peringkat organisasi, profil risiko di 3 peringkat ini akan disatukan dan diagregatkan untuk memudahkan pengawasan terhadap pendedahan risiko.

SOCISO ERM Framework has a structured process for Divisions and Subsidiary to identify, analyse, evaluate, treat, communicate and monitor their risks. The risks are identified based on SOCISO's goals and objectives and assessed against its risk parameters. Risks are reassessed and monitored on an ongoing basis to ensure appropriate actions are taken to manage such risks. Risk escalation procedure on significant changes to existing risks and emerging risks has also been established to escalate the risks for Management action.

There is a clear categorisation of the risk appetite. Individual risks are measured against set tolerance levels. Consistent risk parameters have been defined on a 3-tier basis and risk profiles are consolidated and aggregated from these tiers to facilitate a consolidated view of the risk exposure at the organisation level.

4. Pengurusan Strategik, Operasi and Risiko Pelaburan Management of Strategic, Operational and Investment Risks

PERKESO menguruskan risiko dan fokus utama akauntabiliti adalah seperti berikut:

The context within which SOCISO manages the risks and key focus of accountability is as follows:

Risiko strategik ialah risiko yang disebabkan oleh peristiwa yang berada di luar organisasi tetapi mempunyai kesan ketara ke atas keputusan atau aktiviti strategik. Oleh itu, akauntabiliti untuk menguruskan risiko strategik terletak pada Lembaga Pengarah dan Ketua Pegawai Eksekutif. Faedah mengurus risiko strategik dengan berkesan ialah organisasi boleh meramal dengan lebih baik dan cepat menyesuaikan diri dengan sebarang perubahan. Organisasi juga berkemungkinan akan kurang terjejas oleh sebarang peristiwa luaran yang memerlukan perubahan ketara.

• **Strategic risks** are risks primarily caused by events that are external to the organisation but have a significant impact on its strategic decisions or activities. Accountability for managing strategic risks therefore rests with the Board and the Chief Executive Officer. The benefit of effectively managing strategic risks is that the organisation can better forecast and quickly adapt to the changing demands that are placed upon. It also means that the organisation is less likely to be affected by some external event that calls for significant change.

Risiko operasi wujud secara berbeza dalam setiap Bahagian dan Syarikat Subsidiari PERKESO sebagai contoh risiko meliputi reputasi, sumber manusia, teknologi, dan sebagainya. Ketua Bahagian dan Syarikat Subsidiari bertanggungjawab untuk menguruskan risiko operasi tersebut.

• **Operational risks** are inherent in the ongoing activities within the different Divisions and Subsidiary of SOCISO. Typically, some of the risks cover reputational, human capital, technology, etc. Accountability for managing operational risks rests with the Heads of Divisions and Subsidiary.

Risiko pelaburan ialah kebarangkalian berlakunya kerugian ke atas pelaburan organisasi yang boleh memberi kesan negatif terhadap pulangan. Pengurusan risiko pelaburan PERKESO terbahagi kepada dua kategori utama iaitu Risiko Pasaran dan Pengurusan Risiko Kredit.

• **Investment risk** is the probability of incurring losses on the organisation's investments that can have a negative impact towards returns. SOCISO's investment risk management is divided into two main categories which are Market Risk and Credit Risk Management.

Pengurusan Risiko Pasaran

Risiko pasaran adalah risiko kerugian yang timbul daripada pergerakan harga pasaran, kadar faedah dan harga komoditi. Objektif utama pengurusan risiko pasaran adalah untuk melindungi dana organisasi dan meminimumkan kerugian daripada perubahan pasaran yang tidak dijangka.

PERKESO menguruskan risiko pasaran di peringkat portfolio dan individu yang akan dipantau dan dilaporkan kepada MRC dan BGC.

Market Risk Management

Market risk is defined as the risk of losses to an investment/ portfolio arising from movements in market prices, interest rates and commodity prices. The main objective of market risk management is to protect the organisation's fund and minimise unforeseen losses arising from market movements

SOCISO manages market risk at the portfolio and individual levels where it is then monitored and reported to the MRC and BGC.

► Pengurusan Risiko Kredit

Risiko kredit ialah risiko rakan niaga gagal melaksanakan kewajipannya. Matlamat pengurusan risiko kredit adalah untuk memaksimumkan kadar pulangan terlaras risiko organisasi dengan mengekalkan pendedahan risiko kredit dalam parameter yang boleh diterima. PERKESO terdedah kepada risiko kredit akibat pelaburan dalam bon dan sukuk, hartanah, dana ekuiti persendirian dan pasaran wang.

'Management Action Trigger' (MAT) bertindak sebagai amaran awal kepada pihak pengurusan untuk menilai semula risiko apabila diperlukan.

► Credit Risk Management

Credit risk is the risk of a counterparty failing to perform its obligations. The goal of credit risk management is to maximise an organisation's risk-adjusted rate of return by maintaining the credit risk exposure within an acceptable parameter. SOCSO is exposed to credit risks due to investments in bonds and sukuk, real estate, private equity funds and money market.

Management Action Trigger (MAT) acts as an early warning for Management to reassess risk as and when required.

5. Pelaporan Risiko Risk Reporting

Rangka Kerja ERM PERKESO menyediakan semakan dan pelaporan yang kerap. Laporan tersebut termasuk profil risiko, plan tindakan risiko (RAPs) dan kemas kini status serta ringkasan Laporan Kemajuan Pengurusan mengenai Pelaburan Kritikal. Laporan ini telah dibentang dan dibincang di MRC, BRC dan BGC dan seterusnya kepada Lembaga Pengarah.

SOCSCO ERM Framework provides for regular review and reporting. The reports include the risk profiles, risk action plans (RAPs) and status updates as well as Management Progress Report summary on Critical Investments. During the year under review, these reports were presented to and deliberated at the MRC, the BRC and the BGC and subsequently presented to the Board.

6. Aktiviti Pengurusan Risiko Risk Management Activities

Sebagai sebahagian daripada usaha PERKESO untuk menyemai budaya pengurusan risiko dan pemilikan yang proaktif, aktiviti berikut telah dijalankan:

- Mengadakan perbincangan dengan Ketua Bahagian/ Seksyen/ Unit/ Pejabat untuk mendapatkan pengesahan risiko utama mereka.
- Menyediakan khidmat nasihat dan penilaian bebas serta mengadakan bengkel semakan Kad Skor Risiko di Bahagian dan Kad Skor Risiko di Cawangan yang melibatkan peserta di seluruh PERKESO.
- Penambahbaikan sistem depositori risiko untuk tujuan pengesanan dan pemantauan risiko.

As part of SOCSO's effort to instil a proactive risk management culture and ownership, the following activities were undertaken during the year under review:

- Held discussions with the Heads Divisions/ Sections/ Units/ Offices to obtain endorsement of their key risks.
- Provided risk advisory and independent assessment as well as facilitated Divisional Risk Scorecards and Branch Risk Scorecards review workshops involving participants across SOCSO.
- Refinement of the risk depository system for purposes of risk tracking and monitoring.

ULASAN PRESTASI KEWANGAN

FINANCIAL PERFORMANCE REVIEW

Pendapatan caruman meningkat sebanyak RM182.84 juta atau 3.65% kepada RM5,195.12 juta berbanding RM5,012.28 juta pada tahun 2020 antaranya berikutan peluasan perlindungan Skim Keselamatan Sosial Pekerjaan Sendiri kepada 19 sektor pekerjaan sendiri yang lain berkuat kuasa mulai 1 Januari 2020 yang menyumbang peningkatan ketara pendapatan caruman bagi Akta 789 pada tahun 2021. Selain itu, peningkatan kutipan caruman ini juga mencerminkan tahap kesedaran yang kian meningkat di kalangan majikan, pekerja dan orang bekerja sendiri mengenai tanggungjawab mereka untuk mencarum kepada PERKESO berikutan keberkesanan kempen kesedaran dan aktiviti penguatkuasaan yang dilaksanakan oleh PERKESO.

Pendapatan pelaburan kasar juga meningkat sebanyak RM246.99 juta atau 19.60% kepada RM1,507.21 juta berbanding RM1,260.22 juta pada tahun 2020 terutamanya berikutan peningkatan dalam pendapatan dividen dan keuntungan penjualan saham serta peningkatan keuntungan belum realis atas pertukaran asing.

Sementara itu, belanja tanggungan meningkat sebanyak RM23.74 juta atau 0.50% kepada RM4,733.16 juta pada tahun 2021 berbanding RM4,709.42 juta pada tahun sebelumnya terutamanya berikutan peningkatan dalam bayaran faedah jangka panjang dan bayaran faedah fi latihan bagi Sistem Insurans Pekerjaan.

Belanja operasi turut meningkat sebanyak RM171.04 juta atau 23.34% kepada RM904.00 juta berbanding RM732.96 juta pada tahun 2020 berikutan peningkatan perbelanjaan perkhidmatan dan bekalan bagi tahun 2021.

Kerugian penjejasan bersih bagi aset kewangan juga meningkat sebanyak RM294.37 juta atau 243.70% kepada RM415.16 juta pada tahun 2021 berbanding RM120.79 juta pada tahun sebelumnya berikutan penurunan harga pasaran saham pada akhir tahun 2021.

Contributions income increased by RM182.84 million or 3.65% to RM5,195.12 million compared to RM5,012.28 million in 2020 among them due to the extension of the Self-Employment Social Security Scheme protection to 19 other self-employment sectors effective from 1st January 2020 which contributed a significant increase in contribution income for Act 789 in 2021. The increase in collection of contributions also reflects the increasing level of awareness among employers, employees and self-employed person about their responsibilities to contribute to SOCSO due to the effectiveness of awareness campaigns and enforcement activities implemented by SOCSO.

Gross investment income also increased by RM246.99 million or 19.60% to RM1,507.21 million in comparison to RM1,260.22 million in 2020 mainly due to an increase in dividend income and gains from disposal of shares as well as an increase in unrealised gains on foreign exchange.

Meanwhile, benefits expenses increased by RM23.74 million or 0.50% to RM4,733.16 million in 2021 in comparison to RM4,709.42 million in the previous year mainly due to the increase in long-term benefits payments and payment for training fee benefit of the Employment Insurance System.

Operating expenses also increased by RM171.04 million or 23.34% to RM904.00 million compared to RM732.96 million in 2020 mainly due to the increase in services and supplies expenses in 2021.

Net Impairment losses for financial assets also increased by RM294.37 million or 243.70% to RM415.16 million in 2021 in comparison to RM120.79 million in the previous year due to the decrease in the market price of shares at the end of 2021.

Kutipan caruman pada tahun 2021 meningkat sebanyak 2.70% kepada RM5,180.09 juta berbanding RM5,044.07 juta tahun sebelumnya. Kenaikan ini selaras dengan peningkatan dalam jumlah pendaftaran majikan dan pekerja serta peluasan perlindungan keselamatan sosial kepada pekerja domestik bermula 1 Jun 2021.

Peningkatan dalam kutipan caruman ini disumbangkan oleh pelaksanaan pakej-pakej rangsangan ekonomi seperti Program Subsidi Upah (PSU), KerjayaGig, SPS Lindung dan SPS Prihatin Wanita yang diperkenalkan. Sebagai contoh, di bawah Akta 789 sahaja, jumlah kutipan caruman telah meningkat sebanyak 336.44% berbanding tahun 2020 dengan jumlah peningkatan caruman sebanyak RM37.21 juta seperti jadual 6 di bawah.

CONTRIBUTION COLLECTION

Contribution collection in 2021 increased by 2.70% to RM5,180.09 million compared to RM5,044.07 million the previous year. This increase is in line with the increase in the number of employer and employee registrations and the extension of social security protection to domestic workers starting 1 June 2021.

The increase in contribution collection was contributed by the implementation of economic stimulus packages such as the Program Subsidi Upah (PSU), KerjayaGig, SPS Lindung and SPS Prihatin Wanita. For example, under Act 789 alone, the total contribution collection has increased by 336.44% compared to 2020 with a total contribution increase of RM37.21 million in table 6 below.

Aktiviti yang dilaksanakan adalah seperti pemeriksaan, pengkompaunan, pendakwaan dan Debt Recovery iaitu mengutip atau mendapatkan balik bayaran pinjaman pendidikan yang telah diberikan kepada anak-anak penerima pencen PERKESO.

Walaupun Perintah Kawalan Pergerakan Kedua (PKP 2.0) dan Perintah Kawalan Pergerakan Bersyarat Kedua (PKPB 2.0) dilaksanakan dalam awal tempoh lima (5) bulan pertama tahun 2021, aktiviti penguatkuasaan masih dilaksanakan mengikut syarat-syarat yang ditetapkan oleh Kerajaan. KEMPEN PROUD TO REGISTER

Kempen *Proud To Register* dilaksanakan sempena Majlis Pelancaran Soft Launch Sambutan Jubli Emas PERKESO 50 Tahun pada 1 Mac 2021. Objektif utama kempen ini adalah untuk menunjukkan keprihatinan PERKESO terhadap kepentingan mendaftar dan mencarum dengan PERKESO. Ia bertujuan untuk melindungi pekerja sekiranya berlaku kemalangan atau kejadian luar jangka di bawah skim bencana kerja dan skim keilatan di bawah Akta 4 serta perlindungan daripada pemberhentian pekerjaan di bawah Akta 800.

ENFORCEMENT ACTIVITIES

Enforcement activities are among SOCSO's two main functions apart from benefit payments. These activities ensure the sustainability of the Social Security Fund in the long term. Among the activities carried out are inspection, compounding, prosecution, and debt recovery which is collecting or retrieving education loan payments that have been given to the dependent child of SOCSO pension recipients.

Although the Second Movement Control Order (MCO 2.0) and the Second Conditional Movement Control Order (CMCO 2.0) were implemented in the first five (5) months of 2021, the enforcement activities continued to be carried out under the conditions set by the Government. The year 2021 recorded 97 compound cases with a value of RM0.10 million compared to 333 compound cases valued at RM2.0 million in 2020.

Meanwhile, the number of prosecution cases in 2021 reached 2,287 cases with a percentage increase of 9.27% compared to 2,094 cases in 2020.

PROUD TO REGISTER CAMPAIGN

This initiative was implemented in conjunction with SOCSO's 50th Golden Jubilee Soft Launch on 1st March 2021. The main objective of this campaign is to illustrate SOCSO's 'keprihatinan' regarding the importance of registering and contributing to SOCSO. It aims to protect workers in the event of an accident or unforeseen event under the work disaster scheme and disability scheme under Act 4 as well as protection from employment termination under Act 800.

Selain itu kempen ini juga bertujuan untuk meningkatkan kesedaran majikan agar secara sukarela membuat pendaftaran secara atas talian dan mencarum dengan PERKESO bagi melindungi pekerja yang digajikan. Kempen ini juga mensasarkan kepada majikan yang telah berdaftar tetapi belum pernah membayar caruman dengan PERKESO.

In addition, this campaign also aims to increase the awareness for any employer who voluntarily registers online in the ASSIST Portal and to contribute to SOCSO with the aim to protect employed workers. This campaign also targets employers who have registered but have never paid contributions with SOCSO.

CATCH AND PAY

Inisiatif Catch & Pay merupakan tindakan penguatkuasaan secara soft approach dalam mengenalpasti majikan yang mempunyai tunggakan caruman dan memastikan majikan mematuhi Akta serta Peraturan dalam melindungi hak kebajikan pekerja walaupun dalam situasi negara dilanda Pandemik COVID-19.

Dalam situasi Pandemik COVID-19, majoriti urusan adalah secara atas talian seperti penggunaan e-mel, mesyuarat iaitu dalam konteks berkaitan perkhidmatan yang disediakan. Walaupun aktiviti berkaitan penguatkuasaan adalah sinonim dengan pemeriksaan yang melibatkan perjumpaan secara fizikal namun dalam situasi pandemik ianya telah ditambahbaik selaras dengan keperluan dan kehendak semasa. Inisiatif Catch & Pay ini menggunakan platform pemakluman kepada majikan dengan menggunakan e-mel sebagai notis peringatan kepada majikan yang mempunyai tunggakan caruman di bawah Akta 4 dan Akta 800.

CATCH AND PAY

The Catch & Pay initiative is one of the soft approach enforcement actions to identify employers who have arrears in contributions and to ensure that employers comply with Acts and Regulations in protecting the welfare rights of their employees even in a situation where the country is hit by the COVID-19 Pandemic.

During the COVID-19 Pandemic, most businesses are performed via online methods such as the use of e-mail, and meetings which are in the context of services provided. Although enforcement-related activities are synonymous with inspections involving physical meetings, but in a pandemic situation it has been improved in line with the current needs. This Catch & Pay initiative uses a notification platform for employers by using email as a notice reminder to employers who have arrears of contributions under Act 4 and Act 800.

Ekonomi Global

Selepas melalui tahun yang mencabar pada tahun 2020, tahun 2021 dijangka lebih baik, selepas pelancaran vaksinasi di seluruh dunia yang telah memberikan kelegaan di tengah-tengah peningkatan kes-kes COVID-19.

Bergerak ke hadapan ke tahun 2022, pemulihan ekonomi global dijangka lebih sederhana, mengambil kira kesan pembukaan sempadan dan pelonggaran sekatan pergerakan.

Menurut Tabung Kewangan Antarabangsa (IMF), ekonomi global diunjurkan berkembang sebanyak 3.20% dan 2.70% masing-masing pada tahun 2022 dan 2023.

Pertumbuhan ekonomi Malaysia, seperti yang diukur oleh KDNK, meningkat sebanyak 3.10% pada tahun 2021 berbanding penurunan sebanyak 5.60% pada tahun 2020, yang menunjukkan tanda-tanda momentum pemulihan. Ini kesan daripada pembatalan Perintah Kawalan Pergerakan (PKP) dan pelbagai pakej rangsangan ekonomi yang diumumkan oleh kerajaan sepanjang tahun 2021.

Sebagai langkah untuk menyokong ekonomi, kerajaan telah melancarkan empat (4) pakej rangsangan ekonomi komprehensif (PERMAI, PEMERKASA, PEMERKASA+ dan PEMULIH) di antara bulan Januari 2021 hingga Jun 2021, yang berjumlah RM225.00 bilion atau kira-kira 15.00% daripada KDNK.

MARKET REVIEW

Global Economy

After a challenging year in 2020, the year 2021 was expected to be better for many. The vaccination rollout globally provided a breather amidst increasing COVID-19 cases.

Moving forward to 2022, global economic recovery is expected to moderate further, considering the effects of borders reopening and easing of mobility restrictions.

According to the International Monetary Fund (IMF), global economy is projected to grow 3.20% and 2.70% in 2022 and 2023 respectively.

Malaysia Economy

Malaysia's economic growth, as measured by GDP, grew 3.10% in 2021 as compared to a decline by 5.60% in 2020, showing signs of recovery momentum. This is on the back of the upliftment of Movement Control Order (MCO) measures and various economic stimulus announced by the government throughout 2021.

As measures to support the economy, the government has rolled out four (4) comprehensive economic stimulus packages (PERMAI, PEMERKASA, PEMERKASA+ and PEMULIH) between January 2021 to June 2021, totalling RM225.00 bilion or approximately 15.00% of GDP.

For the year 2022, Malaysia's economic growth is expected to be in the range of 5.30% to 6.30%. Malaysia's GDP growth will be primarily propelled by government's fiscal policy to encourage domestic and external demands.

Money market investment under Act 4 contributed an income of RM66.43 million. Funds under Act 789 and Act 800 respectively contributed an income of RM2.30 million and RM24.72 million respectively.

External Investment Mandate

As at end of December 2021, SOCSO outsourced 14.97% from Act 4 fund to EFMs for both domestic and foreign mandates as part of its diversification strategy. The AUM for domestic EFMs was RM2,118.77 million while RM2,208.58 million were managed by foreign EFMs.

In 2021, EFMs achieved gross income of RM289.25 million or 20.20% of investment income for Act 4 fund. As part of the performance monitoring process, SOCSO held online performance evaluation meetings every quarter with the EFMs.

Property

The overall property market sentiment has improved in 2021. The property market transaction witnessed a rebound in first half of 2021 with 139,754 unit transactions worth RM62.01 billion, an increase of 21.00% in volume and 32.10% in value compared to first half of 2020.

Bagi sektor komersil, Lembah Klang dijangka mengalami penambahan sebanyak 5.2 juta kaki persegi ruang pejabat pada tahun 2022 termasuk menara ikonik Merdeka 118 baharu. Pasaran hartanah yang diterajui penyewa menghadapi tekanan berterusan dalam penghunian dan kadar sewa efektif sepanjang tahun 2021. Pengoptimuman kos, inisiatif-inisiatif penambahbaikan aset dan pakej-pakej sewaan yang menarik adalah strategi yang digunakan oleh kebanyakan pemilik hartanah.

Pendapatan sewaan PERKESO pada tahun 2021 telah meningkat disebabkan oleh program pengekalan penyewa serta usaha-usaha untuk menarik penyewa-penyewa baharu yang menyebabkan Menara NU 2 mencapai tahap penghunian 100% pada akhir tahun 2021.

Ekuiti Swasta

Pada tahun 2021, jumlah nilai urusniaga ekuiti swasta global mencecah AS\$1,121.00 bilion, meningkat sebanyak 94% daripada tahun 2020. Jumlah nilai penjualan ekuiti swasta juga menunjukkan pertumbuhan yang luar biasa, mencecah AS\$957.00 bilion, meningkat sebanyak 108% daripada tahun 2020.

Aktiviti pelaburan dijangka kekal kukuh dan pelabur-pelabur masih berminat untuk melaburkan modal. Sebahagiannya disebabkan pelabur-pelabur mengimbangi semula portfolio dengan memperuntukkan lebih banyak modal untuk dilaburkan semula pada tahun 2022.

Sehingga 31 Disember 2021, pelaburan ekuiti swasta PERKESO telah menjana Kadar Pulangan Dalaman (IRR) kasar sebanyak 4.30%, lebih rendah daripada tahun lepas (2020: 4.39%) yang umumnya disebabkan oleh kesan negatif pandemik COVID-19.

Antara pelaburan alternatif terbaik adalah pelaburan yang dibuat semasa kemelesetan ekonomi. Hasilnya, dana *vintage* 2019 - 2022 berpotensi muncul sebagai dana ekuiti berprestasi terbaik dan dana akan terus disuntik ke strategi modal swasta yang diuruskan oleh pengurus-pengurus dana yang berpengalaman.

PERKESO merancang untuk memanfaatkan kitaran ekonomi yang memberangsangkan tersebut dan mengembangkan portfolio ekuiti swasta pada tahun 2022.

For the commercial sector, Klang Valley is expecting another 5.2 million square feet of office space in 2022 including the iconic new Merdeka 118 tower. The tenant-led market faced continuous pressure in its occupancy and effective rental rates throughout 2021. Cost optimisation, asset enhancement initiatives and attractive leasing packages are strategies adopted by most landlords.

SOCISO's rental income in 2021 has improved due to tenant retention programme as well as efforts to attract new tenants resulting in its NU Tower 2 achieving 100% occupancy level by the end of 2021.

Private Equity

In 2021, total global private equity deal value reached AS\$1,121.00, 94% increased from 2020. Also total private equity exit value showed extraordinary growth, reaching AS\$957.00 billion, a 108% rise from 2020.

Investment activity is expected to remain robust and investors will be keen to deploy capital. Part of this is due to investors rebalancing their portfolios by freeing up more capital to reinvest in 2022.

As of 31st December 2021, SOCISO's private equity investment has generated an gross Internal Rate of Return (IRR) of 4.30%, lower than last year (2020: 4.39%) which was generally due to the negative impact of the COVID-19 pandemic.

Some of the right investments in alternatives will be those made during the economic downturn. As a result, 2019 - 2022 vintage funds are likely to stand out as top performers and funds will keep flowing to private capital strategies with experienced fund managers.

SOCISO plans to ride on this favourable economic cycle and expand its private equity portfolio in 2022.

PENGURUSAN STRATEGI DAN PRESTASI PERKESO

SOCISO STRATEGIC AND PERFORMANCE MANAGEMENT

“Pembangunan Pelan Strategik & Transformasi PERKESO (PSTP) 2021-2022 yang bertemakan “Keprihatinan Melestarikan Kesejahteraan Bersama”, dibangunkan **secara khusus dan rapi** sebagai fasa awal strategi PERKESO dan negara dalam menghadapi dan menangani sebahagian daripada cabaran-cabaran dan impak pandemik COVID-19 terhadap aspek ekonomi, sosial, teknologi, persekitaran dan juga perundangan”.

Semua mengetahui pada tahun 2020, bermulanya suatu episod di mana seluruh dunia menghadapi cabaran getir pandemik COVID-19 yang memberi kesan besar terhadap ekonomi negara Malaysia termasuk penurunan nilai ringgit Malaysia serta penurunan keluaran dalam negara kasar (KDNK). Pandemik ini juga memberi kesan kepada beberapa sektor utama termasuk sektor peruncitan, perhotelan, pelancongan, pengangkutan dan sebagainya yang mana berlakunya penutupan perusahaan di pelbagai sektor, pengurangan/pembuangan pekerja, kekurangan barangan & perkhidmatan serta amalan norma baharu seperti penjarakan sosial dan pematuhan kepada standard operating procedure (SOP) yang dikeluarkan oleh Majlis Keselamatan Negara Malaysia. Pandemik ini turut melakar perubahan budaya kerja rakyat Malaysia dengan pengenalan budaya bekerja di rumah dengan pelaksanaan perintah kawalan pergerakan yang turut melihat keperluan terhadap sokongan dan kecukupan sistem ICT secara khususnya.

“The development of SOCISO's Strategic & Transformation Plan (PSTP) 2021-2022 with the theme “Keprihatinan Melestarikan Kesejahteraan Bersama”, developed **specifically and meticulously** as SOCISO's and the country's initial strategic phase in dealing with challenges and impacts of the COVID-19 pandemic on the economic, social, technological, environment and legal aspects”.

It is widely known that 2020 was the beginning of an episode where the entire world faced the great challenge of COVID-19 pandemic which had a major impact on the Malaysian economy including the depreciation of the Malaysian ringgit as well as the fall in Gross Domestic Product (GDP). This pandemic also affected several key sectors including retail, hospitality, tourism, and transportation sectors where businesses in various industries ceased operations, reduction/dismissal of employees, shortage of goods & services as well as new norm practices such as social distancing and compliance to standard operating procedures (SOP) issued by Malaysian National Security Council. The pandemic has changed the Malaysian work culture by introducing working from home with the implementation of the movement control orders, emphasizing the need for support and efficiency of the ICT system.

Justeru itu, dalam mendepani impak situasi ini, Kerajaan Malaysia telah merangka pelbagai inisiatif dan program berterusan bagi membantu meringankan beban rakyat khususnya yang terkesan akibat pandemik ini. PERKESO sebagai salah sebuah agensi Kerajaan di bawah Kementerian Sumber Manusia, menggalas tanggungjawab sosial ini demi merealisasi hasrat dan keprihatinan Kerajaan terhadap kesejahteraan rakyat. Maka dengan itu, aspirasi Kerajaan ini telah menjadi inskripsi dalam intipati utama pengurusan strategik dan ekspektasi keberhasilan yang diharapkan dalam Pelan Strategik & Transformasi PERKESO (PSTP) 2021-2022 (Fasa I) bagi tempoh dua tahun sebagai kesiapsiagaan PERKESO dalam menghadapi serta menangani impak wabak ini.

Pelan Strategik & Transformasi PERKESO (PSTP) 2021-2022 yang berpaksikan agenda negara ke arah kesejahteraan rakyat ini selaras dengan Visi bersama PERKESO sebagai "Peneraju Keselamatan Sosial yang Unggul, Komprehensif dan Dinamik". Semangat jitu anggota PERKESO selaku pengamal keselamatan sosial dengan amalan nilai-nilai murni dan S4P, sedia memberikan perkhidmatan melangkaui ekspektasi pelanggan dengan moto organisasi iaitu "PERKESO itu Prihatin, Prihatin itu PERKESO".

Therefore, in dealing with the impact of this situation, the Malaysian Government has developed several initiatives and continuous programs to help ease the burden of the people, especially those affected by this pandemic. SOCSO as one of the Government agencies under the Ministry of Human Resources, has this social obligation to meet the Government's intention and concern for the wellbeing of the people. As a result, the Government's aspiration has been incorporated into the SOCSO Strategic & Transformation Plan (PSTP) 2021-2022 (Phase I) for a period of two years as PERKESO's preparedness in confronting and addressing the impact of this epidemic.

SOCSO's Strategic & Transformation Plan (PSTP) 2021-2022 centered on the national agenda towards the well-being of the people is in line with SOCSO's joint Vision as "Premier, Dynamic and Outstanding Leader in Social Security". The key spirit of SOCSO members as practitioners of social security who uphold good values and S4P, ready to go above and beyond in providing services to its customers, is embodied in the organizational motto "PERKESO itu Prihatin, Prihatin itu PERKESO".

Pengurusan Kes COVID-19 Anggota PERKESO

Susulan penularan COVID-19, PERKESO telah mewujudkan COVID-19 Helpline bagi menyelaras dan menguruskan kes COVID-19 yang melibatkan anggota PERKESO termasuk anggota di semua pejabat-pejabat PERKESO. Helpline ini beroperasi setiap hari dan diuruskan oleh Pegawai Perubatan daripada Bahagian Pencegahan, Perubatan dan Pemulihan.

Setiap kes COVID-19 anggota PERKESO yang dilaporkan, pengesanan kontak akan dilakukan dengan segera bagi mengenalpasti anggota-anggota lain yang berisiko mempunyai kontak rapat dengan kes positif. Arahan kuarantin dan ujian saringan COVID-19 akan diselaraskan bagi anggota yang dikesan sebagai kontak rapat. Sehingga 31 Disember 2020, sebanyak 466 kes positif telah dilaporkan di kalangan anggota PERKESO.

Saringan COVID-19 juga dijalankan kepada anggota yang berkaitan bagi memastikan keberkesanan langkah pencegahan penularan wabak COVID-19. Sehingga 31 Disember 2021, sebanyak 3,765 ujian saringan COVID-19 telah dijalankan di kalangan anggota.

Selain pengurusan kes COVID-19, PERKESO juga mengambil pelbagai langkah proaktif dalam mencegah penularan wabak COVID-19. Antara inisiatif yang dijalankan adalah menyediakan alat pelindungan diri seperti pelitup muka, *hand sanitizer* dan alat pengimbas suhu, promosi pencegahan penularan wabak secara berterusan dan penyediaan serta pematuhan terhadap SOP.

COVID-19 Cases Management for SOCSO Employees

Following the spread of COVID-19, SOCSO has established a COVID-19 Helpline to coordinate and manage cases of COVID-19 involving SOCSO members including members in all SOCSO Offices. This helpline operates daily and is managed by Medical Officers from the Prevention, Medical and Rehabilitation Division.

For each COVID-19 reported case of SOCSO employee, contact tracing will be carried out immediately to identify other members who are at risk of having close contact with a positive case. Quarantine instructions and COVID-19 screening tests will be adjusted for members detected as close contacts. As of 31st December 2020, a total of 466 positive cases have been reported among SOCSO members.

COVID-19 screening is also carried out for relevant members to ensure the effectiveness of measures to prevent the spread of the COVID-19 epidemic. As of 31st December 2021, a total of 3,765 COVID-19 screening tests have been conducted among members.

During the course of this test from July to December 2021, a total of 493 COVID-19 screening tests were conducted.

PROGRAM PROMOSI KESIHATAN PEKERJA

Di sebalik pelbagai inisiatif yang dilaksanakan untuk mengekang penularan wabak COVID-19 di kalangan pekerja, PERKESO masih menjalankan beberapa aktiviti promosi kesihatan untuk menggalakkan pekerja kekal sihat walaupun semasa musim pandemik. Antaranya program-program promosi kesihatan pekerja, Program Promosi Kesihatan di Tempat Kerja (WHP) dan Workplace Health Promotion Webinar 2021.

EMPLOYEE HEALTH PROMOTION PROGRAM

Despite the various initiatives implemented to curb the spread of the COVID-19 epidemic among workers, SOCSO still carries out a number of health promotion activities to encourage workers to stay healthy even during the pandemic season. Among them are employee health promotion programs, the Workplace Health Promotion Program (WHP) and Workplace Health Promotion Webinar 2021.

Workplace Health Promotion Program (WHP)

Program Workplace Health Promotion (WHP) yang diperkenalkan oleh PERKESO sejak tahun 2017 masih terus dilaksanakan setiap tahun. Bagi tahun 2021, program ini telah dilaksanakan oleh Malaysian Society for Occupational Safety and Health (MSOSH) di bawah Bantuan Kewangan PERKESO.

Melalui program ini, pendedahan dan panduan diberikan kepada majikan terutamanya pihak pengurusan untuk mewujudkan persekitaran tempat kerja yang kondusif untuk mempromosikan kesihatan di kalangan pekerja. Garis Panduan Promosi Kesihatan Di Tempat Kerja yang diterbitkan oleh PERKESO pada tahun 2018 telah digunakan sebagai panduan dalam pelaksanaan program ini. Sehingga tahun 2021, sebanyak 129 majikan telah menjalankan Program WHP melalui PERKESO.

Workplace Health Promotion Program (WHP)

The Workplace Health Promotion (WHP) program introduced by SOCSO since 2017 continues to be implemented every year. For the year 2021, this program has been implemented by the Malaysian Society for Occupational Safety and Health (MSOSH) under SOCSO Financial Assistance.

Through this program, exposure and guidance are provided to employers, especially management, to create a workplace environment that is conducive to promoting health among employees. The Workplace Health Promotion Guidelines published by SOCSO in 2018 have been used as a guide in the implementation of this program. Until 2021, a total of 129 employers have run the WHP Program through SOCSO.

Program Saringan Kesihatan PERKESO

Pelaksanaan Program Saringan Kesihatan PERKESO (HSP) ditangguhkan sementara kerana pandemik COVID-19 dan bagi memberikan tumpuan kepada pelaksanaan inisiatif Program Saringan COVID-19 PERKESO.

SOCSO Health Screening Program

The implementation of SOCSO's Health Screening Program (HSP) is temporarily postponed due to the COVID-19 pandemic and to focus on the implementation of SOCSO's COVID-19 Screening Program initiative.

Program Return To Work (RTW)

Di bawah Sistem Insurans Pekerjaan (SIP), PERKESO telah memperkenalkan program pemulihan fizikal yang disediakan kepada Orang Berinsurans (OB) iaitu Program RTW mulai 15 Januari 2007. Tujuan program RTW dilaksanakan adalah untuk membantu OB yang mengalami hilang upaya akibat daripada kemalangan dan penyakit mencapai tahap kefungsi optimum sebelum kembali bekerja. Setiap peserta yang menyertai program ini akan diuruskan oleh seorang Pengurus Kes atau Penolong Pengurus Kes yang menggunakan pendekatan biopsikososial iaitu penekanan kepada gangguan terhadap kefungsi fizikal, psikologikal, dan sosial yang terbit daripada kecederaan atau penyakit yang dialami.

Return To Work (RTW) Programme

SOCSO introduced the RTW Program under the Employment Insurance System (EIS) on 15 January 2007 to provide physical rehabilitation to its Insured Person (IP). The objective of the program is to help IP with impairment due to injury or illnesses to return to work by optimizing their current functioning. Each participant joining the program will be managed by a Case Manager or an Assistant Case Manager that uses the biopsychosocial approach, which highlights the physical, psychological, and social issues that arise from the injury or illness.

Dalam memastikan pemberian perkhidmatan yang holistik dan memastikan bahawa konsep pengurusan hilang upaya ini dapat dilaksanakan oleh setiap pemegang taruh dengan sendiri, beberapa program telah diperkenalkan seperti:

- 1. Certified Disability Management Professionals (CDMP) - PERKESO** menjadi pemegang lesen untuk membawa pensijilan daripada Kanada di Asia Tenggara. Program ini bertujuan untuk melatih lebih ramai ahli kesihatan, ahli kesihatan bersekutu, pengamal keselamatan sosial, dan pengurus sumber manusia mengenai program RTW dan konsep pengurusan hilang upaya.
- 2. Caring Center** – Dengan kerjasama interdisciplinary team, program ini memfokuskan intervensi rehabilitasi vokasional secara integrasi sosial kepada peserta RTW melalui aktiviti sokongan pra-pekerjaan. Inisiatif ini juga bertujuan untuk mengukuhkan tahap kesediaan dan membangun potensi diri agar mampu kembali bekerja dan menyumbang kepada komuniti.
- 3. Return to Work Coordinator (RTWC)** - Program ini adalah asas pengenalan mengenai hilang upaya kepada para majikan untuk mereka berikan sokongan kepada OB yang mengalami hilang upaya di tempat kerja, agar OB terus bekerja dengan baik.
- 4. RTWPreneur** – Program keusahawanan peserta program RTW bagi memastikan agar peserta program RTW yang tidak dapat peluang pekerjaan kompetitif untuk terus berdikari dan memperoleh pendapatan. Peserta turut diberi latihan kemahiran dan latihan pengurusan kewangan sebagai seorang usahawan.
- 5. Emotional Support & Psychological Wellbeing** – Program ini memberi sokongan emosi dan psikologi kepada OB, keluarga, dan orang awam oleh Pengurus Kes yang mempunyai lesen berdaftar sebagai Kaunselor.

In ensuring that services were provided holistically, and every stakeholder would be able to grasp and conduct the disability management concept independently, few programs have been implemented, such as:

- 1. Certified Disability Management Professionals (CDMP) – SOCSO** holds the license to provide the training from Canada in Southeast Asia. The program aims to train more healthcare professionals, allied health professionals, social security practitioners, and human resource managers to understand and apply the RTW program and disability management concept.
- 2. Caring center** - Focuses on vocational rehabilitation intervention to RTW participants through social integration and pre-employment support activity. This initiative aims to strengthen the level of readiness and develop their self-potential, in order for them to be able return to work and contribute back to the community.
- 3. Return to Work Coordinator (RTWC)** – This is an introductory program on disability management targeted to employers, to enable them to provide support to IP with impairment to return and retain at work.
- 4. RTWPreneur** – An entrepreneurial program for RTW participants to ensure that they would be able to be independent and gain income, even if they are unable to join competitive employment. Participants will also be provided with skills training and financial management as an entrepreneur.

Risiko untuk tidak mengenal salah nyata ketara akibat daripada fraud adalah lebih tinggi daripada kesilapan kerana fraud mungkin melibatkan pakatan, pemalsuan, kelengkapan yang diabaikan, representasi yang salah, atau mengatasi kawalan dalaman;
- memahami kawalan dalaman yang relevan untuk merangka prosedur audit yang berkesesuaian tetapi bukan untuk menyebarkan pendapat mengenai keberkesanan kawalan dalaman Pertubuhan Keselamatan Sosial dan Kumpulan;
- menilai kesesuaian dasar perakaunan yang diguna pakai, kemunasabahannya dengan perakaunan dan pendekatan yang berkaitan oleh Lembaga;
- membuat kesimpulan terhadap kesesuaian penggunaan asas perakaunan untuk tujuan tertentu oleh Lembaga dan berdasarkan bukti audit yang diperoleh, sama ada wujudnya ketidakpastian ketara yang berkaitan dengan pendapat atau keadaan yang mungkin menimbulkan keraguan yang signifikan terhadap keupayaan Pertubuhan Keselamatan Sosial atau Kumpulan sebagai satu usaha berterusan. As part of an audit in accordance with the International Standards of Supreme Audit Institutions, I exercise professional judgement and maintain professional scepticism throughout the audit. I also:

- identify and assess the risks of material misstatement of the Financial Statements of the Group and of the Social Security Organization, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for my opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control;
- obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the Group's and the Social Security Organization's internal control;

If I conclude that a material uncertainty exists, I am required to draw attention in my Auditor's Certificate to the related disclosures in the Financial Statements of the Group and of the Social Security Organization or, if such disclosures are inadequate, to modify my opinion. My conclusions are based on the audit evidence obtained up to the date of Auditor's Certificate. However, future events or conditions may cause the Group or the Social Security Organization to cease to continue as a going concern;

Skim-skim ini memberi perlindungan kepada para pekerja dan tanggungan yang layak apabila berlakunya kejadian luar jangka yang menimpa pekerja berkenaan seperti bencana pekerjaan, keilatan dan kematian. Skim ini turut menyediakan kemudahan pemulihan terhadap pekerja yang ditimpa bencana bagi membolehkannya kembali aktif dalam kehidupan harian dan kembali bekerja dengan secepat mungkin.

PERKESO juga menguatkuasakan Akta Keselamatan Sosial Pekerjaan Sendiri 2017 dan mentadbir skim bencana pekerjaan sendiri untuk pemandu teksi, *e-hailing* dan pemandu bas berkuat kuasa pada 1 Jun 2017 dan diperluaskan kepada 19 sektor lain mulai 1 Januari 2020. Skim ini memberikan perlindungan kepada orang berinsurans yang bekerja sendiri daripada bencana pekerjaan termasuk penyakit khidmat dan kemalangan semasa menjalankan aktiviti pekerjaan dan juga memberi faedah tunai kepada pemandu teksi dan tanggungan mereka di samping faedah perubatan, pemulihan fizikal dan latihan vokasional.

3. Significant Accounting Policies

3.1 Statement Of Compliance And Basis Of Preparation

SOCSCO adopted the accrual basis of Malaysian Public Sector Accounting Standards (MPSAS). The financial statements are presented in Ringgit Malaysia (RM), which is the functional and reporting currency of SOCSCO and all values are rounded to the nearest thousand (RM'000). The accounting policies have been consistently applied throughout the period.

The financial statements have been prepared on the basis of historical cost, unless stated otherwise. The cash flows statement is prepared using the indirect method. The financial statements are prepared on an accrual basis.

3.2 Summary Of Significant Accounting Policies

a) Basis Of Consolidation

The Group Financial Statements comprises of the Financial Statements of the SOCSCO and its subsidiary which have been prepared as at the financial year end. The Financial Statements of the subsidiary are prepared for the same reporting date as the SOCSCO, using consistent accounting policies for transaction and events in similar circumstances.

SOCSCO controls an investee if and only if SOCSCO has all the following:

- (i) Kuasa atas syarikat pelaburan (iaitu hak yang ada yang memberikannya kemampuan semasa untuk mengarahkan aktiviti yang berkaitan dengan syarikat pelaburan);
- (ii) Pendedahan, atau hak, terhadap pulangan berubah daripada pelaburannya dengan syarikat pelaburan; dan
- (iii) Keupayaan untuk menggunakan kuasanya ke atas syarikat pelaburan untuk mempengaruhi pulangannya.

Subsidiari adalah disatukan dari tarikh pemerolehan, tarikh di mana PERKESO memperoleh kawalan dan berterusan untuk disatukan sehingga ke tarikh kawalan tersebut secara kuatkuasanya tamat. Semua baki, pendapatan dan perbelanjaan serta keuntungan dan kerugian belum realis dalam kumpulan hasil daripada urus niaga dalam kumpulan adalah dihapuskan sepenuhnya.

Gabungan Perniagaan

Gabungan perniagaan diakaunkan menurut kaedah pemerolehan. Kos pemerolehan adalah diukur berdasarkan jumlah balasan yang dipindahkan yang diukur pada nilai saksama pada tarikh pemerolehan dan amaun kepentingan tak kawal dalam entiti syarikat yang dibeli. Kos yang berkaitan dengan pemerolehan adalah dibelanjakan dan termasuk dalam belanja operasi.

Muhibah pada awalnya diukur pada kos, yang merupakan lebih daripada jumlah balasan yang dipindahkan dan amaun yang diiktiraf untuk kepentingan tak kawal, dan sebarang kepentingan sebelumnya yang dipegang ke atas aset bersih yang dapat dikenal pasti yang dibeli dan liabiliti yang diandaikan. Sekiranya nilai saksama bagi aset bersih yang diperolehi melebihi jumlah balasan yang dipindahkan, Kumpulan menilai semula sama ada ia telah mengenal pasti semua aset yang diperolehi dengan betul dan semua liabiliti yang diandaikan dan menyemak semula prosedur yang digunakan untuk mengukur amaun yang akan diiktiraf pada tarikh pemerolehan. Sekiranya penilaian semula masih menghasilkan lebih daripada nilai saksama aset bersih yang diperolehi daripada agregat balasan yang dipindahkan, maka keuntungan diiktiraf dalam lebih atau kurang.

- (i) Power over the investee (i.e. existing rights that give it the current ability to direct the relevant activities of the investee);
- (ii) Exposure, or rights, to variable returns from its investment with the investee; and
- (iii) The ability to use its power over the investee to affect its returns.

Subsidiaries are consolidated from the date of acquisition, being the date on which the SOCSO obtains control and continue to be consolidated until the date such control effectively ceased. All intra group balances, income and expenses and unrealised gain and losses resulting from intra group transactions are eliminated in full.

Business Combinations

Business combinations are accounted for using the acquisition method. The cost of an acquisition is measured as the aggregate of the consideration transferred measured at acquisition date fair value and the amount of any non-controlling interests in the acquiree. Acquisition-related costs are expensed as incurred and included in operating expenses.

Goodwill is initially measured at cost, being the excess of the aggregate of the consideration transferred and the amount recognised for non-controlling interests, and any previous interest held, over the net identifiable assets acquired and liabilities assumed. If the fair value of the net assets acquired is in excess of the aggregate consideration transferred, the Group re-assesses whether it has correctly identified all of the assets acquired and all of the liabilities assumed and reviews the procedures used to measure the amounts to be recognised at the acquisition date. If the reassessment still results in an excess of the fair value of net assets acquired over the aggregate consideration transferred, then the gain is recognised in surplus or deficit.

Selepas pengiktirafan awal, muhibah diukur pada kos ditolak kerugian penjejasan terkumpul. Bagi tujuan pengujian penjejasan, muhibah yang diperolehi dalam gabungan perniagaan, dari tarikh pemerolehan dialokasikan kepada setiap unit penjana tunai Kumpulan yang dijangka mendapat manfaat daripada gabungan tersebut, tanpa mengira sama ada aset atau liabiliti lain daripada syarikat yang dibeli diperuntukkan kepada unit-unit tersebut.

b) Pelaburan Dalam Subsidiari

Subsidiari adalah semua entiti (termasuk yang diperbadankan untuk tujuan khas) di mana Kumpulan mempunyai kuasa untuk mengawal. Kawalan wujud apabila Kumpulan terdedah, atau mempunyai hak untuk mendapatkan pulangan yang berubah-ubah daripada penglibatannya dengan entiti terlibat dan mempunyai kemampuan untuk mempengaruhi pulangan tersebut melalui kuasa atas entiti tersebut.

Pelaburan tidak tersiar harga dalam subsidiari dinyatakan pada kos dan kemudiannya diselaraskan kepada nilai boleh pulih yang mengambil kira kerugian penjejasan pada tahun tersebut, jika ada. Dasar untuk pengiktirafan dan pengukuran kerugian penjejasan adalah berpanduan Nota 3.2 (j).

c) Pengiktirafan Hasil

Hasil Daripada Urus Niaga Bukan Pertukaran

Pendapatan Caruman

Pendapatan caruman daripada majikan dan pekerja diiktiraf apabila PERKESO mempunyai hak yang boleh dikuatkuasakan untuk menerimanya.

Geran Kerajaan

Geran kerajaan diiktiraf pada nilai saksamanya apabila terdapat jaminan yang munasabah bahawa geran akan diterima dan PERKESO akan mematuhi semua syarat yang ditetapkan. Geran dengan syarat pada awalnya akan diiktiraf sebagai liabiliti dan berikutnya sebagai hasil daripada urus niaga bukan pertukaran dalam tempoh pelaporan yang memenuhi syaratnya.

b) Investment In Subsidiary

Subsidiaries are all entities (inclusive those incorporated for special purpose) of which the Group has the power to control. Control exists when the Group is exposed, or has rights to variable returns from its involvement with the entity and has the ability to affect those returns through its power over the entity.

The unquoted investment in subsidiaries are stated at cost and thereafter adjusted to its recoverable value which takes into consideration the impairment loss in the said year, if any. The policy for the recognition and measurement of impairment loss is in accordance with Note 3.2 (j).

c) Revenue Recognition

Revenue From Non-Exchange Transactions

Contribution Income

Contribution income from employers and employees is recognised when SOCSO has an enforceable right to receive it.

Government Grant

Government grants are recognised at their fair value when there is a reasonable assurance that the grants will be received and SOCSO will comply with all the stipulated conditions. Grants with conditions will initially be recognised as liability and subsequently as revenue from non-exchange transactions during the reporting period which the conditions are satisfied.

Geran kerajaan tanpa syarat diukur pada nilai saksama dan diiktiraf sebagai hasil daripada urus niaga bukan pertukaran pada titik kawalan diperoleh ke atas aset (tunai), hasil berkenaan boleh diukur dengan pasti dan berkemungkinan manfaat ekonomi atau potensi perkhidmatan yang berkaitan dengan aset berkenaan akan mengalir ke PERKESO.

Sebarang geran yang diterima tidak diiktiraf sebagai hasil apabila PERKESO hanya bertindak sebagai ejen pelaksana dan pembayar.

Pendapatan Faedah

Pendapatan faedah diakrukan dengan menggunakan kaedah hasil efektif. Hasil efektif ini mendiskaunkan anggaran terimaan tunai masa hadapan di sepanjang jangkaan usia aset kewangan sehingga amaun yang dibawa bersih aset terbabit. Kaedah ini diaplikasikan kepada baki prinsipal untuk menentukan pendapatan faedah bagi setiap tempoh.

Dividen

Dividen atau agihan yang setara dengannya hendaklah diiktiraf apabila hak pemegang saham atau PERKESO untuk menerima bayaran tersebut ditentukan.

Pendapatan Sewa

Pendapatan sewa hasil daripada pajakan operasi atas pelaburan hartanah dikira pada asas garis lurus di sepanjang tempoh pajakan dan diambil kira sebagai hasil.

Faedah Caruman Lewat Bayar Dan Kompaun

Faedah caruman lewat bayar dan kompaun diiktiraf atas asas tunai.

Penyampaian Perkhidmatan

Hasil daripada penyampaian perkhidmatan diiktiraf setelah pengakuan terimaan dan penyempurnaan sesuatu perkhidmatan. Kos yang dikenakan untuk kerja yang dilaksanakan sehingga ke suatu tarikh tidak termasuk kos yang berkaitan dengan aktiviti masa hadapan, seperti untuk bahan atau bayaran terdahulu.

Government grants without conditions are measured at fair value and recognised as revenue from non-exchange transactions at the point control is obtained over the asset (cash), the revenue can be reliably measured and it is probable that the economic benefits or service potential related to the asset will flow to SOCSO.

Any grants received are not recognised as revenue when SOCSO is only acting as an implementing and paying agent.

Interest Income

Interest income is accrued using the effective yield method. The effective yield discounts estimated future cash receipts through the expected life of the financial asset to that asset's net carrying amount. The method applies this yield to the principal outstanding to determine interest income each period.

Dividend

Dividend or similar distributions must be recognised when the shareholder's or SOCSO's right to receive payments is established.

Rental Income

Rental income arising from operating leases on properties is accounted for on a straight-line basis over the lease terms and included in revenue.

Interest On Late Contribution And Compound

Interest on late contribution and compound are recognised on a cash basis.

Rendering Of Services

Revenue from rendering of services is recognised upon acknowledgement and completion of services. Costs incurred for work performed to date do not include costs relating to future activity, such as for materials or prepayments.

d) Pelaburan Hartanah

Hartanah pelaburan pada awalnya diukur pada kos yang mana termasuk kos urus niaga yang berkaitan. Amaun yang dibawa adalah termasuk kos penggantian komponen bagi hartanah pelaburan sedia ada pada masa kos tersebut dikenakan sekiranya kriteria pengiktirafan telah dipenuhi dan tidak termasuk kos penyelenggaraan harian bagi hartanah pelaburan.

Selepas pengiktirafan awal, hartanah pelaburan dinyatakan pada nilai saksama. Nilai saksama bagi hartanah pelaburan adalah berdasarkan penilaian oleh penilai bebas dan/atau penilai dalaman berdaftar dan mempunyai kelayakan profesional diiktiraf yang bersesuaian dan pengalaman terkini berkaitan lokasi dan kategori hartanah yang dinilai. Keuntungan atau kerugian yang terbit daripada perubahan dalam nilai saksama hartanah pelaburan akan diiktiraf dalam lebihan atau kekurangan dalam tahun kewangan di mana ianya berlaku.

Jika PERKESO menetapkan bahawa nilai saksama hartanah pelaburan dalam pembinaan tidak boleh ditentukan dengan pasti tetapi menjangka nilai saksama hartanah boleh ditentukan dengan pasti apabila pembinaan siap, PERKESO hendaklah mengukur hartanah pelaburan dalam pembinaan pada kos sehingga sama ada nilai saksamanya boleh ditentukan dengan pasti atau pembinaan siap sepenuhnya (yang mana terdahulu). Apabila PERKESO boleh mengukur dengan pasti nilai saksama hartanah pelaburan dalam pembinaan yang mana sebelumnya telah diukur pada nilai kos, PERKESO hendaklah mengukur hartanah itu pada nilai saksamanya.

Perbelanjaan berikutnya adalah dipermodalkan kepada amaun yang dibawa oleh aset berkenaan hanya apabila terdapat kemungkinan bahawa manfaat ekonomi masa hadapan berkaitan dengan perbelanjaan tersebut akan mengalir kepada PERKESO dan kos bagi item berkenaan boleh diukur dengan pasti. Semua kos pembaikan dan penyelenggaraan lain adalah dibelanjakan apabila ianya berlaku. Apabila sebahagian daripada hartanah pelaburan diganti, amaun yang dibawa bagi bahagian yang diganti akan dinyahiktirafkan.

d) Investment Property

Investment properties are initially measured at cost, which includes related transaction costs. The carrying amount includes the replacement cost of components of an existing investment property at the time that cost is incurred if the recognition criteria are met and excludes the costs of day-to-day maintenance of an investment property.

After initial recognition, investment properties are stated at fair value. Fair values of investment properties are based on valuations by registered independent and/or in-house valuers and with appropriate recognised professional qualifications and recent experience in the location and category of the properties being valued. Gains or losses arising from changes in the fair values of investment properties are recognised in surplus or deficit in the financial year in which they arise.

If SOCSO determines that the fair value of an investment property under construction is not reliably determinable but expects the fair value of the property to be reliably determinable when construction is completed, SOCSO shall measure that investment property under construction at cost until either its fair value becomes reliably determinable or construction is completed (whichever is earlier). Once SOCSO is able to measure reliably the fair value of an investment property under construction that has previously been measured at cost, SOCSO shall measure that property at its fair value.

Subsequent expenditure is capitalised to the asset's carrying amount only when it is probable that future economic benefits associated with the expenditure will flow to SOCSO and the cost of the item can be measured reliably. All other repairs and maintenance costs are expensed when incurred. When part of an investment property is replaced, the carrying amount of the replaced part is derecognised.

Hartanah pelaburan adalah dinyahiktirafkan sama ada apabila ia telah dilupuskan atau apabila hartanah pelaburan itu tidak digunakan secara kekal dan tiada manfaat ekonomi masa hadapan yang dijangkakan daripada pelupusannya. Keuntungan atau kerugian yang terbit daripada penamatan atau pelupusan hartanah pelaburan ditentukan daripada perbezaan di antara hasil pelupusan bersih, jika ada, dengan amaun yang dibawa oleh aset itu dan diiktiraf sebagai lebihan atau kurangan dalam tempoh penamatan atau pelupusan itu.

Hartanah pelaburan akan dikelaskan semula sebagai hartanah dan peralatan apabila kegunaan hartanah berubah daripada hartanah pelaburan kepada yang diduduki oleh pemilik. Nilai saksamanya pada tarikh pengelasan semula itu akan menjadi kos untuk tujuan perakaunan berikutnya.

e) Hartanah Dan Peralatan

Semua hartanah dan peralatan adalah dinyatakan pada kos ditolak susut nilai terkumpul dan kerugian penjejasan. Kos termasuk perbelanjaan yang berkaitan secara langsung dengan perolehan item tersebut. Apabila bahagian signifikan hartanah dan peralatan perlu diganti pada masa tertentu, PERKESO mengiktiraf bahagian-bahagian tersebut sebagai aset-aset individu dengan usia guna tertentu dan menyusutnilaikannya dengan sewajarnya. Begitu juga, apabila pemeriksaan menyeluruh dilakukan, kosnya diiktiraf dalam amaun yang dibawa oleh hartanah dan peralatan terbabit sebagai suatu penggantian jika kriteria pengiktirafan tersebut dipenuhi. Semua kos pembaikan dan penyelenggaraan lain diiktiraf dalam lebihan atau kurangan apabila ianya berlaku. Jika suatu aset diperolehi dalam suatu urus niaga bukan pertukaran di mana balasannya adalah tiada atau pada nilai nominal, aset tersebut pada awalnya akan diukur pada nilai saksama.

Kerja dalam kemajuan terdiri daripada kerja-kerja yang melibatkan hartanah dan peralatan yang belum disempurnakan sehingga akhir tahun kewangan semasa. Kerja dalam kemajuan dinyatakan pada nilai kos dan tidak disusutnilaikan sehingga aset berkenaan sedia untuk digunakan.

Investment properties are derecognised when either they have been disposed of or when the investment property is permanently withdrawn from use and no future economic benefit is expected from its disposal. The gain or loss arising from the retirement or disposal of an investment property is determined as the difference between the net disposal proceeds, if any, and the carrying amount of the asset and is recognised in surplus or deficit in the period of the retirement or disposal.

When the use of a property changes from investment property to owner-occupied, the property is reclassified as property and equipment. Its fair value at the date of reclassification becomes its cost for subsequent accounting purposes.

e) Property And Equipment

All property and equipment are stated at cost less accumulated depreciation and impairment losses. Cost includes expenditure that is directly attributable to the acquisition of the items. When significant parts of property and equipment are required to be replaced at intervals, SOCSO recognises such parts as individual assets with specific useful life and depreciates them accordingly. Likewise, when a major inspection is performed, its cost is recognised in the carrying amount of the property and equipment as a replacement if the recognition criteria are satisfied. All other repair and maintenance costs are recognised in surplus or deficit as incurred. Where an asset is acquired in a non-exchange transaction for nil or nominal consideration, the asset is initially measured at its fair value.

Work in progress consists of works involving property and equipment that have not been completed until the end of the current financial year. Work in progress is stated at cost and is not depreciated until the asset is ready for use.

Tanah pegangan bebas tidak disusut nilai kerana ianya mempunyai usia yang tidak terhad. Hartanah dan peralatan lain disusut nilai mengikut kaedah garis lurus untuk memperuntukkan kos kepada nilai sisanya di sepanjang anggaran usia guna yang diringkaskan seperti berikut:

- Tanah pajakan	Baki tempoh pajakan
- Bangunan pejabat	50 tahun
- Ubah suai pejabat	3 tahun
- Kenderaan bermotor	5 tahun
- Peralatan pejabat	5 tahun
- Peralatan vokasional	5 tahun
- Peralatan perubatan	5 tahun
- Perkakasan komputer	3 - 5 tahun

Nilai sisa dan usia guna aset adalah dikaji semula dan diselaraskan secara prospektif, jika bersesuaian, pada akhir setiap tempoh pelaporan.

Amaun yang dibawa oleh suatu aset dikurangkan dengan serta-merta kepada amaun boleh pulih, atau amaun perkhidmatan boleh pulih, jika amaun yang dibawa oleh aset adalah lebih besar daripada anggaran amaun boleh pulih atau amaun perkhidmatan boleh pulih.

PERKESO menyahiktirafkan item hartanah dan peralatan dan/atau mana-mana bahagian signifikan suatu aset sekiranya berlaku pelupusan atau apabila tiada manfaat ekonomi atau potensi perkhidmatan masa hadapan yang dijangka akan diperolehi daripada penggunaannya yang berterusan. Sebarang keuntungan atau kerugian yang terbit daripada penyahiktirafan aset itu (dikira berdasarkan perbezaan di antara hasil pelupusan bersih dan amaun yang dibawa oleh aset tersebut) adalah dimasukkan dalam lebihan atau kurangan apabila aset tersebut dinyahiktirafkan.

Freehold land is not depreciated as it has an infinite life. Other property and equipment are depreciated on the straight-line method to allocate the cost to their residual values over their estimated useful life summarised as follows:

- Leasehold land	Remaining lease period
- Office buildings	50 years
- Office renovations	3 years
- Motor vehicles	5 years
- Office equipment	5 years
- Vocational equipment	5 years
- Medical equipment	5 years
- Computer hardware	3 - 5 years

The assets' residual values and useful life are reviewed, and adjusted prospectively, if appropriate, at the end of each reporting period.

An asset's carrying amount is written down immediately to its recoverable amount, or recoverable service amount, if the asset's carrying amount is greater than its estimated recoverable amount or recoverable service amount.

SOCSO derecognises items of property and equipment and/or any significant part of an asset upon disposal or when no future economic benefits or service potential is expected from its continuing use. Any gain or loss arising on derecognition of the asset (calculated as the difference between the net disposal proceeds and the carrying amount of the asset) is included in the surplus or deficit when the asset is derecognised.

f) Pajak

Pajak kewangan adalah pajak yang memindahkan sebahagian besar daripada risiko dan manfaat berkaitan dengan pemilikan item yang dipajak kepada PERKESO. Aset yang dipegang di bawah pajak kewangan dipermodalkan pada permulaan pajak pada nilai saksama hartanah yang dipajak atau, jika lebih rendah, pada nilai kini bayaran pajak minimum masa hadapan. PERKESO juga mengiktiraf liabiliti pajak berkaitan pada permulaan pajak. Liabiliti yang diiktiraf itu diukur sebagai nilai kini bayaran pajak minimum masa hadapan pada awal pengiktirafan.

Selepas pengiktirafan awal, bayaran pajak diagihkan di antara caj kewangan dan pengurangan liabiliti pajak untuk mencapai suatu kadar faedah yang tetap ke atas baki liabiliti yang tinggal. Caj kewangan diiktiraf sebagai kos kewangan di dalam lebihan atau kurangan.

Aset yang dipegang di bawah pajak kewangan disusut nilai sepanjang usia guna aset itu. Walau bagaimanapun, jika tiada kepastian yang munasabah bahawa PERKESO akan mendapat hak milik terhadap aset itu pada akhir tempoh pajak, aset itu akan disusut nilai mengikut yang mana lebih singkat antara anggaran usia guna aset itu dan tempoh pajak.

Pajak operasi adalah pajak yang tidak memindahkan sebahagian besar risiko dan manfaat berkaitan dengan pemilikan item yang dipajak kepada PERKESO. Pembayaran pajak operasi diiktiraf sebagai perbelanjaan operasi dalam lebihan atau kurangan pada asas garis lurus di sepanjang tempoh pajak.

g) Perisian Komputer

Aset tidak ketara yang diperolehi secara berasingan pada awalnya diiktiraf pada nilai kos. Kos aset tidak ketara yang diperolehi dalam suatu urusan niaga bukan pertukaran adalah nilai saksamanya pada tarikh pertukaran. Selepas pengiktirafan awal, aset tidak ketara dibawa pada kos ditolak sebarang pelunasan terkumpul dan kerugian penjejasan terkumpul.

f) Leases

Finance leases are leases that transfer substantially all of the risks and benefits incidental to ownership of the leased item to SOCSO. Assets held under a finance lease are capitalised at the commencement of the lease at the fair value of the leased property or, if lower, at the present value of the future minimum lease payments. SOCSO also recognises the associated lease liability at the inception of the lease. The liability recognised is measured as the present value of the future minimum lease payments at initial recognition.

Subsequent to initial recognition, lease payments are apportioned between finance charges and reduction of the lease liability so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised as finance costs in surplus or deficit.

An asset held under a finance lease is depreciated over the useful life of the asset. However, if there is no reasonable certainty that SOCSO will obtain ownership of the asset by the end of the lease term, the asset is depreciated over the shorter of the estimated useful life of the asset and the lease term.

Operating leases are leases that do not transfer substantially all the risks and benefits incidental to ownership of the leased item to SOCSO. Operating lease payments are recognised as an operating expense in surplus or deficit on a straight-line basis over the lease term.

g) Computer Software

Intangible assets acquired separately are initially recognised at cost. The cost of intangible assets acquired in a non-exchange transaction is their fair value at the date of the exchange. Following initial recognition, intangible assets are carried at cost less any accumulated amortisation and accumulated impairment losses.

Aset tidak ketara yang dijana secara dalaman, tidak termasuk kos pembangunan yang dipermodalkan, tidak dipermodalkan dan perbelanjaan ditunjukkan di dalam lebihan atau kurangan dalam tempoh di mana perbelanjaan tersebut berlaku.

Kerja dalam kemajuan terdiri daripada kerja-kerja yang melibatkan perisian komputer yang belum disempurnakan sehingga akhir tahun kewangan semasa. Kerja dalam kemajuan dinyatakan pada nilai kos dan tidak disusutnilaikan sehingga aset berkenaan sedia untuk digunakan.

Usia guna aset tidak ketara dinilai sama ada mempunyai tempoh terhad atau tidak terhad.

Aset tidak ketara dengan usia terhad adalah dilunaskan sepanjang usia gunanya:

- Perisian komputer 5 tahun

Aset tidak ketara dengan usia guna terhad adalah dinilai untuk penjejasan apabila wujud tanda-tanda bahawa aset itu mungkin telah terjejas.

Tempoh pelunasan dan kaedah pelunasan bagi aset tidak ketara dengan usia guna terhad adalah dikaji semula pada akhir setiap tempoh pelaporan. Perubahan dalam jangkaan usia guna atau pola jangkaan penggunaan manfaat ekonomi masa hadapan dalam aset adalah dianggap mengubah tempoh atau kaedah pelunasan, yang mana bersesuaian, dan dianggap sebagai perubahan dalam anggaran perakaunan. Perbelanjaan pelunasan ke atas aset tidak ketara dengan usia guna terhad diiktiraf dalam lebihan atau kurangan sebagai kategori belanja yang konsisten dengan sifat aset tidak ketara tersebut.

Untung atau rugi yang terbit daripada penyahiktirafan aset tidak ketara diukur daripada perbezaan di antara hasil pelupusan bersih dan amaun yang dibawa oleh aset itu dan diiktiraf dalam lebihan atau kurangan apabila aset itu dinyahiktirafkan.

Internally generated intangible assets, excluding capitalised development costs, are not capitalised and expenditure is reflected in surplus or deficit in the period in which the expenditure is incurred.

Work in progress consists of works involving computer software that have not been completed until the end of the current financial year. Work in progress is stated at cost and is not depreciated until the asset is ready for use.

The useful life of the intangible assets is assessed as either finite or indefinite.

Intangible assets with a finite life is amortised over its useful life:

- Computer software 5 years

Intangible assets with a finite useful life are assessed for impairment whenever there is an indication that the asset may be impaired.

The amortisation period and the amortisation method, for an intangible asset with a finite useful life, are reviewed at the end of each reporting period. Changes in the expected useful life or the expected pattern of consumption of future economic benefits embodied in the asset are considered to modify the amortisation period or method, as appropriate, and are treated as changes in accounting estimates. The amortisation expense on an intangible asset with a finite life is recognised in surplus or deficit as the expense category that is consistent with the nature of the intangible asset.

Gains or losses arising from derecognition of an intangible asset are measured as the difference between the net disposal proceeds and the carrying amount of the asset and are recognised in the surplus or deficit when the asset is derecognised.

h) Penjejasan Bagi Aset Penjanaan Tunai

Aset yang tertakluk kepada susut nilai atau pelunasan dinilai pada setiap tarikh pelaporan untuk menentukan sama ada terdapat petunjuk bahawa aset tersebut mungkin terjejas. Sekiranya petunjuk tersebut wujud, aset tersebut diuji untuk penjejasan. Bagi tujuan menilai penjejasan, aset dikelompokkan pada tahap terendah di mana sebahagian besarnya terdapat aliran masuk tunai bebas (unit penjanaan tunai (CGU)). Amaun boleh pulih adalah yang mana lebih tinggi antara nilai saksama aset (atau CGU) ditolak kos untuk dijual dan nilai gunanya. Kerugian penjejasan diiktiraf apabila amaun dibawa aset (CGU) melebihi amaun boleh pulihnya.

Kerugian penjejasan diiktiraf kepada lebih atau kurangan melainkan ia membalikkan penilaian semula sebelumnya, di mana dalam kes ini ia dicajkan kepada lebih penilaian semula. Aset bukan kewangan yang mengalami penjejasan adalah disemak semula untuk kemungkinan pembalikan penjejasan pada setiap tarikh pelaporan. Sebarang kenaikan berikutnya dalam amaun boleh pulih adalah diiktiraf dalam lebih atau kurangan kecuali ia membalikkan kerugian penjejasan pada aset yang dinilai semula, dalam hal ini, ia dibawa ke rizab lebih penilaian semula.

i) Penjejasan Bagi Aset Bukan Penjanaan Tunai

PERKESO menilai pada setiap tarikh pelaporan sama ada terdapat petunjuk bahawa suatu aset bukan penjanaan tunai berkemungkinan terjejas. Jika wujud sebarang petunjuk, atau apabila ujian penjejasan tahunan bagi suatu aset diperlukan, PERKESO menganggarkan amaun perkhidmatan boleh pulih aset itu. Amaun perkhidmatan boleh pulih aset tersebut adalah dinilai pada amaun yang lebih tinggi bagi nilai saksama aset menjana bukan tunai tersebut ditolak kos untuk jualan dan nilai gunanya.

h) Impairment Of Cash-Generating Asset

Assets that are subject to depreciation or amortisation are assessed at each reporting date to determine whether there is any indication that the assets may be impaired. If such indication exists, the asset is tested for impairment. For the purposes of assessing impairment, assets are grouped at the lowest levels for which there are largely independent cash inflows (cash generating unit (CGU)). The recoverable amount is the higher of an asset's (or CGU's) fair value less costs to sell and its value in use. An impairment loss is recognised when the carrying amount of the asset (CGU) exceeds its recoverable amount.

The impairment loss is recognised to surplus or deficit unless it reverses a previous revaluation in which case it is charged to the revaluation surplus. Non-financial assets that suffered an impairment are reviewed for possible reversal of the impairment at each reporting date. Any subsequent increase in recoverable amount is recognised in surplus or deficit unless it reverses an impairment loss on a revalued asset in which case it is taken to revaluation surplus reserve.

i) Impairment Of Non-Cash-Generating Asset

SOCOSO assesses at each reporting date whether there is an indication that a non-cash-generating asset may be impaired. If any indication exists, or when annual impairment testing for an asset is required, SOCOSO estimates the asset's recoverable service amount. An asset's recoverable service amount is the higher of the non-cash generating asset's fair value less costs to sell and its value in use.

Apabila amaun yang dibawa oleh suatu aset melebihi amaun perkhidmatan boleh pulih, maka aset tersebut dianggap terjejas dan nilainya dikurangkan kepada amaun perkhidmatan boleh pulihnya. Dalam menentukan nilai guna aset, PERKESO akan menggunakan sama ada pendekatan kos penggantian susut nilai atau nilai saksama ditolak kos untuk jualan.

Di bawah pendekatan kos penggantian susut nilai, nilai kini bagi baki potensi perkhidmatan suatu aset ditentukan sebagai kos penggantian yang telah disusut nilai bagi aset tersebut. Kos penggantian yang disusut nilai diukur sebagai kos penghasilan semula atau penggantian aset itu, yang mana lebih rendah, ditolak susut nilai terkumpul yang dikira pada asas kos berkenaan, untuk menunjukkan potensi perkhidmatan yang telah digunakan atau telah luput bagi aset itu.

Dalam menentukan nilai saksama ditolak kos untuk jualan, harga aset dalam suatu ikatan perjanjian bagi suatu urusan niaga yang tulus, diselaraskan untuk kos tambahan yang dapat dikaitkan secara langsung dengan pelupusan aset itu adalah digunakan. Sekiranya tiada ikatan perjanjian, tetapi aset itu diniagakan di pasaran aktif, maka nilai saksama ditolak kos untuk jualan adalah nilai harga pasaran aset itu ditolak kos pelupusan. Sekiranya tiada ikatan perjanjian jualan atau pasaran aktif untuk aset itu, PERKESO menentukan nilai saksama ditolak kos untuk jualan aset berdasarkan maklumat terbaik yang ada.

Bagi setiap aset, penilaian dibuat pada setiap tarikh pelaporan sama ada terdapat sebarang petunjuk bahawa kerugian penjejasan yang diiktiraf sebelum ini mungkin tidak lagi wujud atau mungkin telah berkurangan. Jika petunjuk sedemikian wujud, PERKESO menganggarkan amaun perkhidmatan boleh pulih aset itu. Kerugian penjejasan yang diiktiraf sebelumnya dibalikkan hanya jika terdapat perubahan dalam andaian yang digunakan untuk menentukan amaun perkhidmatan boleh pulih aset itu sejak kerugian penjejasan yang terakhir diiktiraf.

Where the carrying amount of an asset exceeds its recoverable service amount, the asset is considered impaired and is written down to its recoverable service amount. In assessing value in use, SOCOSO will use either the depreciation replacement cost approach or fair value less costs to sell.

Under the depreciation replacement cost approach, the present value of the remaining service potential of an asset is determined as the depreciated replacement cost of the asset. The depreciated replacement cost is measured as the reproduction or replacement cost of the asset, whichever is lower, less accumulated depreciation calculated on the basis of such cost, to reflect the already consumed or expired service potential of the asset.

In determining fair value less costs to sell, the price of the assets in a binding agreement in an arm's length transaction, adjusted for incremental costs that would be directly attributed to the disposal of the asset is used. If there is no binding agreement, but the asset is traded on an active market, fair value less cost to sell is the asset's market price less cost of disposal. If there is no binding sale agreement or active market for an asset, SOCOSO determines fair value less cost to sell based on the best available information.

For each asset, an assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. If such indication exists, SOCOSO estimates the asset's recoverable service amount. A previously recognised impairment loss is reversed only if there has been a change in the assumptions used to determine the asset's recoverable service amount since the last impairment loss was recognised.

Pembalikan adalah dihadkan agar amaun yang dibawa oleh aset itu tidak melebihi amaun perkhidmatan boleh pulihnya, juga tidak melebihi nilai amaun dibawa yang telah ditentukan, nilai bersih setelah ditolak susut nilai, sekiranya tiada kerugian penjejasan bagi aset itu diiktiraf dalam tahun-tahun sebelumnya. Pembalikan tersebut diiktiraf dalam lebihan atau kurangan.

j) Instrumen Kewangan

Aset Kewangan

Pengiktirafan Dan Pengukuran Awal

Aset kewangan dalam skop MPSAS 29 Instrumen Kewangan: Pengiktirafan dan Pengukuran adalah diklasifikasikan sebagai aset kewangan pada nilai saksama melalui lebihan atau kurangan, pinjaman dan penghutang, pelaburan dipegang hingga matang atau aset kewangan sedia untuk dijual, yang mana sesuai. PERKESO menentukan klasifikasi aset kewangannya pada pengiktirafan awal.

Pembelian atau penjualan aset kewangan yang memerlukan penyerahan aset dalam tempoh masa yang ditetapkan oleh peraturan atau konvensyen di dalam pasaran (urus niaga cara biasa) adalah diiktiraf pada tarikh urus niaga, iaitu tarikh PERKESO memberi komitmen untuk membeli atau menjual aset itu.

Aset kewangan PERKESO termasuk tunai dan deposit jangka pendek, pinjaman dan belum terima lain, instrumen kewangan tersiar dan tidak tersiar dan instrumen kewangan derivatif.

Pengukuran Berikutnya

Pengukuran berikutnya bagi aset kewangan adalah bergantung kepada klasifikasinya.

Aset Kewangan Pada Nilai Saksama Melalui Lebihan Atau Kurangan

Aset kewangan pada nilai saksama melalui lebihan atau kurangan termasuk aset kewangan yang dipegang untuk diniagakan dan aset kewangan pada pengiktirafan awal yang dinyatakan pada nilai saksama melalui lebihan dan kurangan.

The reversal is limited so that the carrying amount of the asset does not exceed its recoverable service amount, nor exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised for the asset in prior years. Such reversal is recognised in surplus or deficit.

j) Financial Instruments

Financial Assets

Initial Recognition And Measurement

Financial assets within the scope of MPSAS 29 Financial Instruments: Recognition and Measurement are classified as financial assets at fair value through surplus or deficit, loans and receivables, held-to-maturity investments or available-for-sale financial assets, as appropriate. SOCSO determines the classification of its financial assets at initial recognition.

Purchases or sales of financial assets that require delivery of assets within a time frame established by regulation or convention in the marketplace (regular way trades) are recognised on the trade date, i.e., the date that SOCSO commits to purchase or sell the asset.

SOCSO's financial assets include cash and short-term deposits, loans and other receivables, quoted and unquoted financial instruments and derivative financial instruments.

Subsequent Measurement

The subsequent measurement of financial assets depends on their classification.

Financial Assets At Fair Value Through Surplus Or Deficit

Financial assets at fair value through surplus or deficit include financial assets held for trading and financial assets designated upon initial recognition at fair value through surplus and deficit.

Aset kewangan adalah diklasifikasikan sebagai dipegang untuk diniagakan sekiranya ia diperoleh bagi tujuan jualan atau pembelian semula dalam tempoh terdekat. Derivatif termasuk derivatif digabungkan yang diasingkan juga diklasifikasikan sebagai dipegang untuk diniagakan melainkan ia dinyatakan sebagai instrumen lindung nilai yang berkesan. Aset kewangan pada nilai saksama melalui lebihan atau kurangan adalah dibawa dalam penyata kedudukan kewangan pada nilai saksama dengan perubahan dalam nilai saksama diiktiraf sebagai lebihan atau kurangan.

Pinjaman Dan Belum Terima

Pinjaman dan belum terima adalah aset kewangan bukan derivatif dengan bayaran yang tetap atau boleh ditentukan yang mana tidak tersiar dalam pasaran aktif. Selepas pengukuran awal, aset kewangan berkenaan kemudiannya diukur pada kos yang dilunaskan menggunakan kaedah faedah efektif ditolak penjejasan. Kos yang boleh dilunaskan adalah dikira dengan mengambil kira apa-apa diskaun atau premium atas perolehan dan fi atau kos-kos yang merupakan bahagian yang penting bagi kadar faedah efektif itu. Kerugian yang terbit daripada penjejasan adalah diiktiraf sebagai lebihan atau kurangan.

Aset Kewangan Sedia Untuk Dijual

PERKESO mengklasifikasikan aset kewangan sedia untuk dijual sebagai aset kewangan bukan derivatif yang ditetapkan sebagai sedia untuk dijual atau tidak diklasifikasikan sebagai pinjaman dan belum terima yang dipegang hingga matang atau aset kewangan pada nilai saksama melalui lebihan atau kurangan.

Selepas pengukuran awal, pelaburan kewangan sedia untuk dijual kemudiannya diukur pada nilai saksama dengan keuntungan atau kerugian tersebut diiktiraf terus ke dalam aset bersih melalui penyata perubahan aset bersih sehingga aset kewangan itu dinyahiktirafkan di mana keuntungan atau kerugian terkumpul itu akan diiktiraf dalam lebihan atau kurangan.

Financial assets are classified as held for trading if they are acquired for the purpose of selling or repurchasing in the near term. Derivatives, including separated embedded derivatives are also classified as held for trading unless they are designated as effective hedging instruments. Financial assets at fair value through surplus or deficit are carried in the statement of financial position at fair value with changes in fair value recognised in surplus or deficit.

Loans And Receivables

Loans and receivables are non-derivative financial assets with fixed or determinable payments that are not quoted in an active market. After initial measurement, such financial assets are subsequently measured at amortised cost using the effective interest method, less impairment. Amortised cost is calculated by taking into account any discount or premium on acquisition and fees or costs that are an integral part of the effective interest rate. Losses arising from impairment are recognised in the surplus or deficit.

Available-For-Sale Financial Assets

SOCSO classifies available-for-sale financial assets as non-derivative financial assets that are designated as available for sale or are not classified as loans and receivables, held-to-maturity or financial assets at fair value through surplus or deficit.

After initial measurement, available-for-sale financial investments are subsequently measured at fair value with gains or losses recognised directly in net assets through the statement of changes in net assets until the financial asset is derecognised, at which time the cumulative gain or loss is recognised in surplus or deficit.

Penyahiktirafan

PERKESO menyahiktirafkan suatu aset kewangan atau, jika berkenaan, sebahagian daripada suatu aset kewangan atau sebahagian daripada suatu kumpulan aset kewangan yang sama apabila:

- Hak-hak untuk menerima aliran tunai daripada aset itu telah luput atau diketepikan.
- PERKESO telah memindahkan haknya untuk menerima aliran tunai daripada aset itu atau telah menganggap suatu obligasi untuk membayar aliran tunai yang diterima dengan sepenuhnya tanpa kelewatan yang material kepada pihak ketiga; dan sama ada: (a) PERKESO telah memindahkan sebahagian besar daripada semua risiko dan ganjaran daripada aset itu; atau (b) PERKESO tidak memindahkan mahu pun mengekalkan sebahagian besar daripada semua risiko dan ganjaran aset itu, tetapi telah memindahkan kawalan ke atas aset itu.

Penjelasan Bagi Aset Kewangan

PERKESO menilai pada setiap tarikh pelaporan sama ada terdapat bukti objektif bahawa suatu aset kewangan atau suatu kumpulan daripada aset kewangan telah terjejas. Suatu aset kewangan atau suatu kumpulan daripada aset kewangan dianggap terjejas jika, dan hanya jika, terdapat bukti objektif mengenai penjejasan disebabkan oleh satu atau lebih peristiwa yang telah berlaku selepas pengiktirafan awal aset tersebut (akibat suatu 'peristiwa kerugian') dan peristiwa kerugian berkenaan mempunyai suatu kesan ke atas aliran tunai masa hadapan yang dianggarkan bagi aset kewangan itu atau kumpulan daripada aset kewangan itu yang boleh dianggarkan dengan pasti. Bukti bagi penjejasan aset boleh termasuk petunjuk-petunjuk berikut:

- Penghutang atau suatu kumpulan penghutang mengalami kesukaran kewangan yang signifikan.
- Keingkaran atau kelalaian dalam pembayaran faedah atau prinsipal.

Derecognition

SOCOSO derecognises a financial asset or, where applicable, a part of a financial asset or part of a group of similar financial assets when:

- The rights to receive cash flows from the asset have expired or is waived.
- SOCOSO has transferred its rights to receive cash flows from the asset or has assumed an obligation to pay the received cash flows in full without material delay to a third party; and either: (a) SOCOSO has transferred substantially all the risks and rewards of the asset; or (b) SOCOSO has neither transferred nor retained substantially all the risks and rewards of the asset, but has transferred control of the asset.

Impairment Of Financial Assets

SOCOSO assesses at each reporting date whether there is objective evidence that a financial asset or a group of financial assets is impaired. A financial asset or a group of financial assets is deemed to be impaired if, and only if, there is objective evidence of impairment as a result of one or more events that has occurred after the initial recognition of the asset (an incurred 'loss event') and that loss event has an impact on the estimated future cash flows of the financial asset or the group of financial assets that can be reliably estimated. Evidence of impairment may include the following indicators:

- The debtors or a group of debtors are experiencing significant financial difficulty.
- Default or delinquency in interest or principal payments.

- Kebarangkalian bahawa penghutang mengalami mufliis atau penyusunan semula kewangan lain.
- Data yang boleh ditinjau menunjukkan suatu pengurangan yang boleh diukur dalam anggaran aliran tunai masa hadapan (contoh: perubahan dalam tunggakan atau keadaan ekonomi yang menyumbang kepada keingkaran).

Penjelasan Bagi Aset Bukan Kewangan

Kumpulan dan PERKESO menilai pada setiap tarikh pelaporan sama ada terdapat petunjuk bahawa suatu aset berkemungkinan terjejas. Jika wujud sebarang petunjuk, atau apabila penilaian penjejasan tahunan bagi suatu aset diperlukan, Kumpulan dan PERKESO menganggarkan amaun boleh pulih aset itu.

Amaun boleh pulih aset adalah yang mana lebih tinggi antara nilai saksama aset ditolak kos untuk dijual dan nilai gunanya. Bagi tujuan menilai penjejasan, aset dikelompokkan pada tahap terendah di mana terdapat aliran tunai (unit penjaan tunai (CGU)) yang dapat dikenal pasti secara berasingan.

Dalam menentukan nilai guna aset, anggaran aliran tunai masa hadapan yang dijangka dihasilkan oleh aset adalah didiskaunkan kepada nilai kininya menggunakan kadar diskaun sebelum cukai yang menggambarkan penilaian pasaran semasa bagi nilai masa bagi wang dan risiko khusus terhadap aset itu. Sekiranya nilai yang dibawa bagi suatu aset melebihi amaun boleh pulihnya, aset tersebut akan dicatat kurang ke amaun boleh pulihnya.

Kerugian penjejasan yang diiktiraf terhadap suatu CGU atau kumpulan CGU adalah pertamanya diperuntukkan untuk mengurangkan nilai yang dibawa bagi sebarang muhibah yang diperuntukkan kepada unit atau kumpulan unit tersebut dan kemudian, untuk mengurangkan nilai yang dibawa bagi aset lain dalam unit atau kumpulan unit tersebut secara pro-rata.

- The probability that debtors will enter bankruptcy or other financial reorganisation.
- Observable data indicates a measurable decrease in estimated future cash flows (e.g. changes in arrears or economic conditions that correlate with defaults).

Impairment Of Non-Financial Assets

The Group and the Company assesses at each reporting date whether there is an indication that an asset may be impaired. If any such indication exists, or when an annual impairment assessment for an asset is required, the Group and the Company makes an estimate of the asset's recoverable amount.

An asset's recoverable amount is the higher of an asset's fair value less costs to sell and its value in use. For the purpose of assessing impairment, assets are grouped at the lowest levels for which there are separately identifiable cash flows (cash-generating units ("CGU")).

In assessing value in use, the estimated future cash flows expected to be generated by the asset are discounted to their present value using a pre-tax discount rate that reflects current market assessments of the time value of money and the risks specific to the asset. Where the carrying amount of an asset exceeds its recoverable amount, the asset is written down to its recoverable amount.

Impairment losses recognised in respect of a CGU or groups of CGUs are allocated first to reduce the carrying amount of any goodwill allocated to those units or groups of units and then, to reduce the carrying amount of the other assets in the unit or groups of units on a pro-rata basis.

Kerugian penjejasan diiktiraf dalam lebihan atau kurangan kecuali bagi aset yang sebelumnya terbabit dengan penilaian semula di mana ia dibawa ke rizab setakat amaun penilaian semula sebelumnya.

Penilaian dibuat pada setiap tarikh pelaporan sama ada terdapat sebarang petunjuk bahawa kerugian penjejasan yang diiktiraf sebelum ini mungkin tidak lagi wujud atau mungkin telah berkurangan. Kerugian penjejasan yang diiktiraf sebelumnya dibalikkan hanya jika terdapat perubahan dalam andaian yang digunakan untuk menentukan amaun boleh pulih aset itu sejak kerugian penjejasan yang terakhir diiktiraf. Sekiranya berlaku, nilai yang dibawa bagi aset itu akan ditambah sehingga amaun boleh pulihnya. Peningkatan itu tidak boleh melebihi nilai yang dibawa yang telah ditentukan, setelah ditolak susut nilai, sekiranya kerugian penjejasan tidak diiktiraf sebelumnya. Pembalikan tersebut diiktiraf dalam lebihan atau kurangan kecuali aset tersebut diukur pada amaun yang dinilai semula, dalam kes tersebut pembalikan berkenaan diambil kira sebagai peningkatan kepada penilaian semula. Kerugian penjejasan atas muhibah tidak dibalikkan dalam tempoh berikutnya.

Aset Kewangan Dibawa Pada Kos Yang Dilunaskan

Bagi aset kewangan yang dibawa pada kos yang dilunaskan, PERKESO pada peringkat awalnya akan menilai sama ada bukti objektif penjejasan wujud secara individu bagi aset kewangan yang secara individunya signifikan atau secara kolektifnya bagi aset kewangan yang tidak signifikan secara individu. Jika PERKESO menentukan bahawa tiada bukti objektif penjejasan wujud bagi suatu aset kewangan yang dinilai secara individu, sama ada signifikan atau tidak, ia termasuk aset dalam suatu kumpulan aset kewangan dengan ciri-ciri risiko kredit yang sama dan secara kolektif menilainya bagi tujuan penjejasan. Aset yang dinilai secara individu untuk penjejasan dan di mana suatu kerugian penjejasan adalah, secara berterusan, diiktiraf adalah tidak termasuk dalam penilaian kolektif bagi penjejasan.

Impairment losses are recognised in surplus and deficit except for assets that are previously involved where the revaluation was taken to other comprehensive income up to the amount of any previous revaluation.

An assessment is made at each reporting date as to whether there is any indication that previously recognised impairment losses may no longer exist or may have decreased. A previously recognised impairment loss is reversed only if there has been a change in the estimates used to determine the asset's recoverable amount since the last impairment loss was recognised. If that is the case, the carrying amount of the asset is increased to its recoverable amount. That increase cannot exceed the carrying amount that would have been determined, net of depreciation, had no impairment loss been recognised previously. Such reversal is recognised in surplus and deficit unless the asset is measured at revalued amount, in which case the reversal is treated as a revaluation increase. Impairment loss on goodwill is not reversed in a subsequent period.

Financial Assets Carried At Amortised Cost

For financial assets carried at amortised cost, SOCSO first assesses whether objective evidence of impairment exists individually for financial assets that are individually significant, or collectively for financial assets that are not individually significant. If SOCSO determines that no objective evidence of impairment exists for an individually assessed financial asset, whether significant or not, it includes the asset in a group of financial assets with similar credit risk characteristics and collectively assesses them for impairment. Assets that are individually assessed for impairment and for which an impairment loss is, or continuous to be, recognised are not included in a collective assessment of impairment.

Jika terdapat bukti objektif bahawa kerugian penjejasan telah berlaku, amaun kerugian tersebut adalah diukur sebagai perbezaan di antara amaun yang dibawa oleh aset itu dan nilai kini anggaran aliran tunai masa hadapan (tidak termasuk kerugian kredit yang dijangka pada masa hadapan yang belum berlaku). Nilai kini bagi anggaran aliran tunai masa hadapan adalah didiskaunkan pada kadar faedah efektif asal aset kewangan itu. Jika suatu pinjaman mempunyai suatu kadar faedah yang berubah-ubah, kadar diskaun untuk mengukur sebarang kerugian penjejasan adalah kadar faedah efektif semasa.

Amaun dibawa bagi aset itu adalah dikurangkan melalui penggunaan suatu akaun peruntukan dan amaun kerugian itu diiktiraf dalam lebihan atau kurangan. Pinjaman bersama dengan peruntukan berkaitan adalah dihapus kira apabila tiada prospek realistik bagi pemulihan masa hadapan dan semua cagaran telah direalisasikan atau dipindahkan kepada PERKESO. Jika, pada tahun berikutnya, amaun bagi anggaran kerugian penjejasan meningkat atau menurun disebabkan oleh suatu peristiwa yang berlaku selepas penjejasan diiktiraf, kerugian penjejasan yang diiktiraf sebelum ini adalah ditambah atau dikurangkan dengan menyelaraskan akaun peruntukan tersebut. Jika hapus kira kemudiannya pulih pada masa hadapan, pemulihan itu dikreditkan kepada kos kewangan dalam lebihan atau kurangan.

Aset Kewangan Sedia Untuk Dijual

Bagi aset kewangan sedia untuk dijual, PERKESO menilai pada setiap tarikh pelaporan sama ada terdapat bukti objektif bahawa suatu pelaburan atau suatu kumpulan pelaburan adalah terjejas.

Bagi aset kewangan yang diklasifikasikan sebagai sedia untuk dijual, bukti objektif termasuk suatu penurunan yang signifikan atau berpanjangan dalam nilai saksama pelaburan yang berkurangan daripada kosnya. 'Signifikan' dinilai terhadap kos asal pelaburan itu dan 'berpanjangan' terhadap tempoh di mana nilai saksama adalah berkurangan daripada kos asalnya.

If there is objective evidence that an impairment loss has been incurred, the amount of the loss is measured as the difference between the assets carrying amount and the present value of estimated future cash flows (excluding future expected credit losses that have not yet been incurred). The present value of the estimated future cash flows is discounted at the financial asset's original effective interest rate. If a loan has a variable interest rate, the discount rate for measuring any impairment loss is the current effective interest rate.

The carrying amount of the asset is reduced through the use of an allowance account and the amount of the loss is recognised in surplus or deficit. Loans together with the associated allowance are written off when there is no realistic prospect of future recovery and all collateral has been realised or transferred to SOCSO. If, in a subsequent year, the amount of the estimated impairment loss increases or decreases because of an event occurring after the impairment was recognised, the previously recognised impairment loss is increased or reduced by adjusting the allowance account. If a future write-off is later recovered, the recovery is credited to finance costs in surplus or deficit.

Available-For-Sale Financial Assets

For available-for-sale financial assets, SOCSO assesses at each reporting date whether there is objective evidence that an investment or a group of investments is impaired.

In the case of equity investments classified as available-for-sale, objective evidence would include a significant or prolonged decline in the fair value of the investment below its cost. 'Significant' is evaluated against the original cost of the investment and 'prolonged' against the period in which the fair value was below its original cost.

Di mana terdapat bukti penjejasan, kerugian terkumpul - diukur sebagai perbezaan di antara kos pemerolehan dan nilai saksama semasa, ditolak sebarang kerugian penjejasan ke atas pelaburan berkenaan yang sebelum ini diiktiraf dalam lebihan atau kurangan - dikeluarkan daripada rizab dalam aset bersih dan diiktiraf dalam lebihan atau kurangan. Kerugian penjejasan yang diiktiraf dalam lebihan atau kurangan bagi pelaburan ekuiti yang diklasifikasikan sebagai sedia untuk dijual tidak dibalikkan melalui lebihan atau kurangan dalam tempoh berikutnya.

Dalam kes instrumen hutang yang diklasifikasikan sebagai sedia untuk dijual, penjejasan adalah dinilai berdasarkan kriteria yang sama seperti aset kewangan yang dibawa pada kos yang dilunaskan. Walau bagaimanapun, amaun yang direkodkan bagi penjejasan adalah kerugian terkumpul diukur sebagai perbezaan di antara kos dilunaskan dan nilai saksama semasa, ditolak sebarang kerugian penjejasan ke atas pelaburan berkenaan yang sebelumnya diiktiraf dalam lebihan atau kurangan. Jika dalam tempoh berikutnya, nilai saksama bagi instrumen hutang yang diklasifikasikan sebagai sedia untuk dijual meningkat dan peningkatan itu boleh secara objektifnya dikaitkan kepada suatu peristiwa yang berlaku selepas kerugian penjejasan diiktiraf dalam lebihan atau kurangan, kerugian penjejasan itu akan dibalikkan melalui lebihan atau kurangan.

Liabiliti Kewangan

Liabiliti kewangan diiktiraf dalam penyata kedudukan kewangan apabila PERKESO menjadi pihak kepada peruntukan kontrak instrumen.

Pada pengiktirafan awal, liabiliti kewangan diukur pada nilai saksama, termasuk kos urus niaga untuk liabiliti kewangan yang tidak diukur pada nilai saksama melalui lebihan atau kurangan, yang terlibat secara langsung di dalam mengiktiraf liabiliti kewangan.

Where there is evidence of impairment, the cumulative loss – measured as the difference between the acquisition cost and the current fair value, less any impairment loss on that investment previously recognised in the surplus or deficit – is removed from the reserve in net assets and recognised in surplus or deficit. Impairment losses recognised in surplus or deficit on equity investment classified as available-for-sale are not reversed through surplus or deficit in subsequent periods.

In the case of debt instruments classified as available-for-sale, impairment is assessed based on the same criteria as financial assets carried at amortised cost. However, the amount recorded for impairment is the cumulative loss measured as the difference between the amortised cost and the current fair value, less any impairment loss on that investment previously recognised in surplus or deficit. If in subsequent period, the fair value of a debt instrument classified as available-for-sale increase and the increase can be objectively relates to an event occurring after the impairment loss was recognised in surplus or deficit, the impairment loss is reversed through surplus and deficit.

Financial Liabilities

Financial liabilities are recognised in the statement of financial position when SOCSO becomes a party to the contractual provisions of the instrument.

At initial recognition, financial liabilities are measured at fair value, including transaction costs for financial liabilities not measured at fair value through surplus or deficit, directly attributable to the recognition of financial liabilities.

Selepas pengiktirafan awal, liabiliti kewangan diklasifikasikan kepada salah satu daripada dua kategori liabiliti kewangan iaitu liabiliti kewangan diukur pada nilai saksama melalui lebihan atau kurangan dan liabiliti kewangan pada kos terlunas.

Liabiliti kewangan dinyahiktiraf apabila obligasi yang dinyatakan dalam kontrak telah dilepaskan, dibatalkan atau tamat hayat. Sebarang perbezaan di antara nilai yang dibawa bagi liabiliti kewangan yang dinyahiktiraf dan pertimbangan yang dibayar adalah diiktiraf di dalam penyata prestasi kewangan dalam tempoh penyahiktirafan.

k) Mengofset Instrumen Kewangan

Aset dan liabiliti kewangan adalah diofset dan amaun bersih ditunjukkan dalam penyata kedudukan kewangan apabila terdapat hak yang boleh dikuatkuasakan menurut undang-undang untuk mengofset amaun yang diiktiraf dan terdapat suatu niat untuk menyelesaikannya pada suatu asas yang bersih, atau merealisasikan aset dan menyelesaikan liabiliti secara serentak. Hak yang boleh dikuatkuasakan menurut undang-undang hendaklah tidak berlaku secara kebetulan pada peristiwa masa hadapan dan hendaklah dikuatkuasakan dalam perjalanan biasa perniagaan dan dalam peristiwa keingkar, insolvensi atau kemufilsan.

l) Tunai Dan Kesetaraan Tunai

Tunai dan kesetaraan tunai terdiri daripada tunai di tangan dan tunai di bank, deposit atas panggilan dan pelaburan berkecairan tinggi dengan suatu tempoh matang asal tiga bulan atau kurang, yang sedia ditukar kepada amaun tunai yang diketahui dan tertakluk kepada risiko perubahan nilai yang tidak ketara. Bagi tujuan penyata aliran tunai yang disatukan, tunai dan kesetaraan tunai terdiri daripada tunai dan deposit jangka pendek seperti yang ditakrifkan di atas, setelah mengambil kira overdraf bank belum jelas.

After initial recognition, financial liabilities are classified into one of the two categories of financial liabilities, i.e. financial liabilities are measured at fair value through surplus or deficit and financial liabilities at amortised cost.

Financial liabilities are derecognised when the obligations specified in the contract have been discharged, cancelled or expired. Any difference between the carrying amount of the derecognised financial liability and the consideration paid is recognised in the statement of financial performance during the period of the derecognition.

k) Offsetting Financial Instruments

Financial assets and liabilities are offset and the net amount presented in the statement of financial position when there is a legally enforceable right to offset the recognised amounts and there is an intention to settle on a net basis, or realise the asset and settle the liability simultaneously. The legally enforceable right must not be contingent on future events and must be enforceable in the normal course of business and in the event of default, insolvency or bankruptcy.

l) Cash And Cash Equivalents

Cash and cash equivalents comprise cash on hand and cash at bank, deposits on call and highly liquid investments with an original maturity of three months or less, which are readily convertible to known amounts of cash and are subject to insignificant risk of changes in value. For the purpose of the statement of cash flows, cash and cash equivalents consist of cash and short-term deposits as defined above, net of outstanding bank overdrafts.

m) Peruntukan

Peruntukan adalah diiktiraf apabila PERKESO mempunyai obligasi semasa (undang-undang atau konstruktif) akibat daripada peristiwa lalu, ia berkemungkinan bahawa suatu aliran keluar sumber yang merangkumi manfaat ekonomi atau potensi perkhidmatan akan diperlukan untuk menyelesaikan obligasi itu dan suatu anggaran yang boleh dipercayai yang boleh dibuat daripada amaun obligasi itu.

Di mana PERKESO menjangkakan sebahagian atau semua peruntukan akan dibayar balik, sebagai contoh, di bawah kontrak insurans, pembayaran balik itu adalah diiktiraf sebagai suatu aset yang berasingan hanya apabila pembayaran semula tersebut adalah secara mutlaknya adalah pasti.

Perbelanjaan yang berkait dengan mana-mana peruntukan adalah ditunjukkan dalam penyata prestasi kewangan setelah mengambil kira apa-apa pembayaran balik yang dilakukan.

n) Aset Dan Liabiliti Luar Jangka

PERKESO tidak mengiktiraf aset dan liabiliti luar jangka selain daripada yang terbit daripada penggabungan perniagaan, tetapi mendedahkan kewujudannya dalam penyata kewangan. Liabiliti luar jangka adalah suatu obligasi yang boleh berlaku disebabkan peristiwa lalu yang mana kewujudannya akan disahkan oleh berlakunya atau tidak berlakunya satu atau lebih peristiwa masa hadapan di luar kawalan PERKESO atau suatu obligasi semasa yang tidak diiktiraf kerana tiada kemungkinan bahawa aliran keluar sumber akan diperlukan untuk menyelesaikan obligasi itu.

Liabiliti luar jangka juga terbit dalam kes yang jarang berlaku di mana terdapat suatu liabiliti yang tidak boleh diiktiraf kerana ia tidak boleh diukur dengan pasti. Walau bagaimanapun, liabiliti luar jangka tidak termasuk kontrak jaminan kewangan. Aset luar jangka adalah aset yang mungkin terbit daripada peristiwa lalu yang mana kewujudannya akan disahkan oleh berlakunya atau tidak berlakunya satu atau lebih peristiwa masa hadapan di luar kawalan PERKESO.

m) Provision

Provisions are recognised when SOCSO has a present obligation (legal or constructive) as a result of a past event, it is probable that an outflow of resources embodying economic benefits or service potential will be required to settle the obligation and a reliable estimate can be made of the amount of the obligation.

Where SOCSO expects some or all of a provision to be reimbursed, for example, under an insurance contract, the reimbursement is recognised as a separate asset only when the reimbursement is virtually certain.

The expense relating to any provision is presented in the statement of financial performance net of any reimbursement.

n) Contingent Assets And Liabilities

SOCSO does not recognise contingent assets and liabilities other than those arising from business combinations, but discloses its existence in the financial statements. A contingent liability is a possible obligation that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of SOCSO or a present obligation that is not recognised because it is not probable that an outflow of resources will be required to settle the obligation.

A contingent liability also arises in the extremely rare case where there is a liability that cannot be recognised because it cannot be measured reliably. However, contingent liabilities do not include financial guarantee contracts. A contingent asset is a possible asset that arises from past events whose existence will be confirmed by the occurrence or non-occurrence of one or more uncertain future events beyond the control of SOCSO.

PERKESO tidak mengiktiraf aset luar jangka tetapi mendedahkan kewujudannya di mana aliran masuk manfaat ekonomi adalah berkemungkinan di mana kepastiannya tidak dapat ditentukan.

o) Mata Wang Asing

Urus Niaga Dan Baki

Urus niaga mata wang asing diterjemahkan ke dalam mata wang fungsian dengan menggunakan kadar pertukaran yang berlaku pada tarikh urus niaga atau penilaian di mana item diukur semula. Keuntungan dan kerugian pertukaran asing yang terhasil daripada penyelesaian urus niaga tersebut dan daripada terjemahan pada kadar pertukaran akhir tahun bagi aset dan liabiliti monetari dalam mata wang asing diiktiraf dalam lebihan atau kurangan. Walau bagaimanapun, perbezaan pertukaran ditunda dalam rizab apabila ia timbul daripada aliran tunai yang layak atau lindung nilai pelaburan bersih atau disebabkan oleh perkara yang merupakan sebahagian daripada pelaburan bersih dalam operasi asing.

Butiran bukan monetari yang diukur pada nilai saksama dalam mata wang asing diterjemahkan menggunakan kadar pertukaran pada tarikh nilai saksama ditentukan. Perbezaan terjemahan aset dan liabiliti yang dibawa pada nilai saksama dilaporkan sebagai sebahagian daripada keuntungan atau kerugian nilai saksama. Perbezaan terjemahan bagi aset dan liabiliti kewangan bukan monetari seperti ekuiti yang dipegang pada nilai saksama melalui lebihan atau kurangan diiktiraf dalam lebihan atau kurangan sebagai sebahagian daripada keuntungan atau kerugian nilai saksama. Perbezaan terjemahan bagi aset kewangan bukan monetari, seperti ekuiti yang diklasifikasikan sebagai sedia untuk dijual, dimasukkan di dalam rizab.

o) Foreign Currencies

Transactions And Balances

Foreign currency transactions are translated into the functional currency using the exchange rates prevailing at the dates of the transactions or valuation where items are remeasured. Foreign exchange gains and losses resulting from the settlement of such transactions and from the translation at year-end exchange rates of monetary assets and liabilities denominated in foreign currencies are recognised in surplus or deficit. However, exchange differences are deferred in reserve when they arose from qualifying cash flow or net investment hedges or are attributable to items that form part of the net investment in a foreign operation.

Non-monetary items that are measured at fair value in a foreign currency are translated using the exchange rates at the date when the fair value was determined. Translation differences on assets and liabilities carried at fair value are reported as part of the fair value gain or loss. Translation differences on non-monetary financial assets and liabilities such as equities held at fair value through surplus or deficit are recognised in surplus or deficit as part of the fair value gain or loss. Translation differences on non-monetary financial assets, such as equities classified as available for sale, are included in reserve.

Perubahan dalam nilai saksama sekuriti monetari dalam mata wang asing yang diklasifikasikan sebagai sedia untuk dijual adalah dianalisa antara perbezaan terjemahan yang disebabkan oleh perubahan dalam kos yang dilunaskan bagi sekuriti berkenaan dan perubahan lain dalam amaun yang dibawa bagi sekuriti berkenaan. Perbezaan terjemahan yang berkaitan dengan perubahan dalam kos terlunas diiktiraf dalam lebihan atau kurangan, dan perubahan lain dalam amaun yang dibawa diiktiraf dalam rizab.

p) Faedah Dan Tuntutan

Belanja faedah dan tuntutan adalah diiktiraf apabila dibayar dengan akruan tempoh berakhir dilaksanakan bagi amaun terutang kepada benefisiari sedia ada yang mana telah diluluskan untuk pembayaran.

q) Manfaat Pekerja

(a) Manfaat Pekerja Jangka Pendek

Upah, gaji, cuti tahunan berbayar dan cuti sakit, bonus dan manfaat bukan kewangan yang dijangka akan diselesaikan sepenuhnya dalam tempoh 12 bulan selepas akhir tempoh di mana pekerja memberi perkhidmatan yang berkaitan adalah diiktiraf berkenaan dengan perkhidmatan pekerja sehingga akhir tempoh pelaporan dan diukur pada amaun yang dijangka akan dibayar apabila liabiliti berkenaan diselesaikan.

(b) Pelan Caruman Ditentukan

Pelan caruman ditentukan adalah pelan pencen di mana PERKESO membayar caruman tetap kepada Skim Pencen Negara, Kumpulan Wang Simpanan Pekerja (KWSP) dan PERKESO tidak mempunyai obligasi undang-undang atau konstruktif untuk membayar caruman selanjutnya jika dana itu tidak mempunyai aset yang mencukupi untuk membayar semua manfaat pekerja berkaitan dengan perkhidmatan pekerja dalam tempoh semasa dan sebelumnya.

Changes in the fair value of monetary securities denominated in foreign currency classified as available for sale are analysed between translation differences resulting from changes in the amortised cost of the security and other changes in the carrying amount of the security. Translation differences related to changes in amortised cost are recognised in surplus or deficit, and other changes in carrying amount are recognised in reserve.

p) Benefits And Claims

Benefits and claim expenses are recognised when paid with period-end accrual made for amount owing to the existing beneficiaries that have been approved for payment.

q) Employee Benefits

(a) Short Term Employee Benefits

Wages, salaries, paid annual leave and sick leave, bonuses, and non-monetary benefits that are expected to be settled wholly within 12 months after the end of the period in which the employees render the related service are recognised in respect of employees' services up to the end of the reporting period and are measured at the amounts expected to be paid when the liabilities are settled.

(b) Defined Contribution Plan

A defined contribution plan is a pension plan under which SOCSO pays fixed contributions to the National Pension Scheme, the Employees' Provident Fund (EPF) and SOCSO has no legal or constructive obligations to pay further contributions if the fund does not hold sufficient assets to pay all employees benefits relating to employee service in the current and prior periods.

Caruman PERKESO kepada pelan caruman ditentukan adalah dicaj kepada lebihan atau kurangan dalam tempoh yang berkaitan. Caruman prabayar adalah diiktiraf sebagai aset setakat mana bayaran balik tunai atau pengurangan dalam pembayaran masa hadapan itu wujud.

(c) Obligasi Lain Pasca Pekerjaan

Obligasi lain pasca pekerjaan PERKESO termasuk manfaat kesihatan selepas persaraan kepada pesara dan tanggungan yang berkelayakan dan pembayaran saguhati tamat perkhidmatan kepada anggota PERKESO.

Kelayakan untuk manfaat ini biasanya bersyarat ke atas pekerja yang masih dalam perkhidmatan sehingga umur persaraan dan memenuhi tempoh perkhidmatan minimum. Anggaran kos bagi manfaat ini diakrukan sepanjang tempoh pekerjaan menggunakan kaedah perakaunan yang sama seperti yang digunakan untuk pelan manfaat persaraan ditentukan. Keuntungan dan kerugian aktuari yang terbit daripada pelarasan pengalaman dan perubahan dalam andaian aktuari adalah diiktiraf dalam aset bersih/ekuiti dalam tempoh di mana ia terbit. Obligasi ini adalah dinilai secara tahunan oleh aktuari bebas yang bertauliah.

Manakala nilai manfaat anggota berkaitan dengan pembayaran saguhati tamat perkhidmatan adalah dikira berdasarkan kelayakan manfaat kepada anggota tetap sahaja sepertimana yang diluluskan dalam mesyuarat Lembaga PERKESO Bil. 6 Tahun 2016 dengan formula seperti berikut:

$7.5\% \times \text{Tempoh Bulan Perkhidmatan} \times \text{Gaji Akhir}$

(d) Manfaat Penamatan

Manfaat penamatan adalah dibayar apabila pekerjaan ditamatkan oleh PERKESO sebelum tarikh persaraan biasa, atau apabila seorang pekerja menerima pemberhentian sukarela sebagai pertukaran untuk manfaat ini.

SOCSO's contributions to defined contribution plans are charged to surplus or deficit in the period to which they relate. Prepaid contributions are recognised as an asset to the extent that a cash refund or a reduction in the future payments is available.

(c) Other Post-Employment Obligations

SOCSO's other post employment obligations include post-retirement healthcare benefits to their retirees and qualified dependents and SOCSO Staff end of service ex-gratia payments.

The entitlement to these benefits is usually conditional on the employee remaining in service up to retirement age and the completion of a minimum service period. The expected costs of these benefits are accrued over the period of employment using the same accounting methodology as used for defined benefit pension plans. Actuarial gains and losses arising from experience adjustments and changes in actuarial assumptions are recognised in net assets/equity in the period in which they arise. These obligations are valued annually by independent qualified actuaries.

Whereas the value of the staff benefit in relation to the end of service ex-gratia payment is calculated based on the eligibility of the benefit to the permanent staff only as approved in the Board of SOCSO Meeting No. 6 Year 2016 with the formula as follows:

$7.5\% \times \text{Duration of Months of Service} \times \text{Last Salary}$

(d) Termination Benefits

Termination benefits are payable when employment is terminated by SOCSO before the normal retirement date, or whenever an employee accepts voluntary redundancy in exchange for these benefits.

PERKESO mengiktiraf manfaat penamatan pada tarikh yang mana lebih awal antara berikut: (a) apabila PERKESO tidak boleh lagi menarik balik tawaran manfaat itu; dan (b) apabila PERKESO mengiktiraf kos penyusunan semula yang termasuk dalam skop MPSAS 25 dan melibatkan pembayaran manfaat penamatan. Dalam kes suatu tawaran yang dibuat untuk menggalakkan pemberhentian sukarela, manfaat penamatan itu diukur berdasarkan bilangan anggota yang dijangka menerima tawaran itu. Manfaat yang kena dibayar lebih daripada 12 bulan selepas akhir tempoh pelaporan adalah didiskaunkan kepada nilai kininya.

r) Peruntukan Bagi Manfaat Sosial

Manfaat sosial merupakan pindahan tunai yang disediakan untuk individu dan/atau isi rumah tertentu yang memenuhi kriteria kelayakan untuk mengurangkan kesan daripada risiko sosial dan bagi memenuhi keperluan masyarakat secara keseluruhannya. Risiko sosial dalam konteks ini adalah peristiwa atau keadaan yang berkait dengan ciri-ciri individu dan/atau isi rumah (contohnya status umur, kesihatan, kemiskinan dan pekerjaan yang boleh mendatangkan kesan yang tidak baik terhadap kebajikan individu dan/atau isi rumah).

Liabiliti bagi suatu skim manfaat sosial diiktiraf apabila terdapat obligasi masa kini terhadap aliran keluar sumber akibat peristiwa lampau. Liabiliti diukur pada anggaran terbaik bagi kos yang akan ditanggung untuk memenuhi obligasi kini. Belanja untuk skim manfaat sosial diiktiraf pada masa yang sama dengan pengiktirafan liabiliti.

Peruntukan diiktiraf untuk semua benefisiari yang telah memenuhi kriteria kelayakan untuk pembayaran berikutnya. Perbezaan antara liabiliti yang diiktiraf dan bayaran faedah tunai sebenar adalah diiktiraf dalam lebihan atau defisit dalam tempoh liabiliti diselesaikan.

SOCOSO recognises termination benefits at the earlier of the following dates: (a) when SOCOSO can no longer withdraw the offer of those benefits; and (b) when SOCOSO recognises costs for a restructuring that is within the scope of MPSAS 25 and involves the payment of termination benefits. In the case of an offer made to encourage voluntary redundancy, the termination benefits are measured based on the number of employees expected to accept the offer. Benefits falling due more than 12 months after the end of the reporting period are discounted to their present value.

r) Provision For Social Benefits

Social benefits are cash transfers provided to specific individuals and/or households who meet eligibility criteria to mitigate the effect of social risks and to address the needs of society as a whole. Social risks in this context are events or circumstances that relate to the characteristics of individuals and/or households (for example, age, health, poverty and employment status which may adversely affect the welfare of individuals and/or households).

Liability is recognised for a social benefit scheme when there is present obligation for an outflow of resources that results from a past event. Liability is measured at the best estimate of the costs to be incurred in fulfilling the present obligation. Expense for social benefit scheme is recognised at the same point of liability recognition.

The provision is recognised for all beneficiary who have met the eligibility criteria for the next payment. Difference between the liability recognised and the actual cash benefit payments is recognised in surplus or deficit in the period which liability is settled.

Apabila liabiliti belum diselesaikan, liabiliti berkenaan akan disemak pada setiap tarikh pelaporan, dan diselaraskan untuk menggambarkan anggaran terbaik semasa bagi bayaran manfaat sosial yang akan dikenakan untuk memenuhi oligasi masa kini.

4. Pertimbangan, Anggaran Dan Andaian Perakaunan Yang Penting

Penyediaan penyata kewangan PERKESO berpanduan MPSAS memerlukan pihak pengurusan membuat pertimbangan, anggaran dan andaian yang memberi kesan terhadap amaun yang dilaporkan pada hasil, belanja, aset dan liabiliti, dan pendedahan yang berkaitan, dan pendedahan liabiliti luar jangka. Ketidakpastian mengenai andaian dan anggaran ini boleh menghasilkan keputusan yang memerlukan suatu pelarasan material kepada amaun yang dibawa oleh aset atau liabiliti yang terlibat dalam tempoh-tempoh di masa hadapan.

(a) Penjejasan Aset Kewangan Sedia Untuk Dijual

Dalam melaksanakan semakan semula penjejasan, pertimbangan berikut adalah diperlukan. Penentuan sama ada pelaburan terjejas adalah berdasarkan petunjuk tertentu termasuk, antara lain, penurunan yang berpanjangan atau signifikan dalam nilai saksama di bawah kos, masalah kewangan yang signifikan oleh penerbit atau penanggung obligasi, kehilangan pasaran perdagangan yang aktif dan penjejasan penarafan kredit penerbit atau penanggung obligasi.

Penentuan mengenai apa yang dianggap 'signifikan' atau 'berpanjangan' memerlukan pertimbangan. Dalam membuat pertimbangan ini, PERKESO menilai faktor-faktor seperti pergerakan nilai saksama sejarah dan tempoh serta sejauh mana nilai saksama suatu pelaburan lebih rendah daripada kosnya.

4. Significant Accounting Judgements, Estimates And Assumptions

The preparation of SOCOSO's financial statements in accordance with MPSASs requires the management to make judgements, estimates and assumptions that affect the reported amounts on revenues, expenses, assets and liabilities, and the accompanying disclosures, and the disclosure of contingent liabilities. Uncertainty about these assumptions and estimates could result in outcomes that require a material adjustment to the carrying amount of the asset or liability affected in future periods.

(a) Impairment Of Financial Assets Available-For-Sale

In carrying out the impairment review, the following judgements are required. Determination of whether the investments are impaired is based on certain indicators including, amongst others, prolonged or significant decline in fair value below cost, significant financial difficulties of the issuers or obligors, the disappearance of an active trading market and deterioration of the credit rating of the issuers or obligors.

The determination of what is deemed 'significant' or 'prolonged' requires judgement. In making this judgement, SOCOSO evaluates factors such as historical fair value movements and the period and extent in which the fair value of an investment is below its cost.

Penjejasan Nilai Sekuriti Hutang

Bagi sekuriti hutang, penjejasan dikenal pasti berdasarkan analisis aliran tunai yang diunjurkan. Amaun kerugian yang dianggarkan adalah perbezaan di antara amaun yang dibawa oleh aset dan nilai kini anggaran aliran tunai masa hadapan yang didiskaunkan pada kadar faedah efektif asal.

Penjejasan Nilai Sekuriti Ekuiti

Bagi sekuriti ekuiti, penjejasan dikenal pasti berdasarkan kewujudan penurunan 'signifikan' atau 'berpanjangan' dalam nilai saksama bagi suatu pelaburan di bawah kosnya. PERKESO mengandaikan penurunan dalam nilai saksama di bawah kos sebanyak lebih daripada 20% untuk menjadi 'signifikan' dan tempoh lebih daripada 12 bulan adalah dianggap 'berpanjangan'.

(b) Penjejasan Pinjaman Dan Penghutang

PERKESO mempertimbangkan faktor-faktor termasuk kualiti kredit dan rekod masa lalu dalam menentukan sama ada suatu kerugian penjejasan patut diiktiraf.

PERKESO membuat andaian mengenai masa depan dan faktor-faktor utama yang lain berkenaan dengan anggaran jumlah dan masa aliran tunai dalam menilai penjejasan nilai bagi pinjaman dan penghutang. Antara faktor yang dipertimbangkan adalah pendedahan agregat PERKESO kepada peminjam, nilai boleh realis bersih cagaran yang disandarkan, daya maju model perniagaan peminjam, keupayaan untuk menjana aliran tunai yang mencukupi untuk membiayai obligasi hutang. Anggaran ini adalah berdasarkan andaian dan keputusan sebenar mungkin berbeza daripada ini, justeru, akan menyumbang kepada perubahan dalam kerugian penjejasan yang diiktiraf.

(c) Obligasi Bagi Manfaat Perubatan Pasca Persaraan

Manfaat perubatan pasca persaraan kepada pesara dan tanggungan yang berkecualan bergantung kepada beberapa faktor yang ditentukan pada asas aktuari dengan menggunakan beberapa andaian.

Impairment Of Debt Securities

For debt securities, impairment is identified based on analysis of projected cash flows. The amount of loss is estimated as the difference between the asset's carrying amount and the present value of estimated future cash flows discounted at the original effective interest rate.

Impairment Of Equity Securities

For equity securities, impairment is identified based on establishment of 'significant' or 'prolonged' decline in the fair value of an investment below its cost. SOCSO assumed decline in fair value below the cost by more than 20% to be 'significant' and a period of more than 12 months is deemed 'prolonged'.

(b) Impairment Of Loans And Receivables

SOCSO considers factors including credit quality and past due records in determining whether an impairment loss should be recognised.

SOCSO makes assumptions on the future and other key factors in respect of the estimation of the amount and timing of the cash flows in assessing the impairment for loans and receivables. Among the factors considered are SOCSO's aggregate exposure to the borrowers, the net realisable value of the collateral pledged, the viability of the borrower's business model, the capacity to generate sufficient cash flows to service debt obligations. These estimations are based on assumptions and the actual results may differ from these, hence resulting in changes to impairment losses recognised.

(c) Post-Retirement Medical Benefits Obligations

The post-retirement medical benefits to retirees and qualified dependents depend on a number of factors that are determined on actuarial basis using a number of assumptions.

Andaian adalah digunakan untuk menentukan kos bersih perubatan pasca persaraan termasuk kadar diskaun dan kadar kos perubatan yang dijangkakan. Sebarang perubahan dalam andaian ini akan memberi kesan kepada amaun yang dibawa bagi obligasi pasca persaraan manfaat perubatan.

PERKESO menentukan kadar diskaun yang sesuai pada setiap tempoh tiga (3) tahun apabila penilaian aktuari dilaksanakan. Kadar diskaun ini telah digunakan untuk menentukan nilai kini anggaran aliran keluar tunai masa hadapan yang diperlukan untuk menyelesaikan obligasi manfaat perubatan pasca persaraan.

Dalam menentukan kadar diskaun yang bersesuaian, PERKESO mengambil kira kadar faedah bon korporat berkualiti tinggi yang didenominasikan dalam mata wang di mana manfaat tersebut akan dibayar dan mempunyai tempoh matang yang hampir bersamaan dengan tempoh liabiliti yang berkaitan.

Kadar kos perubatan adalah berdasarkan purata kos sejarah yang ditanggung oleh PERKESO.

Andaian utama yang digunakan dan analisa sensitiviti bagi andaian utama adalah berdasarkan kepada perubahan dalam satu andaian spesifik sementara semua andaian lain adalah tidak berubah seperti yang didedahkan dalam Nota 18 kepada penyata kewangan.

(d) Obligasi Bagi Manfaat Ganjaran Pasca Persaraan

Manfaat ganjaran pasca persaraan kepada pesara bergantung kepada beberapa faktor yang ditentukan pada asas aktuari dengan menggunakan beberapa andaian. Andaian yang digunakan dalam menentukan kos bersih ganjaran pasca persaraan termasuk kadar diskaun, jangkaan kenaikan gaji tahunan dan kadar semakan gaji. Sebarang perubahan dalam andaian ini akan memberi kesan kepada amaun yang dibawa bagi obligasi manfaat ganjaran pasca persaraan.

The assumptions used in determining the net cost of post-retirement medical include the discount rate and the expected medical cost rate. Any changes in these assumptions will impact the carrying amount of post-retirement medical benefits obligations.

SOCSO determines appropriate discount rate at every three (3) years when the actuarial valuation is performed. This discount rate was used to determine the present value of the estimated expected future cash outflows required to settle the post-retirement medical benefits obligations.

In determining the appropriate discount rate, SOCSO considers the interest rate of high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and have term to maturity approximating the terms of the related liability.

The medical cost rate is based on the average historical cost incurred by SOCSO.

The key assumption used and the sensitivity analysis of the key assumptions based on the change in one specific assumption while holding all other assumptions constant are as disclosed in Note 18 to the financial statement.

(d) Post-Retirement Gratuity Benefits Obligations

The post-retirement gratuity benefits to retirees depend on a number of factors that are determined on actuarial basis using a number of assumptions. The assumptions used in determining the net cost of post-retirement gratuity include the discount rate, expected annual salary increment and salary revision rate. Any changes in these assumptions will impact the carrying amount of post-retirement gratuity benefit obligations.

PERKESO menentukan kadar diskaun yang bersesuaian pada setiap tempoh tiga (3) tahun apabila penilaian aktuari dilaksanakan. Kadar diskaun ini telah digunakan untuk menentukan nilai kini bagi jangkaan aliran keluar tunai masa hadapan yang diperlukan untuk menyelesaikan obligasi manfaat ganjaran pasca persaraan.

Bagi menentukan kadar diskaun yang bersesuaian, PERKESO mengambil kira kadar faedah bon korporat yang berkualiti tinggi yang didenominasikan dalam mata wang di mana manfaat tersebut akan dibayar dan mempunyai tempoh matang yang hampir bersamaan dengan tempoh liabiliti yang berkaitan.

Kadar kenaikan gaji tahunan adalah berdasarkan kepada purata kenaikan gaji tahun sebelumnya yang ditanggung oleh PERKESO.

Andaian utama yang digunakan dan analisa sensitiviti bagi andaian utama adalah berdasarkan perubahan dalam satu andaian spesifik sementara semua andaian lain adalah tidak berubah seperti yang didedahkan dalam Nota 18 kepada penyata kewangan.

(e) Peruntukan

PERKESO menggunakan anggaran terbaik sebagai asas untuk mengukur sesuatu peruntukan. Anggaran dibuat berdasarkan kepada pengalaman lalu, lain-lain petunjuk atau andaian, perkembangan terkini dan peristiwa masa hadapan yang munasabah dalam menentukan sesuatu peruntukan.

SOCSCO determines appropriate discount rate at every three (3) years when the actuarial valuation is performed. This discount rate was used to determine the present value of the estimated expected future cash outflows required to settle the post-retirement gratuity benefits obligations.

In determining the appropriate discount rate, SOCSCO considers the interest rate of high quality corporate bonds that are denominated in the currency in which the benefits will be paid, and that have term to maturity approximating the terms of the related liability.

Annual salary increment rate is based on the average previous year salary increment incurred by SOCSCO.

The key assumption used and the sensitivity analysis of the key assumptions based on the change in one specific assumption while holding all other assumptions constant are as disclosed in Note 18 to the financial statement.

(e) Provision

PERKESO used the best estimate as the basis for measuring the provision. The estimate is based on past experience, other indications or assumptions, recent developments and reasonable future events in determining such provision.

(f) Susut Nilai Hartanah Dan Peralatan

Kos hartanah dan peralatan disusut nilai mengikut kaedah garis lurus. Anggaran akan digunakan dalam pemilihan kaedah susut nilai, hayat berguna dan nilai sisa. Penggunaan sebenar manfaat ekonomi sesuatu hartanah dan peralatan mungkin berbeza daripada anggaran yang digunakan dan ini boleh memberi kesan kepada keuntungan atau kerugian apabila aset-aset dijual atau dilupuskan.

(f) Depreciation Of Property And Equipment

Property and equipment cost is depreciated on a straight-line basis. Estimates will be used in the selection of depreciation methods, useful life and residual values. The actual use of the economic benefits of a property and equipment may differ from the estimates used and this may affect the surplus and deficit when the assets are sold or disposed.

(a) The carrying amount of the current loan receivables is considered to be the same as their fair value due to their short-term nature. For the majority of the non-current loan receivables, the fair values are also not significantly different from their carrying amount. An exception is the car loan, housing loan and education loan funds given at an interest rate that is different than market rate. The car loan, housing loan and education loan fund balances are recognised at fair value computed based on future cash flows discounted using the effective interest rate as follows:

Fair value of investment properties are categorised as follows:

	2021 Tahap 3 / Level 3 (RM'000)	2020 Tahap 3 / Level 3 (RM'000)
KUMPULAN dan PERKESO / GROUP and SOCSO		
Tanah Pajak Dan Bangunan / Leasehold Land And Buildings	900,000	900,000

Jadual berikut menunjukkan teknik penilaian yang digunakan dalam penentuan nilai saksama di Tahap 3, serta input-input yang tidak boleh ditinjau yang signifikan yang digunakan dalam model penilaian.

The following table shows the valuation techniques used in the determination of fair values within Level 3, as well as the significant unobservable inputs used in the valuation models.

Penerangan tentang teknik penilaian dan input-input yang digunakan / Description of valuation technique and inputs used	Input-input yang tidak boleh ditinjau yang signifikan / Significant unobservable inputs	Perhubungan antara input-input yang tidak boleh ditinjau yang signifikan dan pengukuran nilai saksama / Inter-relationship between significant unobservable inputs and fair value measurement
Aliran tunai didiskaunkan: Kaedah penilaian mempertimbangkan nilai kini bagi aliran tunai bersih yang akan dihasilkan daripada hartanah berkenaan, mengambil kira jangkaan kadar pertumbuhan sewa, tempoh batal, kadar penghunian, kos insentif pajakan seperti tempoh tanpa sewa dan kos lain yang tidak dibayar oleh penyewa. Jangkaan aliran tunai bersih akan didiskaunkan menggunakan kadar diskaun risiko terlaras. Antara faktor lain, anggaran kadar diskaun mempertimbangkan kualiti bangunan dan lokasinya (utama berbanding sekunder), kualiti kredit penyewa dan syarat pajakan. Discounted cash flows: The valuation method considers the present value of net cash flows to be generated from the property, taking into account expected rental growth rate, void periods, occupancy rate, lease incentive costs such as rent-free periods and other costs not paid by tenants. The expected net cash flows are discounted using risk-adjusted discount rates. Among other factors, the discount rate estimation considers the quality of a building and its location (prime vs. secondary), tenant credit quality and lease terms.	- Kadar permodalan risiko terlaras 5.0% (2020:5.25%) - Kadar penghunian 93.2% (2020:93.2%) - Risk-adjusted capitalisation rate 5.0 % (2020: 5.25 %) - Occupancy rate 93.2% (2020: 93.2%)	Anggaran nilai saksama akan meningkat (menurun) sekiranya: - Kadar permodalan risiko terlaras adalah lebih rendah (tinggi) - Kadar penghunian adalah lebih tinggi (rendah) The estimated fair value would increase (decrease) if: - risk-adjusted capitalisation rates were lower (higher) - occupancy rate was higher (lower)

Penerangan tentang teknik penilaian dan input-input yang digunakan / Description of valuation technique and inputs used	Input-input yang tidak boleh ditinjau yang signifikan / Significant unobservable inputs	Perhubungan antara input-input yang tidak boleh ditinjau yang signifikan dan pengukuran nilai saksama / Inter-relationship between significant unobservable inputs and fair value measurement
Pendekatan perbandingan jualan: Harga jualan bagi tanah dan bangunan yang setanding dan berdekatan diselaraskan untuk perbezaan dalam ciri utama seperti saiz hartanah. Input paling signifikan dalam pendekatan penilaian ini adalah harga setiap kaki persegi. Sales comparison approach: Sales price of comparable land and buildings in close proximity are adjusted for differences in key attributes such as property size. The most significant input into this valuation approach is price per square foot.	Harga setiap kaki persegi (2021: RM3,973.00, 2020: RM3,973.00) Price per square foot (2021: RM3,973.00, 2020: RM3,973.00)	Anggaran nilai saksama akan meningkat (menurun) sekiranya harga setiap kaki persegi adalah lebih tinggi (rendah) The estimated fair value would increase (decrease) if the price per square foot is higher (lower)

Nilai saksama hartanah pelaburan di atas telah dianggarkan berdasarkan penilaian oleh penilai-penilai bebas yang berdaftar, yang mana berdasarkan kepada bukti pasaran bagi harga urus niaga hartanah yang serupa untuk hartanah tertentu di mana nilai-nilai tersebut akan diselaraskan bagi perbezaan terhadap ciri-ciri utama seperti saiz hartanah dan kualiti kelengkapan dalaman menurut kaedah perbandingan (pendekatan pasaran).

The fair values of the above investment properties were estimated based on valuations by independent registered valuers, which were based on market evidence of transaction prices for similar properties for certain properties in which the values are adjusted for differences in key attributes such as property size and quality of interior fittings under the comparison method (market approach).

32. Kontingensi

(a) Aset Luar Jangka

PERKESO melalui pihak yang mewakili para pemegang bon korporat telah memfailkan Penyata Tuntutan sebagai plaintif terhadap 6 defendan di Mahkamah Tinggi Kuala Lumpur pada 5 November 2012. Tindakan ini diambil berikutan berlakunya Peristiwa Keingkaran terhadap bon korporat yang dinyatakan. Pada 24 Julai 2017, para pemegang bon telah diberikan ganti rugi oleh Mahkamah Tinggi Kuala Lumpur. Namun begitu, defendan telah memfailkan rayuan terhadap keputusan tersebut. Jumlah ganti rugi telah didepositkan ke dalam akaun amanah pada 6 Disember 2017, yang diuruskan oleh peguam yang mewakili para pemegang bon dan beberapa defendan dalam kes tersebut, dan disimpan dalam akaun amanah sementara menunggu keputusan rayuan. Pada 18 September 2019, Mahkamah Rayuan telah menolak rayuan yang difailkan oleh defendan. Seterusnya pada bulan Oktober 2019, defendan telah menfailkan permohonan untuk kebenaran merayu keputusan tersebut di Mahkamah Persekutuan. Pada 16 Februari 2022, Mahkamah Persekutuan telah memutuskan bahawa pemohon (defendan) gagal memenuhi syarat kebenaran untuk merayu.

32. Contingencies

(a) Contingent Assets

SOCSO through parties representing the holders of a corporate bond has filed a Statement of Claim as plaintiffs against 6 defendants in the Kuala Lumpur High Court on 5 November 2012. This action was taken following the occurrence of the Event of Default upon the said corporate bond. On 24 July 2017, the bondholders were awarded compensation by Kuala Lumpur High Court. Nevertheless, the defendants have filed appeal against the decision. The damage sum was deposited into a trust account on 6 December 2017, managed by lawyers representing the bondholders and the various defendants in the case, and kept in the trust account pending the final outcome of the appeal. On 18 September 2019, the Court of Appeal dismissed all the appeals filed by the defendants. Subsequently in October 2019, all the defendants have filed application for leave to appeal to the Federal Court. On 16 February 2022, the Federal Court held that the applicants (defendants) have failed to meet the threshold for leave to appeal.

Oleh itu, keputusan Mahkamah Rayuan yang mengesahkan keputusan Mahkamah Tinggi adalah kekal. Peguamcara bagi para pemegang bon sedang memfailkan permohonan kepada Mahkamah Tinggi Kuala Lumpur bagi pengeluaran jumlah penghakiman yang didepositkan di dalam akaun amanah untuk dibayar kepada para pemegang bon.

Hence, the decision of the Court of Appeal affirming the decision of the High Court stands. The solicitor for the bondholders is filing to the Kuala Lumpur High Court for withdrawal of the judgment sum deposited in the trust account, to be paid to bondholders.

(b) Liabiliti Luar Jangka

Prosiding masih berjalan di Mahkamah Tinggi dan Mahkamah Rayuan bagi kes rayuan yang dikemukakan oleh Orang Berinsurans dan PERKESO yang tidak berpuas hati dengan keputusan Jemaah Rayuan Keselamatan Sosial membabitkan pembayaran faedah berjumlah RM527,055 (2020: RM828,122). Tiada peruntukan disediakan untuk liabiliti luar jangka ini.

(b) Contingent Liabilities

Proceedings are still ongoing at the High Court and Court of Appeal in appeal cases lodged by Insured Persons and SOCSO over discontentment with Social Security Appellate Board's decisions involving benefit payments amounting to RM527,055 (2020: RM828,122). No provision has been provided for these contingent liabilities.

Interest Rate Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in interest rates on that portion of borrowings. With all other variables held constant, the table below summarises the Group's and SOCSO's exposure to interest rate risk on fixed rate borrowings. The Group and SOCSO do not account for any fixed rate financial assets at fair value through surplus or deficit. Therefore, a change in interest rates at the end of the reporting period would not affect surplus or deficit.

The assumed movement in basis points for interest rate sensitivity analysis is based on the currently observable market environment.

The Group's and SOCSO's investments in fixed rate debt securities and its fixed rate borrowings are exposed to a risk of change in their fair value due to changes in interest rates. Investments in equity securities and short-term receivables and payables are not significantly exposed to interest rate risk.

Pendedahan Kepada Risiko Mata Wang Asing

Pendedahan Kumpulan dan PERKESO terhadap risiko mata wang asing (mata wang selain daripada mata wang fungsian entiti Kumpulan dan PERKESO), berdasarkan nilai dibawa pada akhir tempoh pelaporan adalah seperti berikut:

(ii) Equity Price Risk

The Group's and SOCSO's quoted equity securities are susceptible to market price risk arising from uncertainties about future values of the investment securities. SOCSO manages the equity price risk through diversification and placing limits on individual and total equity instruments. Reports on the equity portfolio are submitted to SOCSO's senior management on a regular basis. The Board of SOCSO reviews and approves all equity investment decisions.

Equity Price Sensitivity

The following table demonstrates the sensitivity to a reasonably possible change in the equity price, with all other variables held constant, of Group's and SOCSO's equity (due to changes in the fair value of available-for-sale equity investments).

(iii) Currency Risk

The Group and SOCSO are exposed to foreign currency risk on investment quoted securities outside Malaysia that are denominated in a currency other than the respective functional currency of Group and SOCSO. The currency giving rise to this risk are primarily U.S. Dollar ("USD").

Exposure To Currency Risk

The Group's and SOCSO's exposure to foreign currency (a currency which is other than the functional currency of the Group and SOCSO entities) risk, based on carrying amounts as at the end of the reporting period are as follows:

Analisis Sensitiviti Risiko Mata Wang

Risiko mata wang asing timbul daripada Kumpulan dan PERKESO yang mempunyai mata wang fungsian USD. Pendedahan kepada risiko mata wang bagi Kumpulan dan PERKESO yang tidak mempunyai mata wang fungsian USD adalah tidak signifikan dan dengan itu, analisis sensitiviti tidak ditunjukkan.

Pengukuhan USD sebanyak 10% (2020: 10%) berbanding mata wang berikut pada akhir tempoh pelaporan akan meningkatkan ekuiti dan lebihan atau kurangan dengan amaun yang ditunjukkan di bawah. Analisis ini berdasarkan variasi kadar pertukaran mata wang asing yang dianggap wajar oleh Kumpulan dan PERKESO pada akhir tempoh pelaporan. Analisis ini mengandaikan bahawa semua pemboleh ubah lain, khususnya kadar faedah, kekal tidak berubah.

Currency Risk Sensitivity Analysis

Foreign currency risk arises from Group and SOCSO which have a USD functional currency. The exposure to currency risk of Group and SOCSO which do not have a USD functional currency is not material and hence, sensitivity analysis is not presented.

A 10% (2020: 10%) strengthening of the USD against the following currencies at the end of the reporting period would have increased equity and surplus or deficit by the amounts shown below. This analysis is based on foreign currency exchange rate variances that the Group and SOCSO considered to be reasonably possible at the end of the reporting period. The analysis assumes that all other variables, in particular interest rates, remained constant.

(b) Risiko Kredit

Risiko kredit adalah risiko yang berlaku akibat daripada ketidakmampuan pihak-pihak yang terlibat dalam urusan niaga perniagaan untuk memenuhi tanggungjawab bagi membayar faedah atau pulangan pelaburan seperti yang dipersetujui apabila kontrak terbabit berkuat kuasa. Pendedahan PERKESO terhadap risiko kredit adalah melalui aktiviti pemberian pinjaman, urusan niaga perniagaan umum, penempatan tunai, pelaburan dengan institusi kewangan berlesen dan pelaburan dalam bon korporat. PERKESO menguruskan risiko kreditnya dengan memantau secara berterusan kedudukan kewangan dan kelayakan kredit pihak-pihak yang berkaitan untuk menjaga kepentingannya dalam urusan niaga yang terlibat.

Analisa Pendedahan Maksimum Kepada Risiko Kredit Dan Jaminan Dan Penambahan Kredit Lain

Therefore, operational risk management approach is planned and consistently adopted by SOCSO to align its strategies, policies, processes, technologies and enhancing knowledge among its staff to create value add and continuous improvement of work processes in addition to practicing good corporate governance to ensure the implementation of comprehensive internal control.

34. Nilai Saksama / Fair Value

(a) Penentuan Nilai Saksama Dan Hierarki Nilai Saksama

PERKESO menggunakan hierarki berikut untuk menentukan dan mendedahkan nilai saksama instrumen kewangan menerusi teknik penilaian:

Tahap 1: Tersiar (tidak diselaras) harga dalam pasaran aktif untuk aset atau liabiliti yang sama.

Tahap 2: Input selain daripada tersiar harga yang termasuk dalam Tahap 1 yang mana boleh ditinjau untuk aset atau liabiliti, sama ada secara langsung atau tidak langsung.

Tahap 3: Input untuk aset atau liabiliti yang tidak berdasarkan data pasaran yang boleh ditinjau (input yang tidak boleh ditinjau).

(i) Instrumen Kewangan Di Tahap 1

Nilai saksama bagi instrumen kewangan yang diurus niagakan di pasaran aktif adalah berdasarkan harga pasaran tersiar pada tarikh lembaran imbalan. Suatu pasaran dianggap sebagai aktif jika harga tersiar adalah tersedia dan biasanya boleh didapati daripada suatu pertukaran dan harga tersebut mewakili urus niaga pasaran yang sebenar dan berlaku secara kebiasaan mengikut asas urus niaga yang tulus. Ini termasuk ekuiti tersenarai dan sekuriti hutang korporat yang diurus niagakan secara aktif.

(ii) Instrumen Kewangan Di Tahap 2

Apabila nilai saksama ditentukan menggunakan harga tersiar dalam pasaran kurang aktif atau harga tersiar bagi aset dan liabiliti yang bersamaan, instrumen tersebut secara umumnya diklasifikasikan sebagai Tahap 2. Dalam keadaan di mana harga tersiar secara umumnya tidak boleh didapati, PERKESO kemudiannya menentukan nilai saksama berdasarkan teknik-teknik penilaian yang menggunakan input parameter pasaran yang mana termasuk tetapi tidak terhad kepada keluk hasil, turun naik dan kadar pertukaran asing. Majoriti teknik-teknik penilaian hanya menggunakan data pasaran yang boleh ditinjau, dengan itu kebolehppercayaan terhadap pengukuran nilai saksama itu adalah tinggi. Ini termasuk sekuriti kerajaan dan bon korporat.

(iii) Instrumen Kewangan Di Tahap 3

PERKESO mengklasifikasikan instrumen kewangan sebagai Tahap 3 apabila terdapat kebergantungan ke atas input-input yang tidak boleh ditinjau pada model penilaian yang menyumbang secara

(a) Determination Of Fair Value And Fair Value Hierarchy

SOCSO uses the following hierarchy for determining and disclosing the fair value of financial instruments by valuation technique:

Level 1: Quoted (unadjusted) prices in active markets for identical assets or liabilities.

Level 2: Inputs other than quoted prices included within Level 1 that are observable for the asset or liabilities, either directly or indirectly.

Level 3: Inputs for the asset or liability that are not based on observable market data (unobservable inputs).

(i) Financial Instruments In Level 1

The fair value of financial instruments traded in active markets is based on quoted market prices at the balance sheet date. A market is regarded as active if quoted prices are readily and regularly available from an exchange and those prices represent actual and regularly occurring market transactions on an arm's length basis. This includes listed equities and corporate debt securities which are actively traded.

(ii) Financial Instruments In Level 2

Where fair value is determined using quoted prices in less active markets or quoted prices for similar assets and liabilities, such instruments are generally classified as Level 2. In cases where quoted prices are generally not available, SOCSO then determine fair value based upon valuation techniques that use as inputs, market parameters including but not limited to yield curves, volatilities and foreign exchange rates. The majority of valuation techniques employ only observable market data and so reliability of the fair value measurement is high. These would include government securities and corporate bonds.

(iii) Financial Instruments In Level 3

SOCSO classifies financial instruments as Level 3 when there is reliance on unobservable inputs to the valuation model attributing to a significant contribution to the instrument value. Valuation reserves

signifikan terhadap nilai instrumen. Rizab penilaian atau pelarasan harga yang mana bersesuaian akan digunakan untuk digabungkan menjadi nilai saksama.

Teknik-teknik penilaian dan input-input yang digunakan secara umumnya bergantung kepada terma kontrak dan risiko yang terdapat dalam instrumen itu serta ketersediaan maklumat harga di pasaran. Teknik-teknik utama yang digunakan termasuk aset ketara bersih, aliran tunai didiskaunkan dan lain-lain model penilaian yang bersesuaian. Ini termasuk pelaburan ekuiti persendirian.

or pricing adjustments where applicable will be used to converge to fair value.

The valuation techniques and inputs used generally depend on the contractual terms and the risks inherent in the instrument as well as the availability of pricing information in the market. Principal techniques used include net tangible assets, discounted cash flows and other appropriate valuation models. These includes private equity investments.

(b) Instrumen Kewangan Diukur Pada Nilai Saksama Dan Hierarki Nilai Saksama

Nilai saksama instrumen kewangan dan teknik penilaian serta input-input yang digunakan untuk menentukan nilai saksama adalah seperti berikut:

(b) Financial Instruments Measured At Fair Value And The Fair Value Hierarchy

The fair value of the financial instruments and valuation technique and inputs used to determine the fair value are as follows:

(c) Fair Value Of Financial Instruments Not Carried At Fair Value

(i) Cash And Cash Equivalents, Deposits With Licensed Financial Institutions, Receivables And Payables

The carrying amount of these financial assets and liabilities are reasonable approximation of fair value due either to their short term nature or are repayable on demand.

(ii) Loans From Exchange Transactions

The carrying amount of loans from exchange transactions approximate the fair value. The fair value of loans receivable are estimated by discounting the estimated future cash flows using current interest rates for financial assets with similar risk profile.

The following table provides a reconciliation of Level 3 fair valuation for financial investments available-for-sale:
